

DEKTON D

INDIVIDUALLY DESIGNED

Imagine if there were no limits to stop your designs from becoming a reality.

Imagine if you could create the perfect color you've been looking for.

Imagine if you could transform that unique sketch into a customized slab.

Imagine if you had at your disposal a catalogue of textures, colors and shapes as big as your imagination.

**Now stop imagining.
Start creating.**

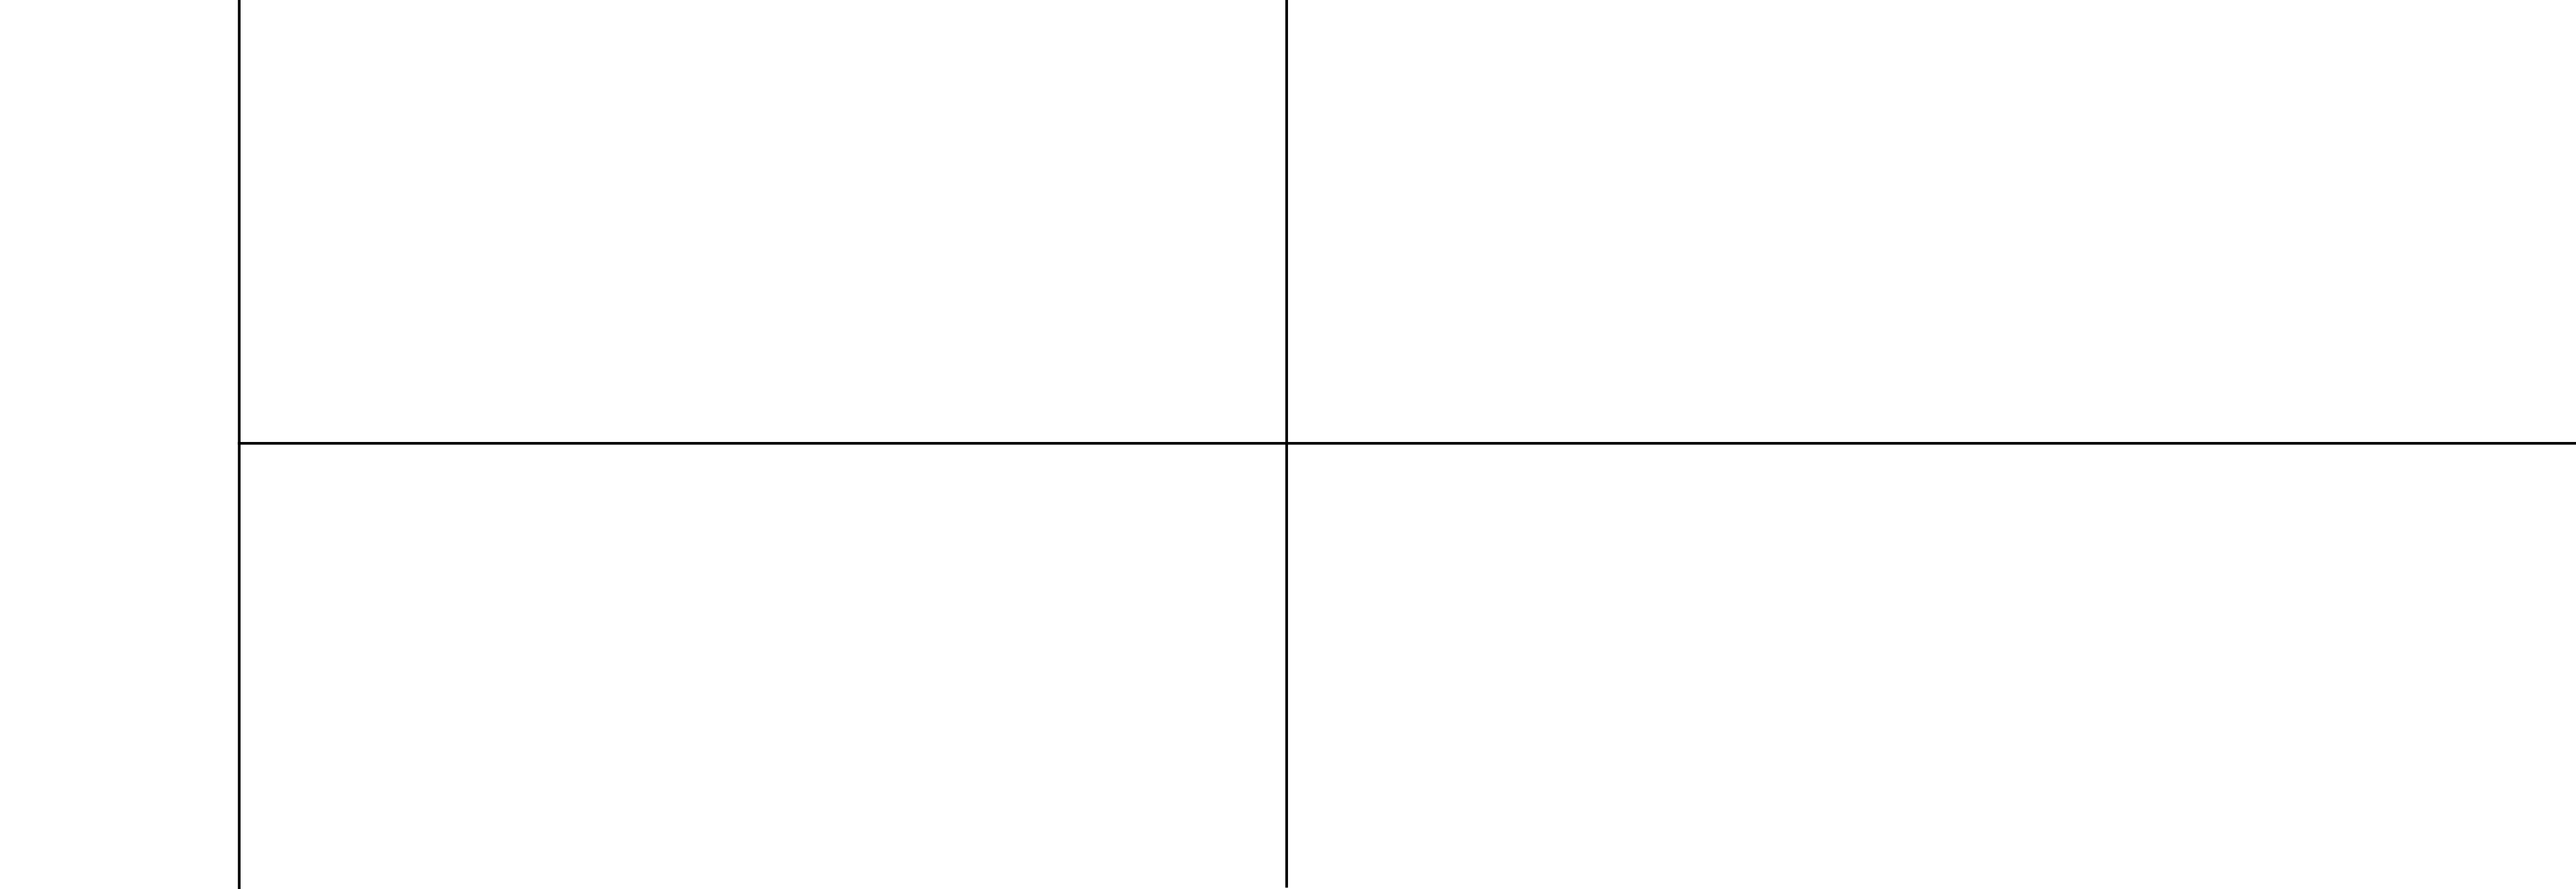

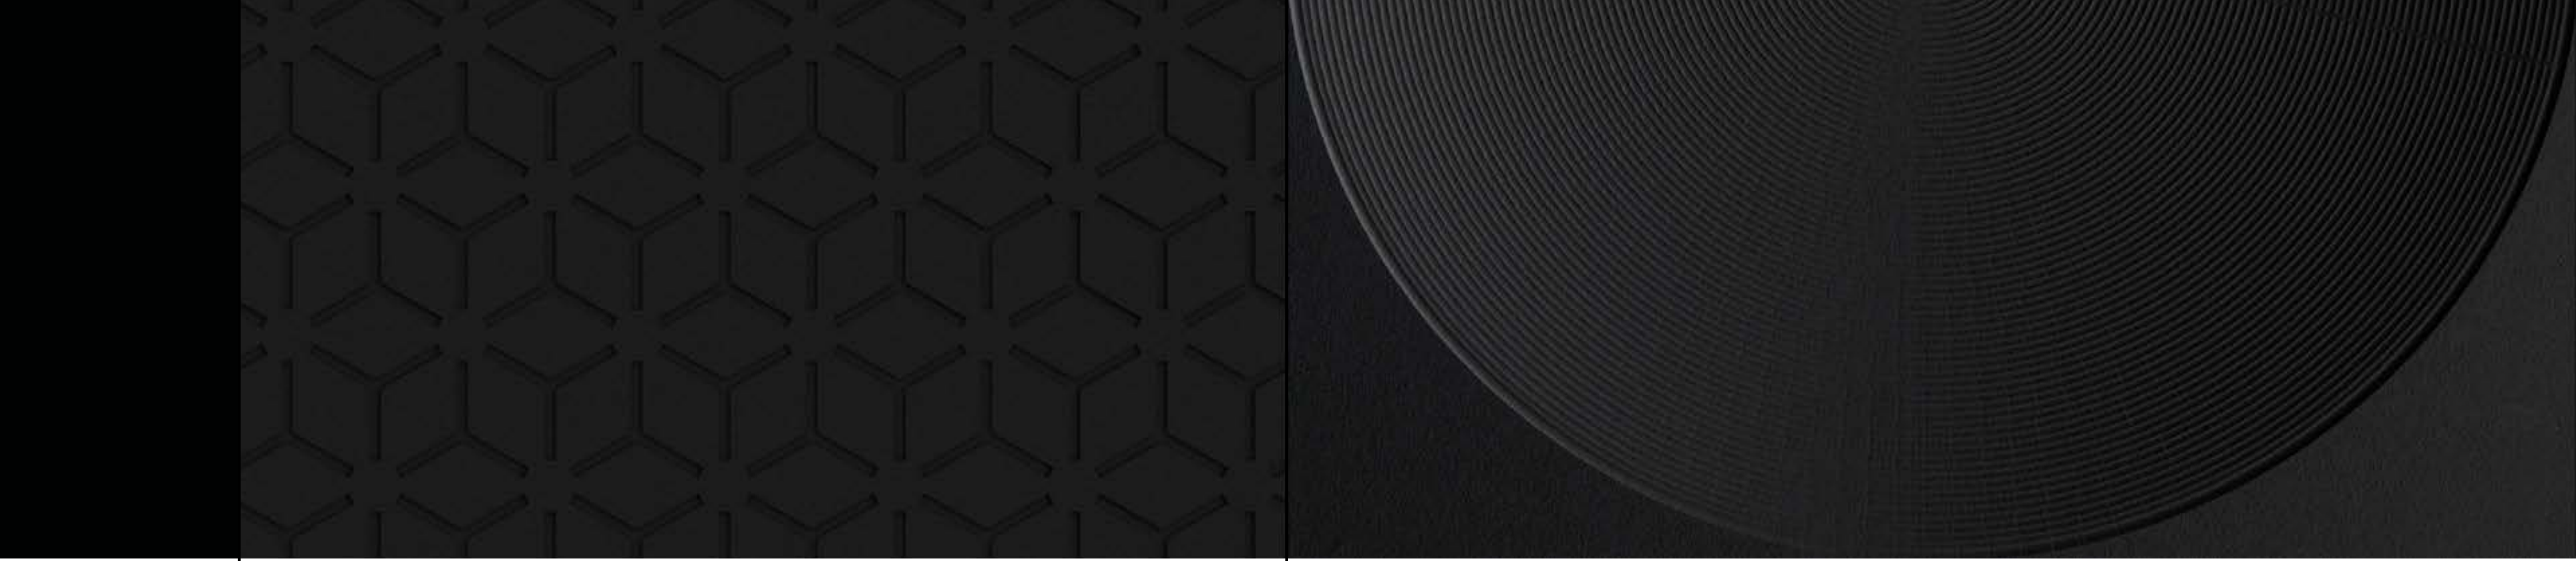

DEKTON iD

Cosentino launches Dekton iD, a new service which allows you to customize your Dekton® slabs without limits: exclusive colors designed by you; unique patterns adapted to your designs; and original textures and finishes.

**Discover Dekton iD.
Designed by you. For you.**

Architectural solutions from conception to completion

Cosentino is the world's leading company in innovative surfaces and architectural solutions. **With a presence in more than 110 countries**, Cosentino is involved in the entire value chain of projects led by architects and designers, providing **high-quality materials** and industry-leading designs developed with the **most innovative technology on the market**: Silestone and Dekton®.

More than 25 years of experience and thousands of projects support **Cosentino's know-how, which is customized for each professional**, who gains not only a material but also the knowledge and the end-to-end service in order to get the most out of each project.

 **COSENTINO CITY**

Cosentino City

**A space designed
for professionals, by
professionals**

COSENTINO CITY

Cosentino City is a meeting point exclusively created **for architects and designers to discover, explore and be inspired** by Cosentino's DNA as they work.

It is a vibrant activity space where professionals can get a first-hand look at all **the creative and technical possibilities that Dekton iD offers**, while being supported by Cosentino's experienced team.

COSENTINO CITY

Dekton® Advantages

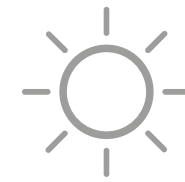

Dekton iD. All Dekton® advantages. No limits

Dekton® is a sophisticated **mixture of more than 20 minerals** extracted from nature. Its production process is the result of years of experience and is inspired by cutting-edge glass, porcelain and quartz manufacturing.

Dekton® uses **the exclusive TSP technology** in its manufacturing process, synthesizing mineral particles so that they join together and make a compact internal structure. Thanks to TSP, Dekton offers the following advantages.

Ideal performance in environments with extreme temperature changes.

High UV resistance. Thanks to a composition based on inorganic materials, its color will never fade.

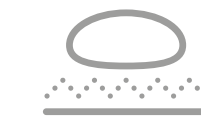

Dekton® is a non-porous material (<0.2%), making it very easy to clean and maintain as new.

Stains and dirt can be easily removed. You can even use abrasive products: neither color or texture will be damaged.

Furthermore, thanks to its non-porous surface, graffiti and tough stains will not penetrate Dekton's structure.

Dekton XGloss water-repellent material provides a spectacular shine to every surface.

Dekton® offers the best fire resistance performance.

Tests indicate that Dekton® offers values higher than 45/ mm2, making it one of the most reliable materials on the market.

Dekton® makes the building and fitting of any type of façade easier.

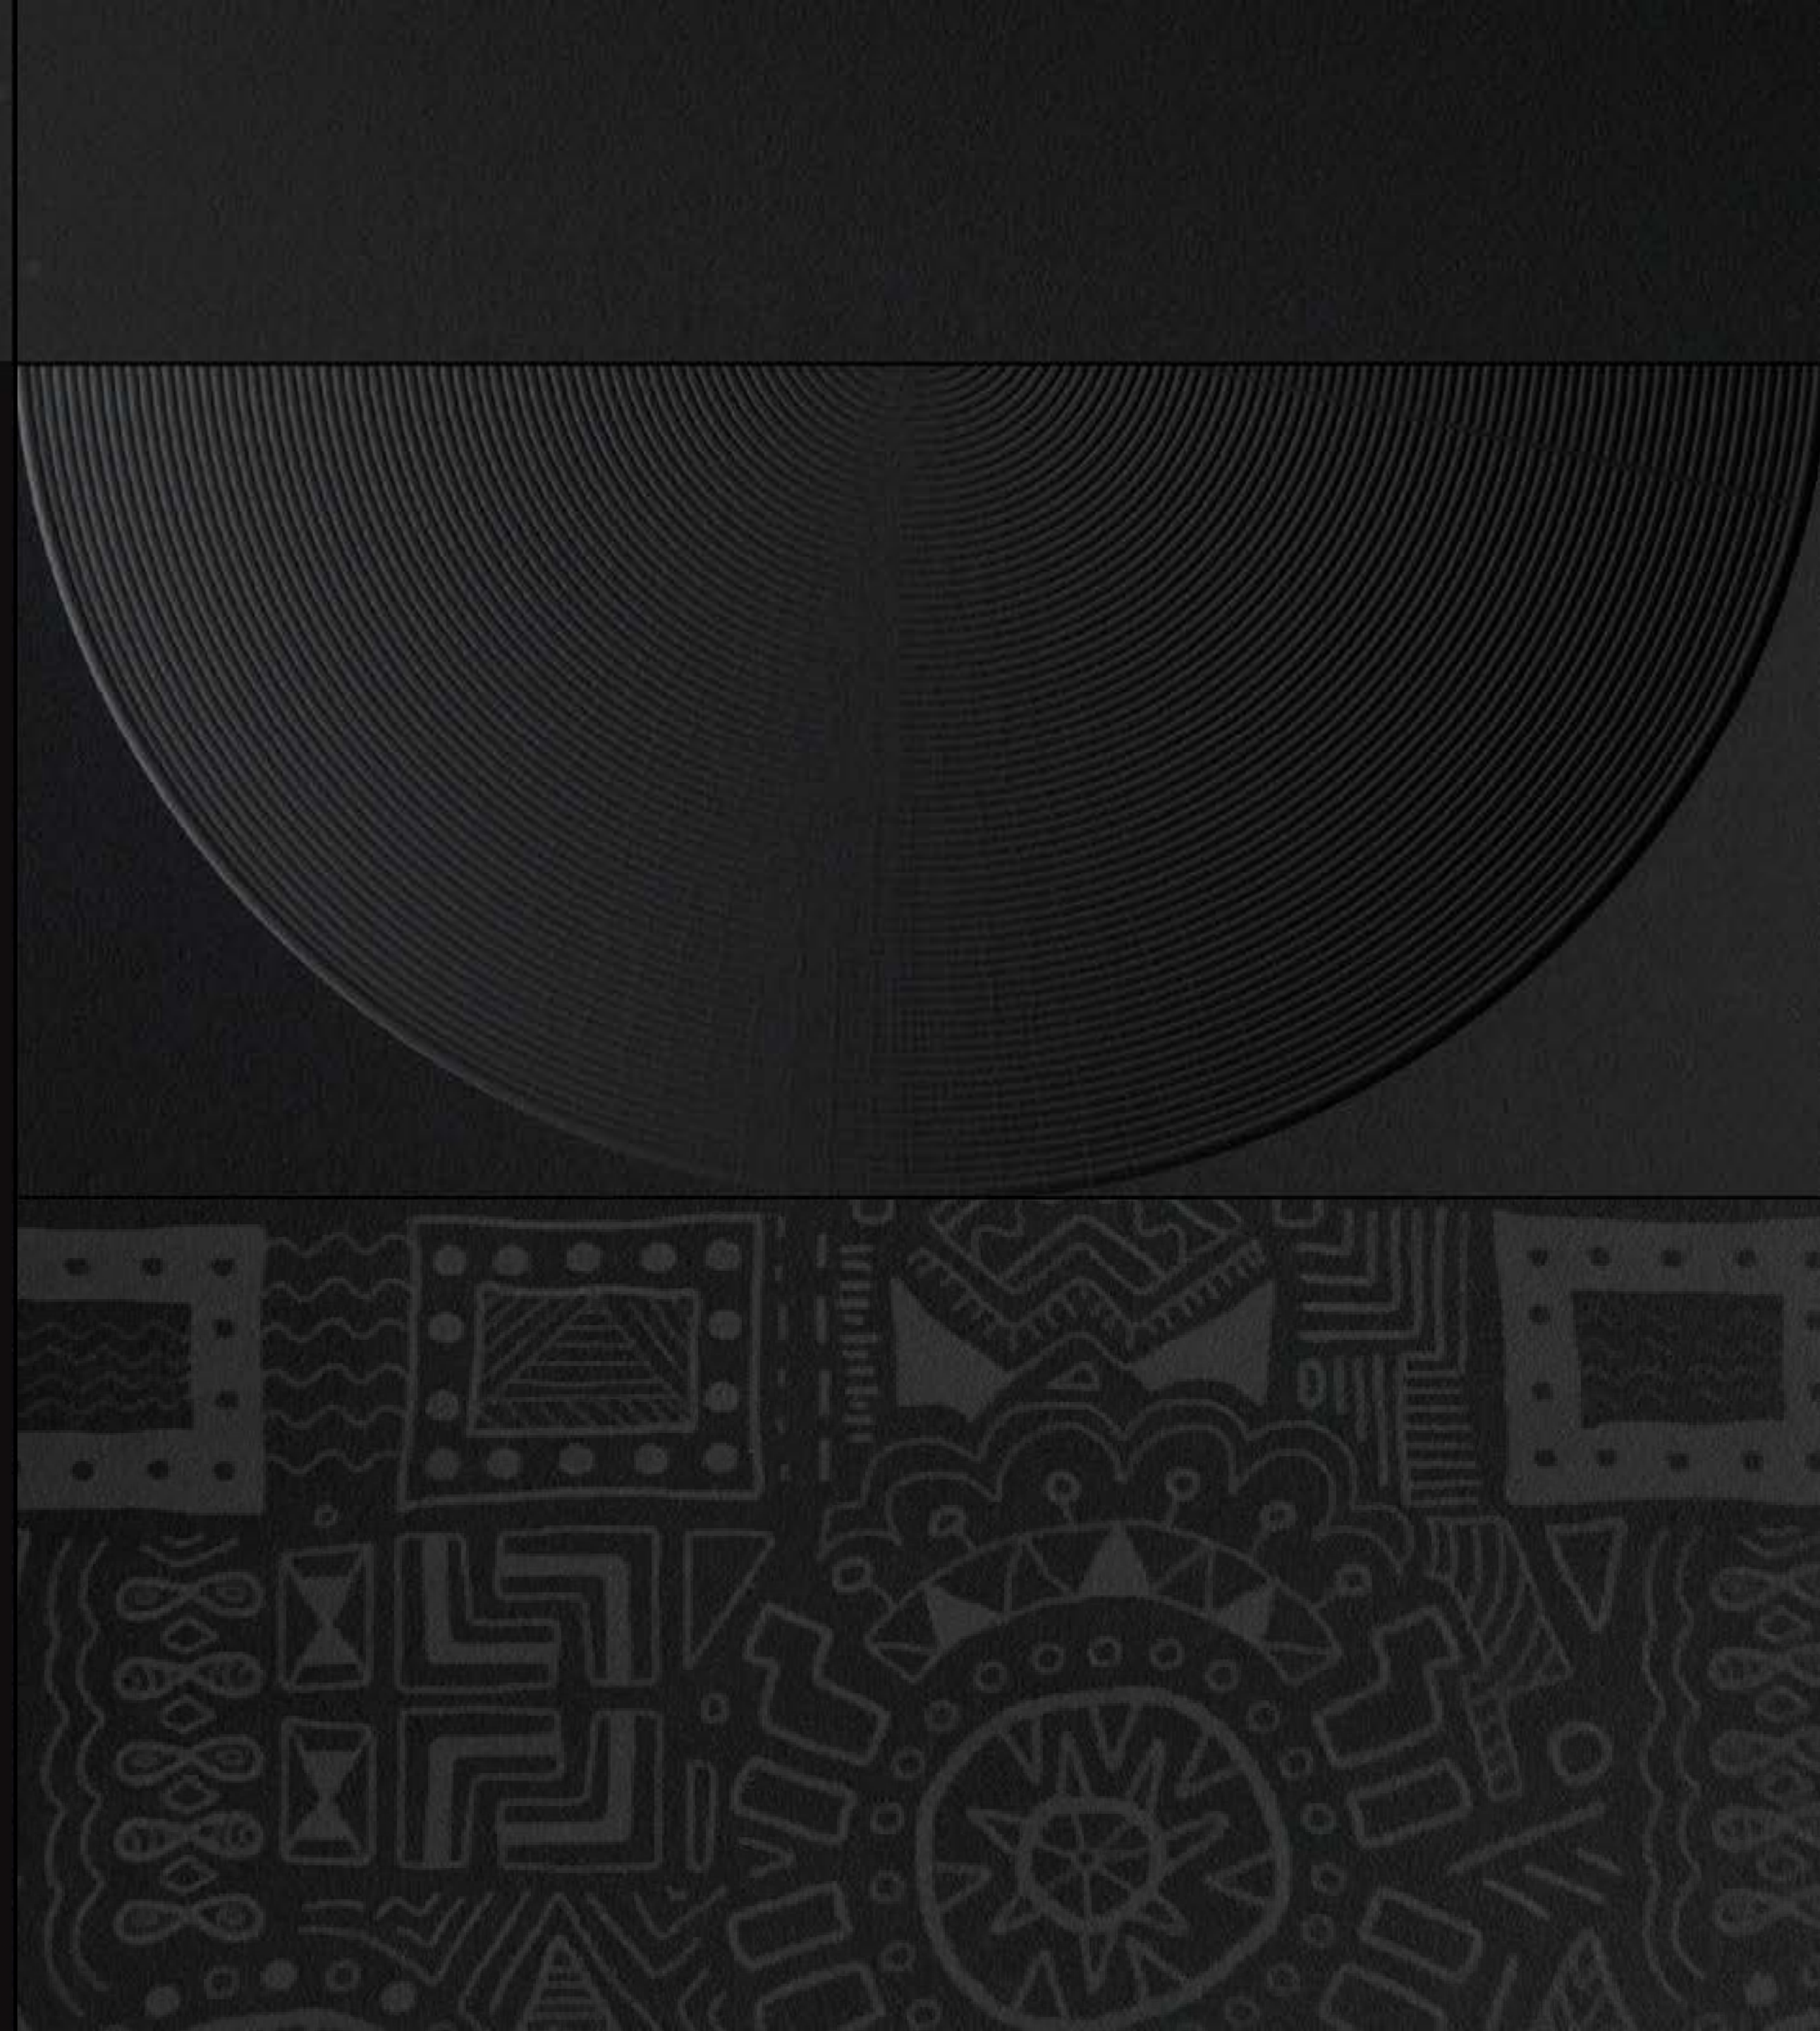

DEKTON iD

DEKTON iD

INDIVIDUALLY DESIGNED

Dekton iD is a Cosentino® cutting-edge service, that allows the customization of any Dekton® surface

With Dekton iD, **you can print graphics** in any color, **change textures** and **create totally original designs** with customized colors, textures and finishes. All of this, while maintaining all the advantages of Dekton.

Two different levels of customization to suit each project

Customize every feature, from color, design, texture and finish to a specific cut or size.

Possibilities are endless for **the most customizable product on the market.**

DEKTON ID PRO

From 1,600 sq ft.

Pick any base color from our catalogue.

Choose a texture.

Print whatever design you wish: patterns, graphics... even your brand logo.

DEKTON ID UNLIMITED

From 21,500 sq ft.

Customize all colors, textures and finishes.

Adapt all elements that suit you best, from base colors, textures and finishes, to formats and much more.

DEKTON iD PRO

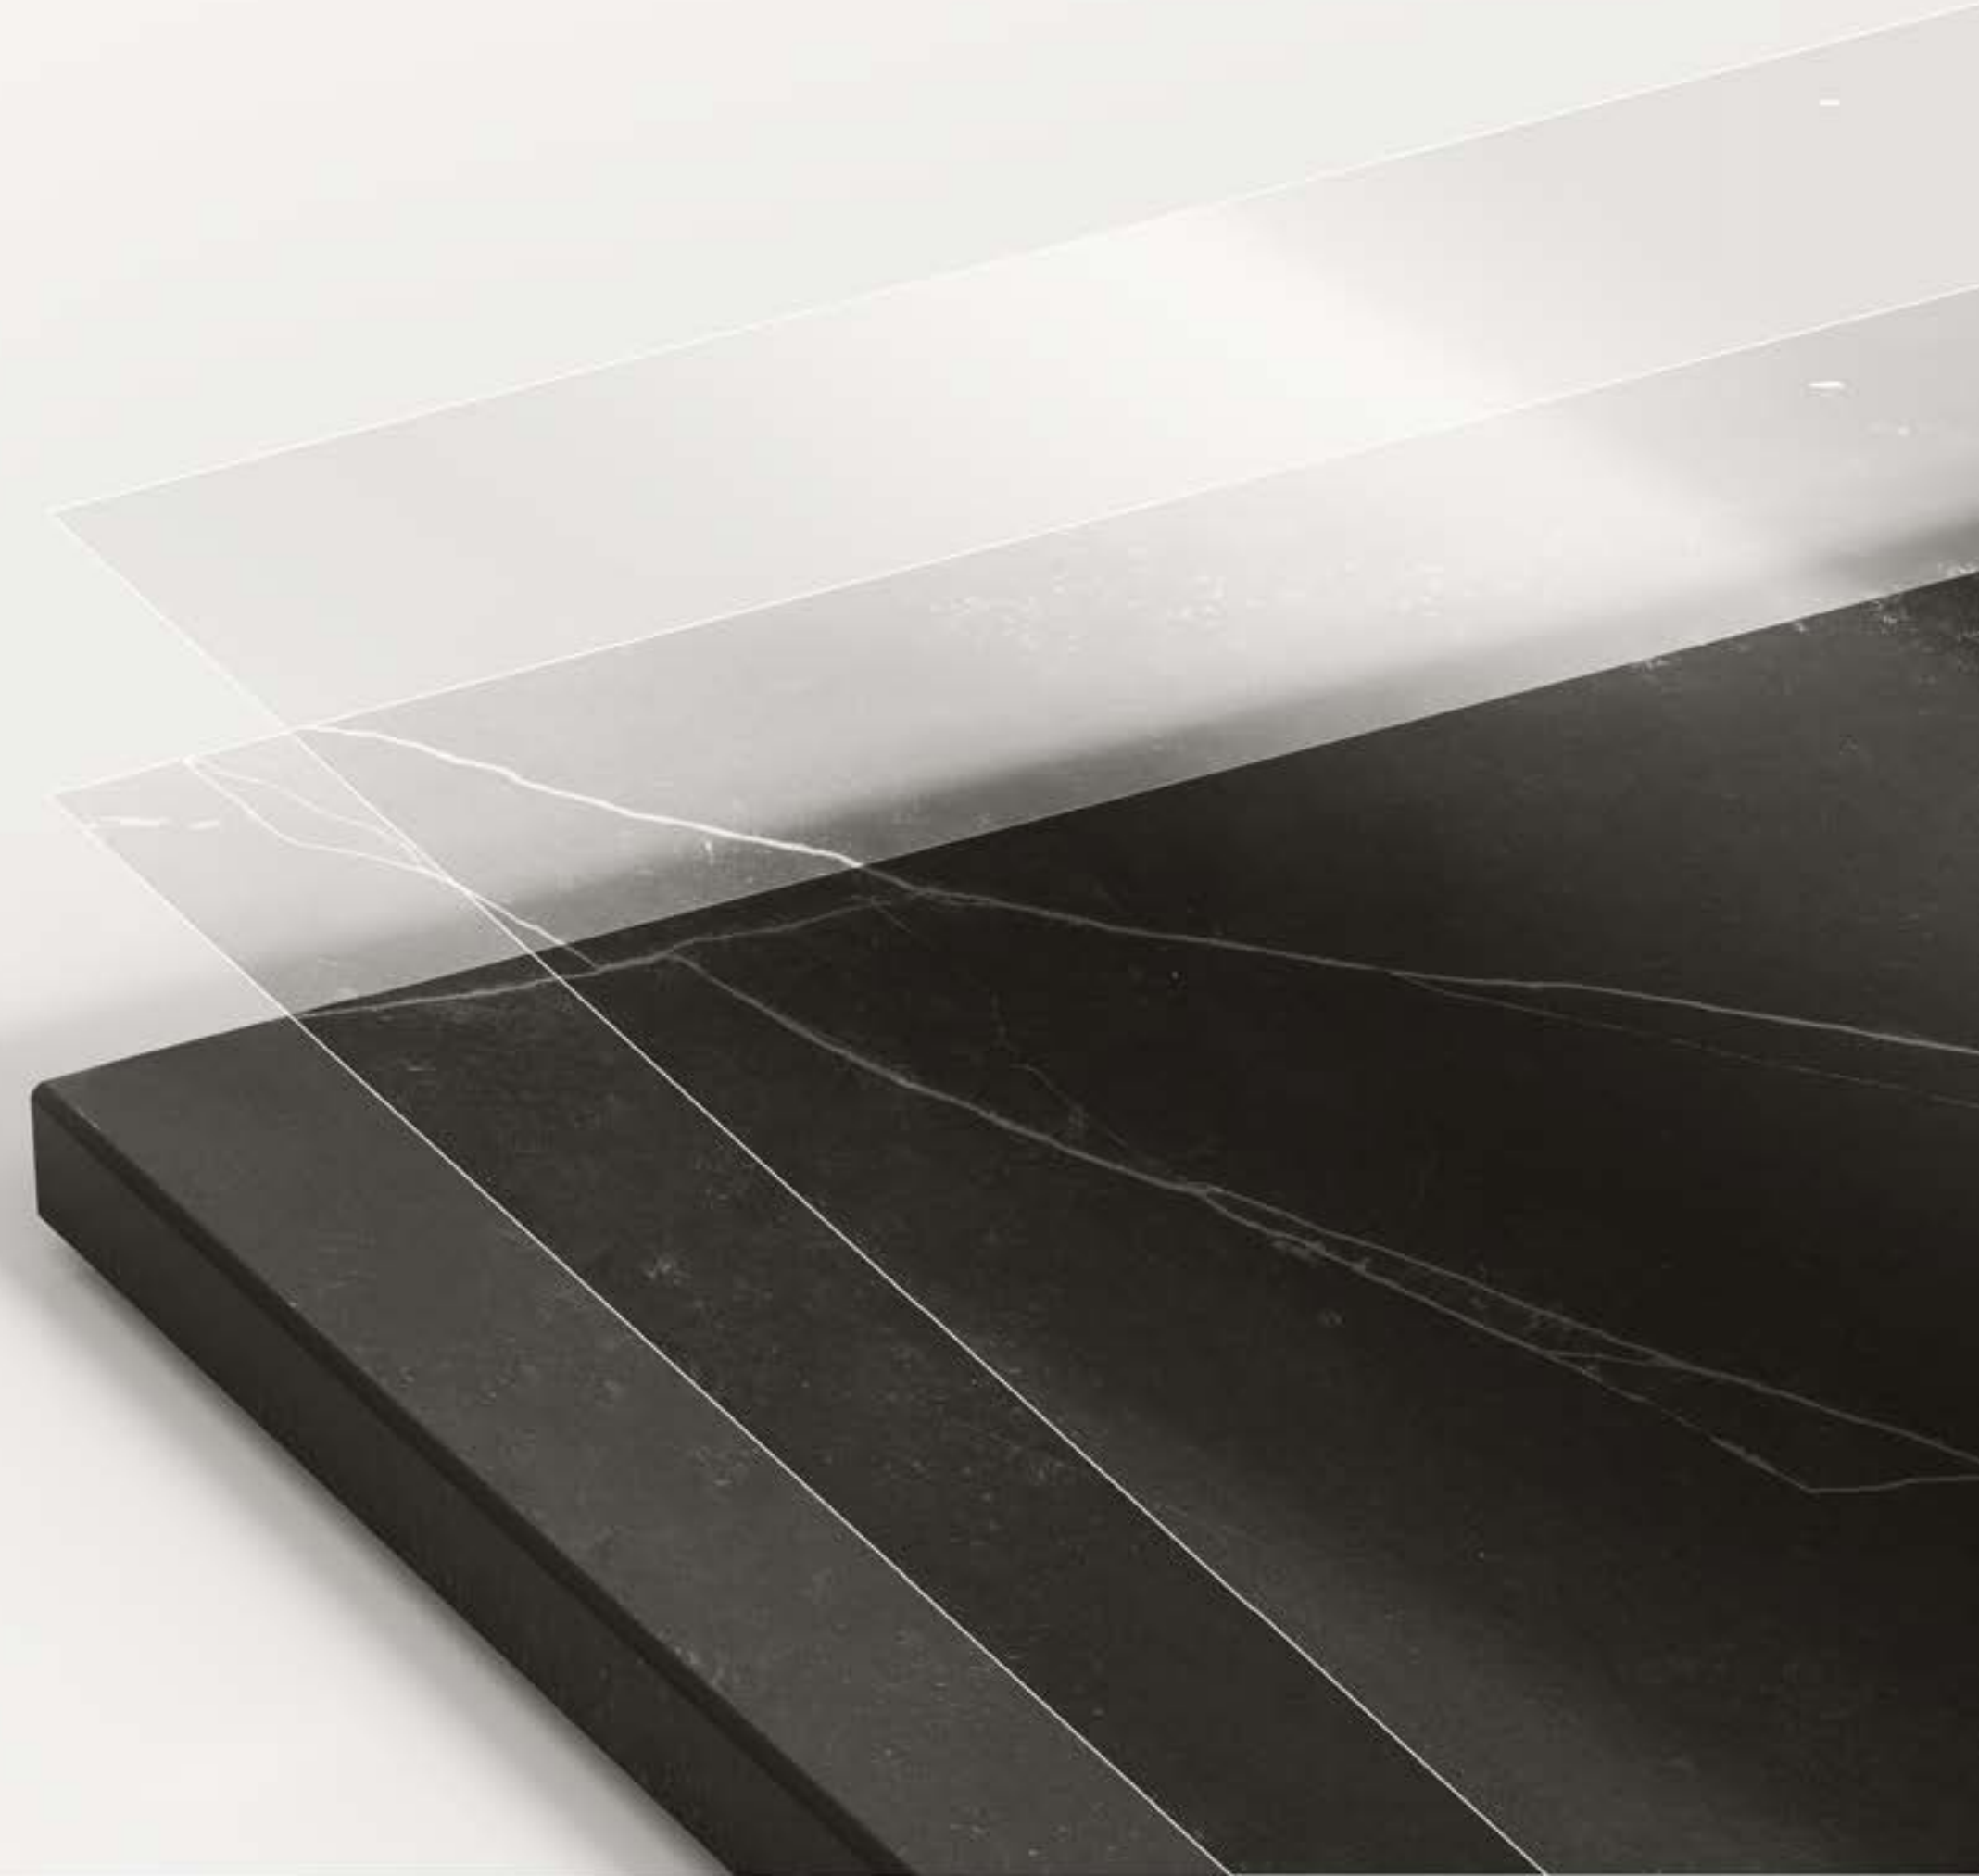

Dekton iD: all the tools to customize your project

Dekton iD Pro service **allows you to customize an architectural or design project** from a wide range of factors, creating truly unique Dekton® slabs.

Thanks to Dekton iD Pro, you will have at your disposal the extensive Dekton® colors catalogue to start designing your own slab.

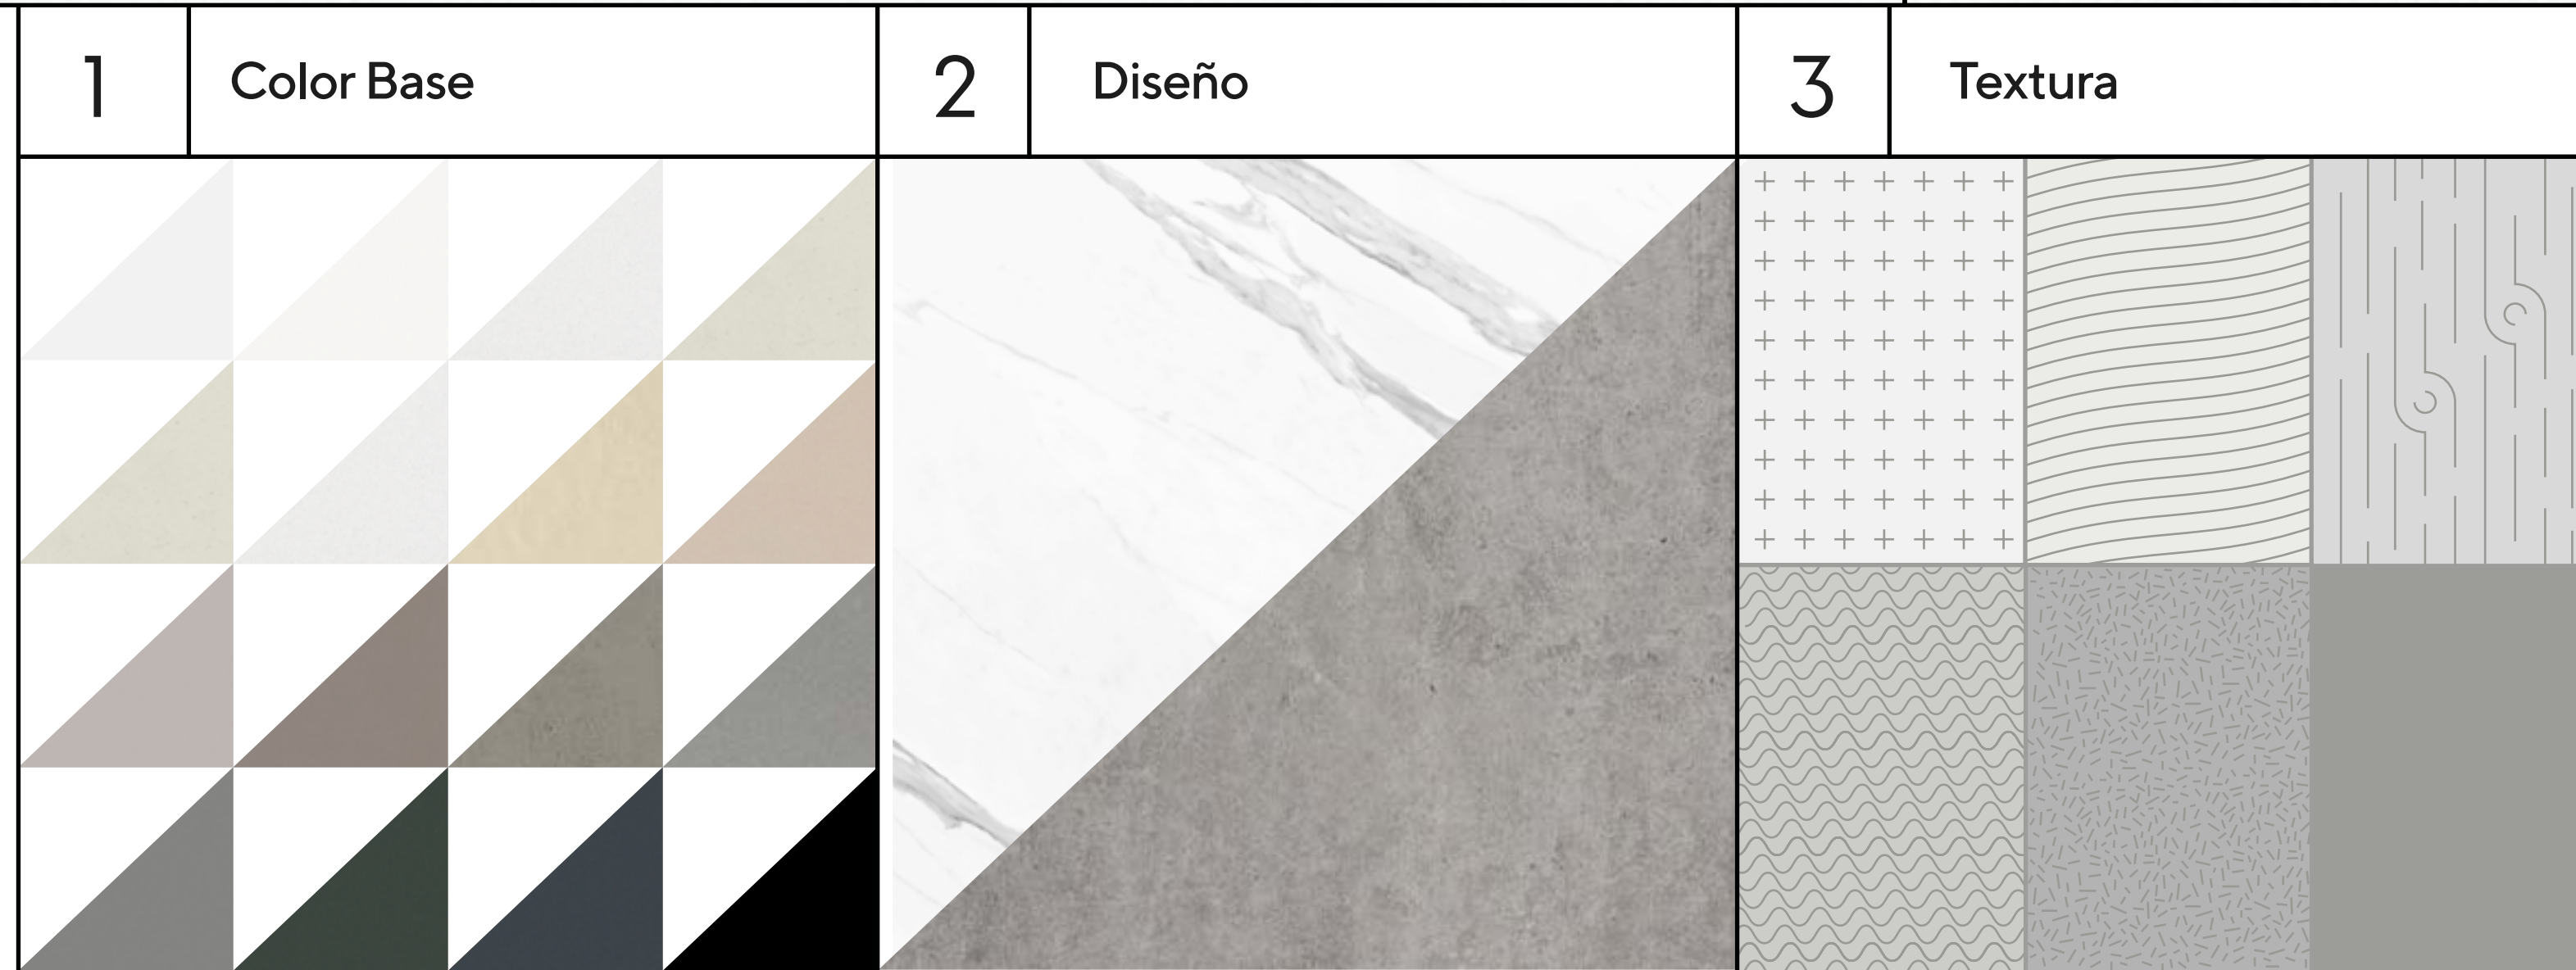

You can then customize its surface with a **specific design or grading**, as well as choose the thickness, cutting and texture that will give your project a unique finish.

The slab cut is also customizable. Any cut is possible, whatever size, thickness or shape your project requires.

DEKTON iD PRO Customization options

4 Thickness

While Dekton® standard thicknesses are 4, 8, 12, 20 and 30 mm, Dekton iD Pro allows to create specific thicknesses to suit each project's needs.

5 Cut

Dekton® large format slabs can be cut to size, regardless of the shape.

DEKTON iD UNLIMITED

Maximum level of Customization for your projects

Dekton iD Unlimited is **the ultimate design experience** in building materials. A blank canvas where the professional can customize every detail of the Dekton® slab, getting a high technical performance material with a **totally exclusive design**.

Cosentino's R+D team will be **supporting the professionals in the process**, so they can explore all the possibilities and features of Dekton®: from raw materials, color, structure, design and texture to advanced effects, cut, thickness and format.

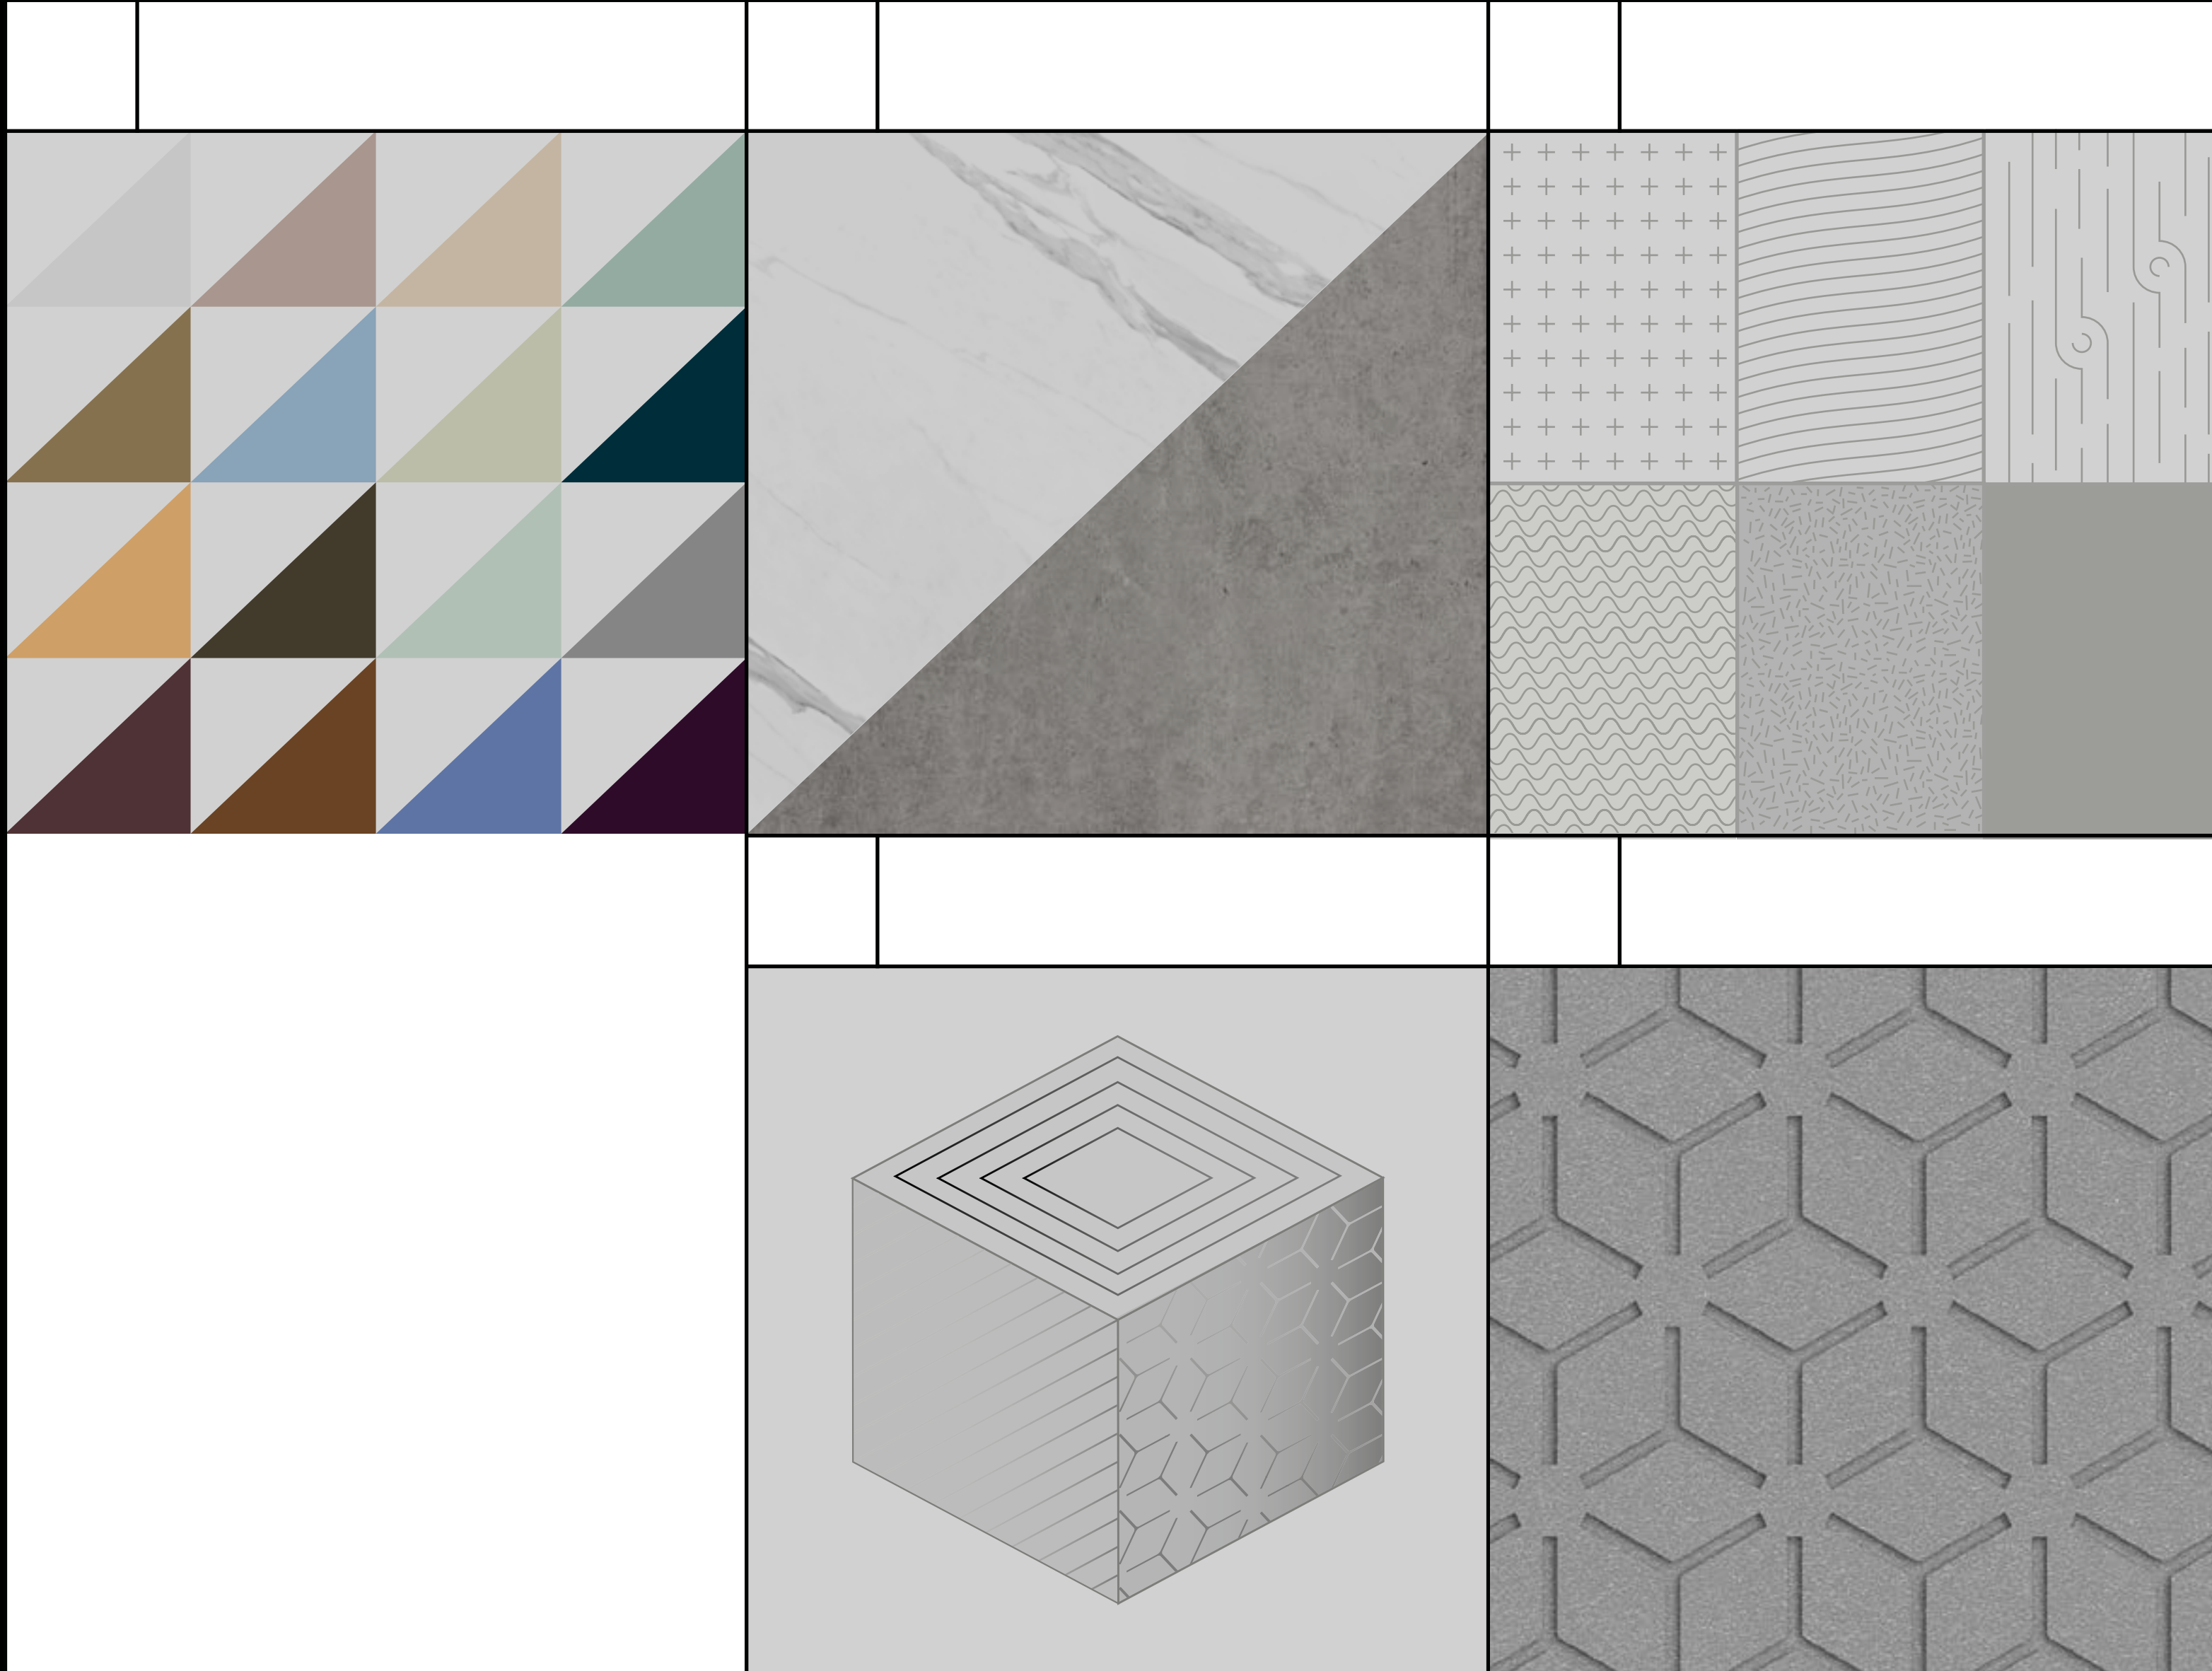

With Dekton iD Unlimited, the process of creating unique slabs starts with

an idea. It can be as challenging as the professional wants it to be. **There are no limits**. The process is clear. Dekton iD team will make the first project sketches while **the customer will get involved in every step of the process**, giving the go-ahead to every detail to ensure its success. **The professional provides the inspiration; Cosentino provides the means.**

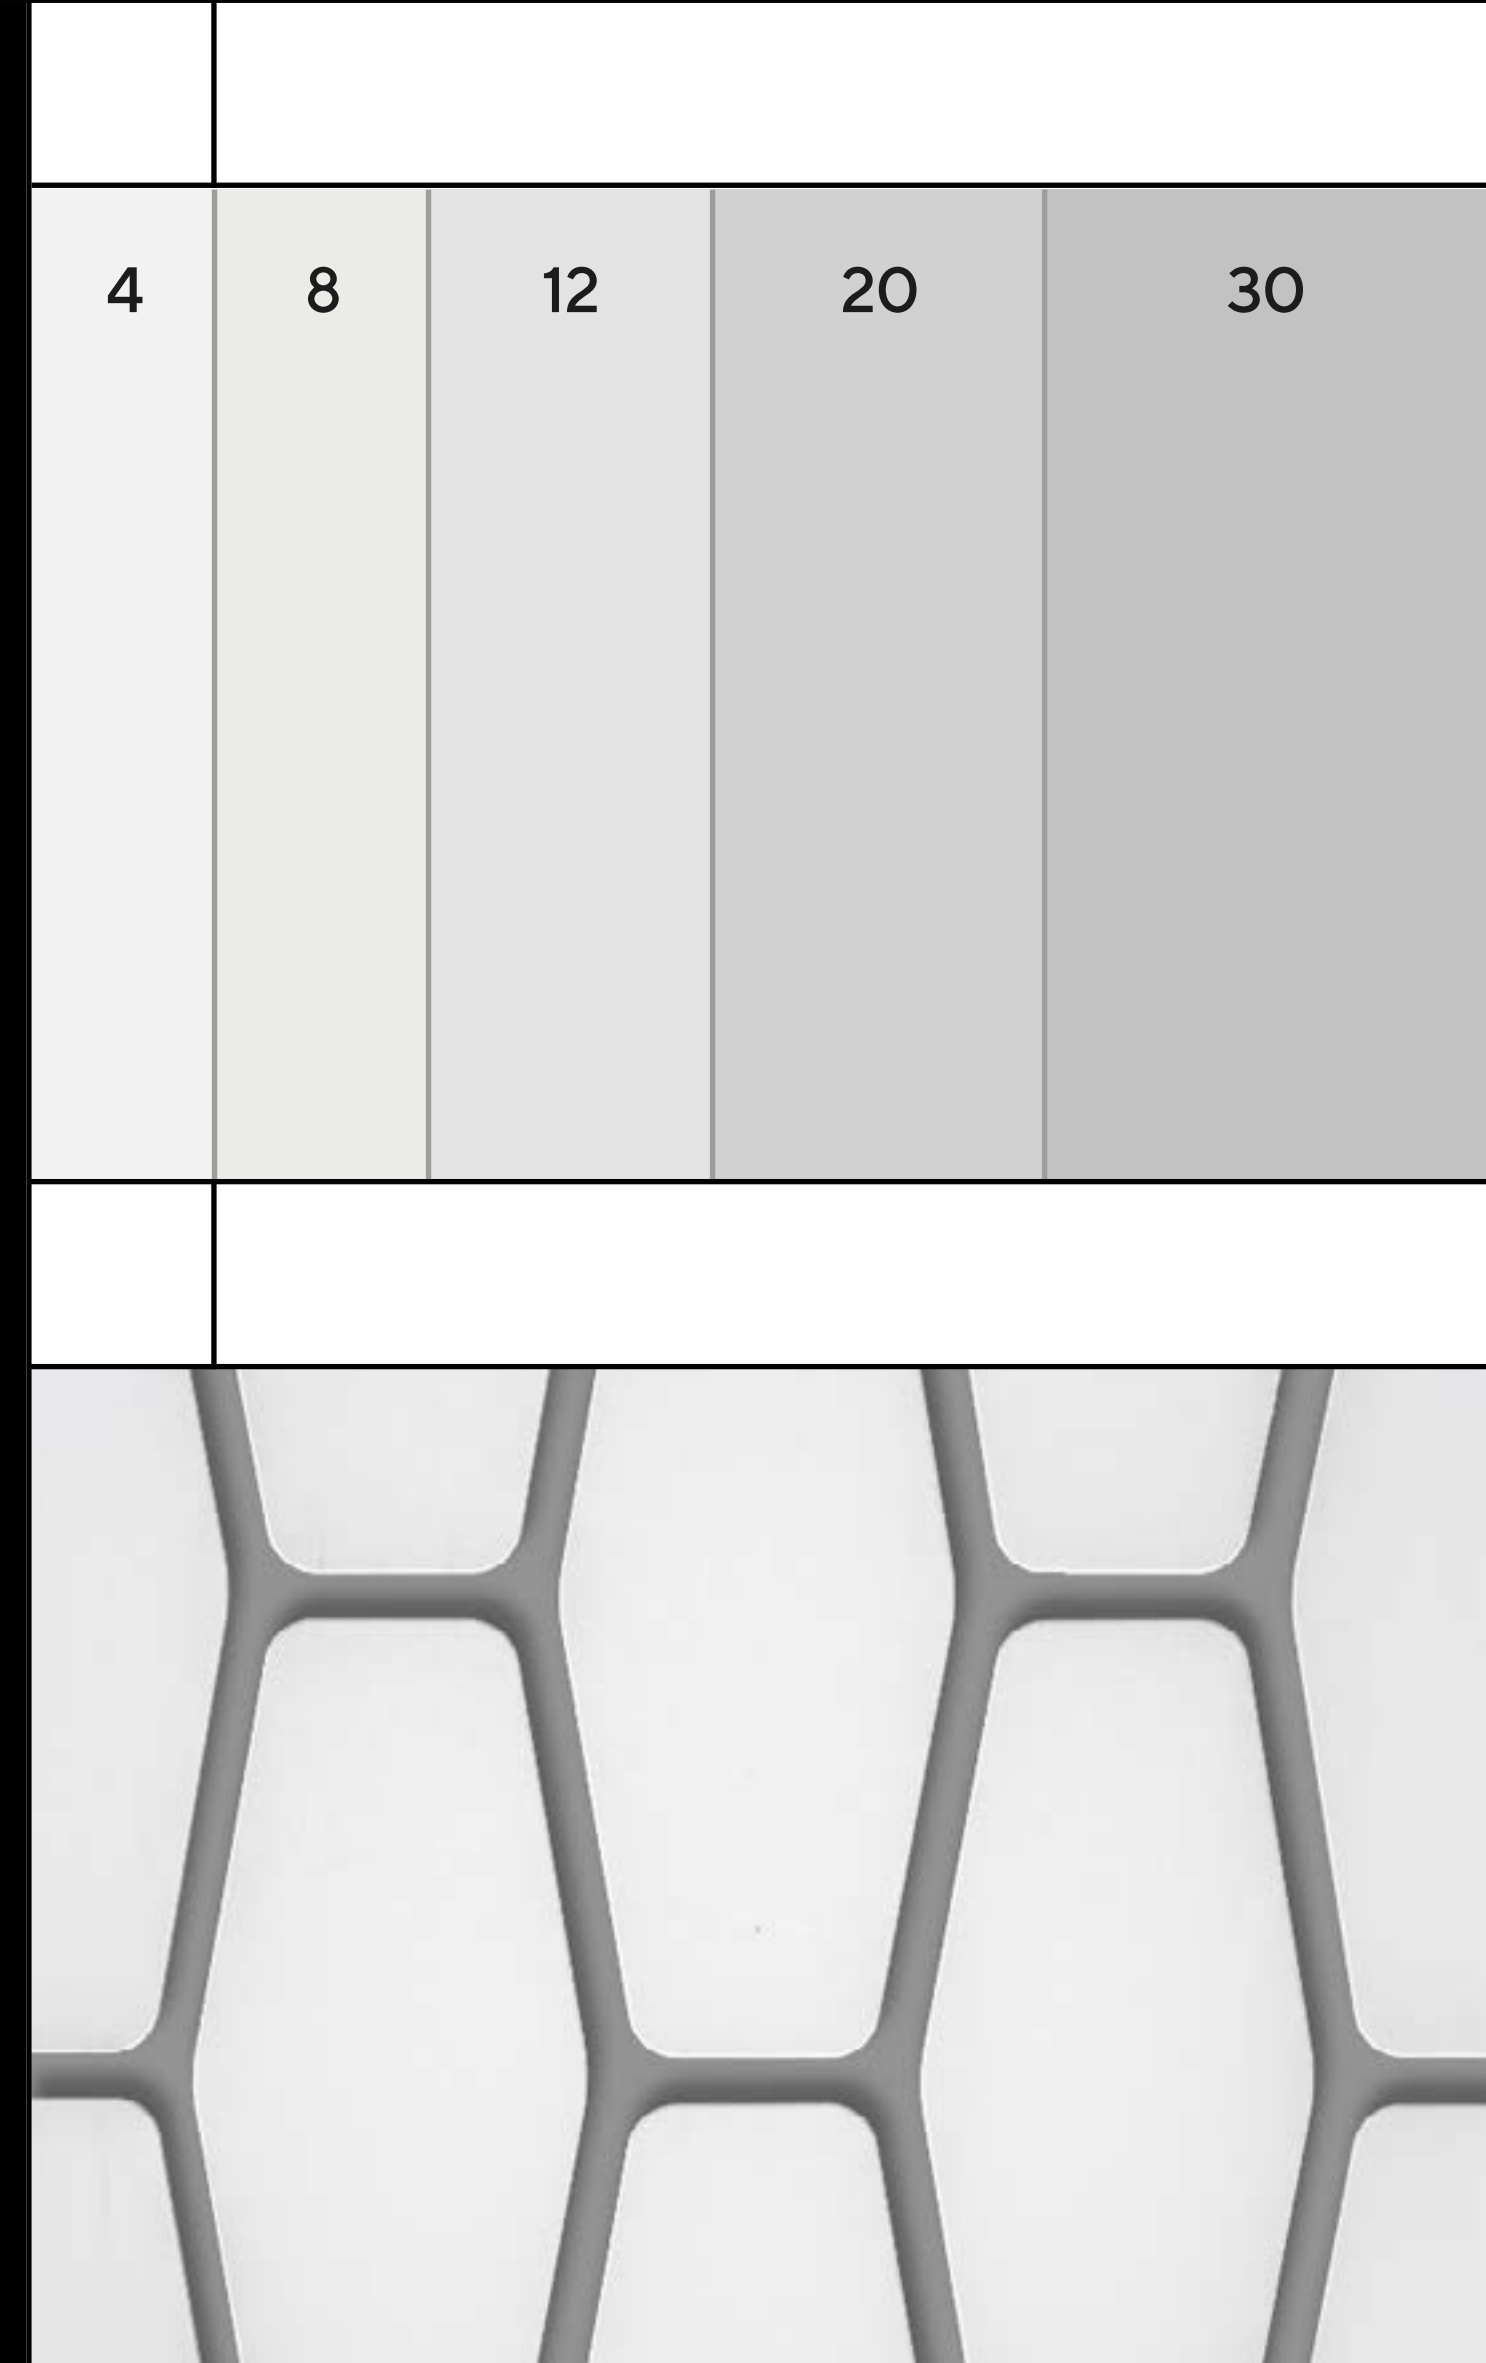

DEKTON ID UNLIMITED Customization options

APPEARANCE

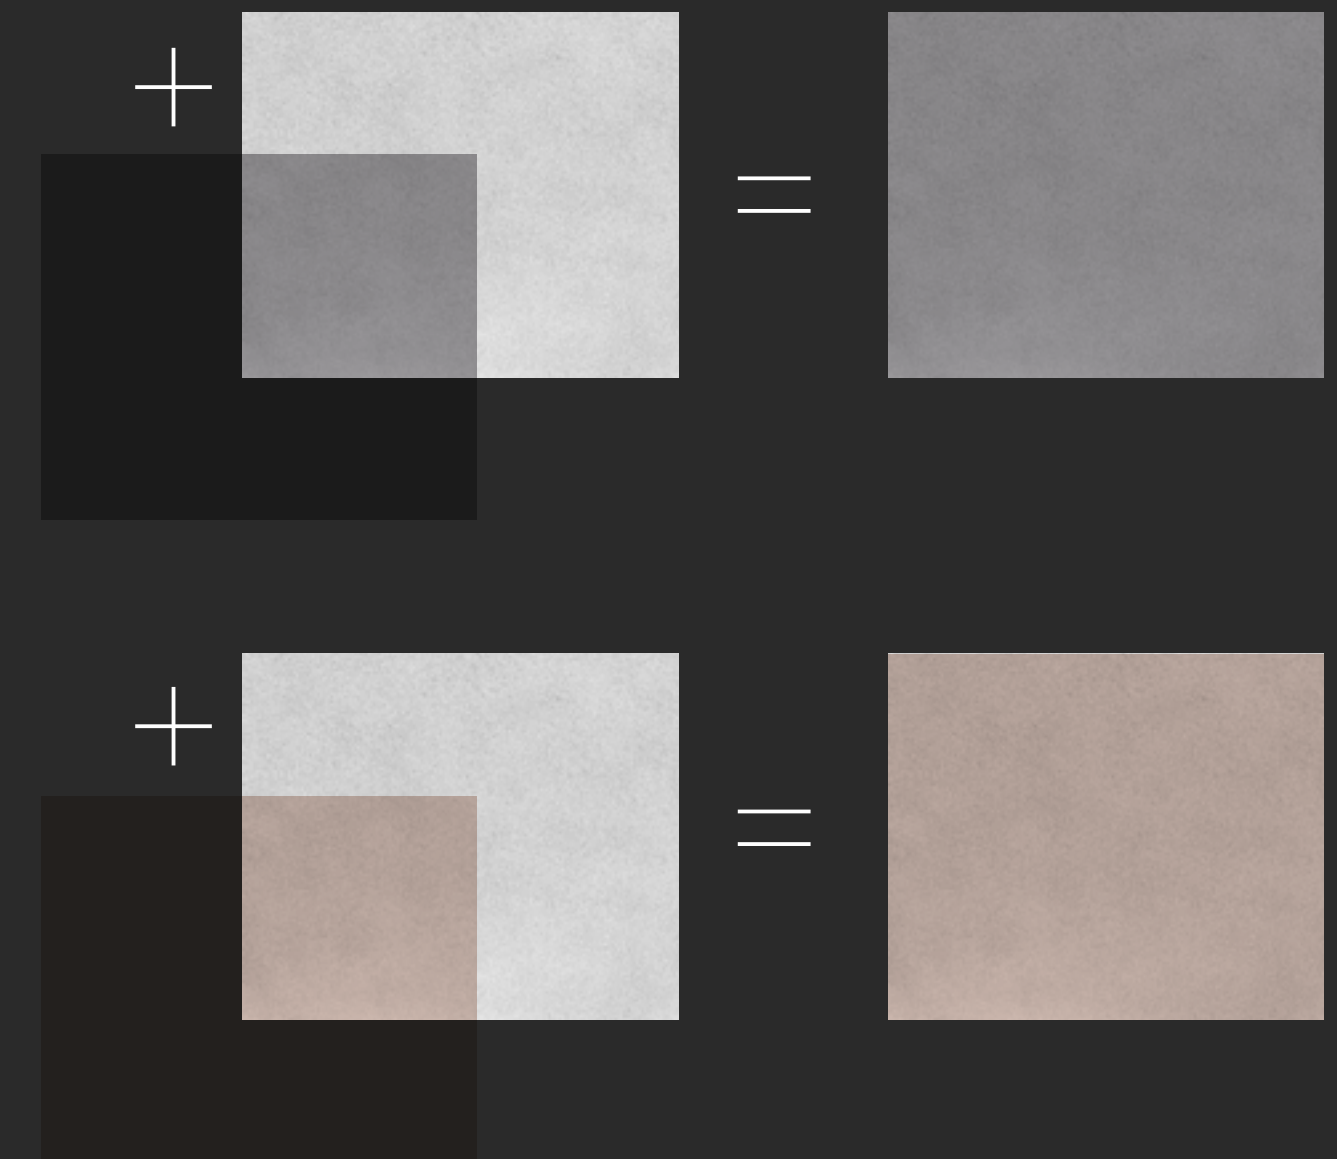

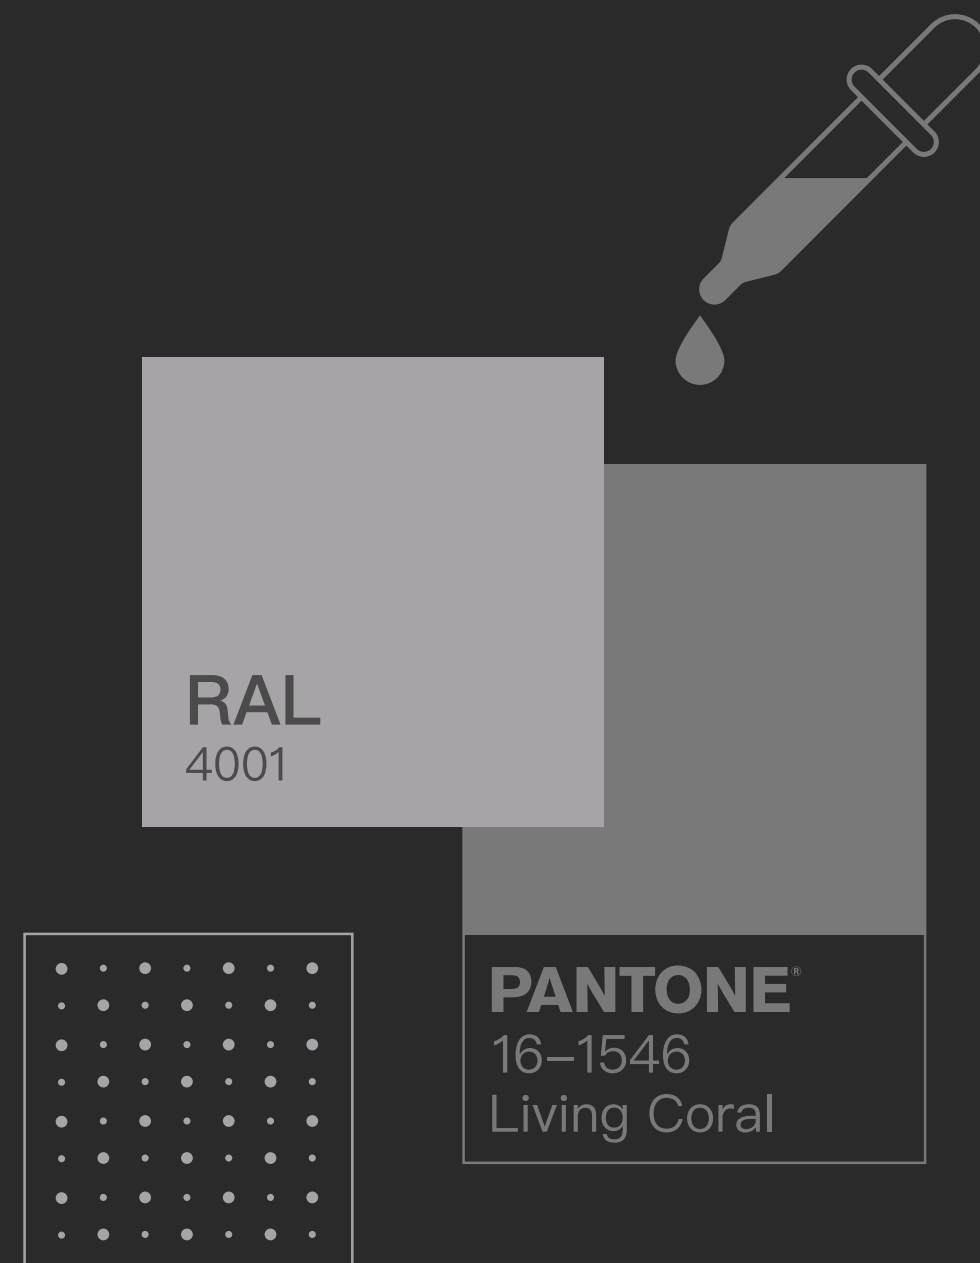

FORMAT

1 Base Color

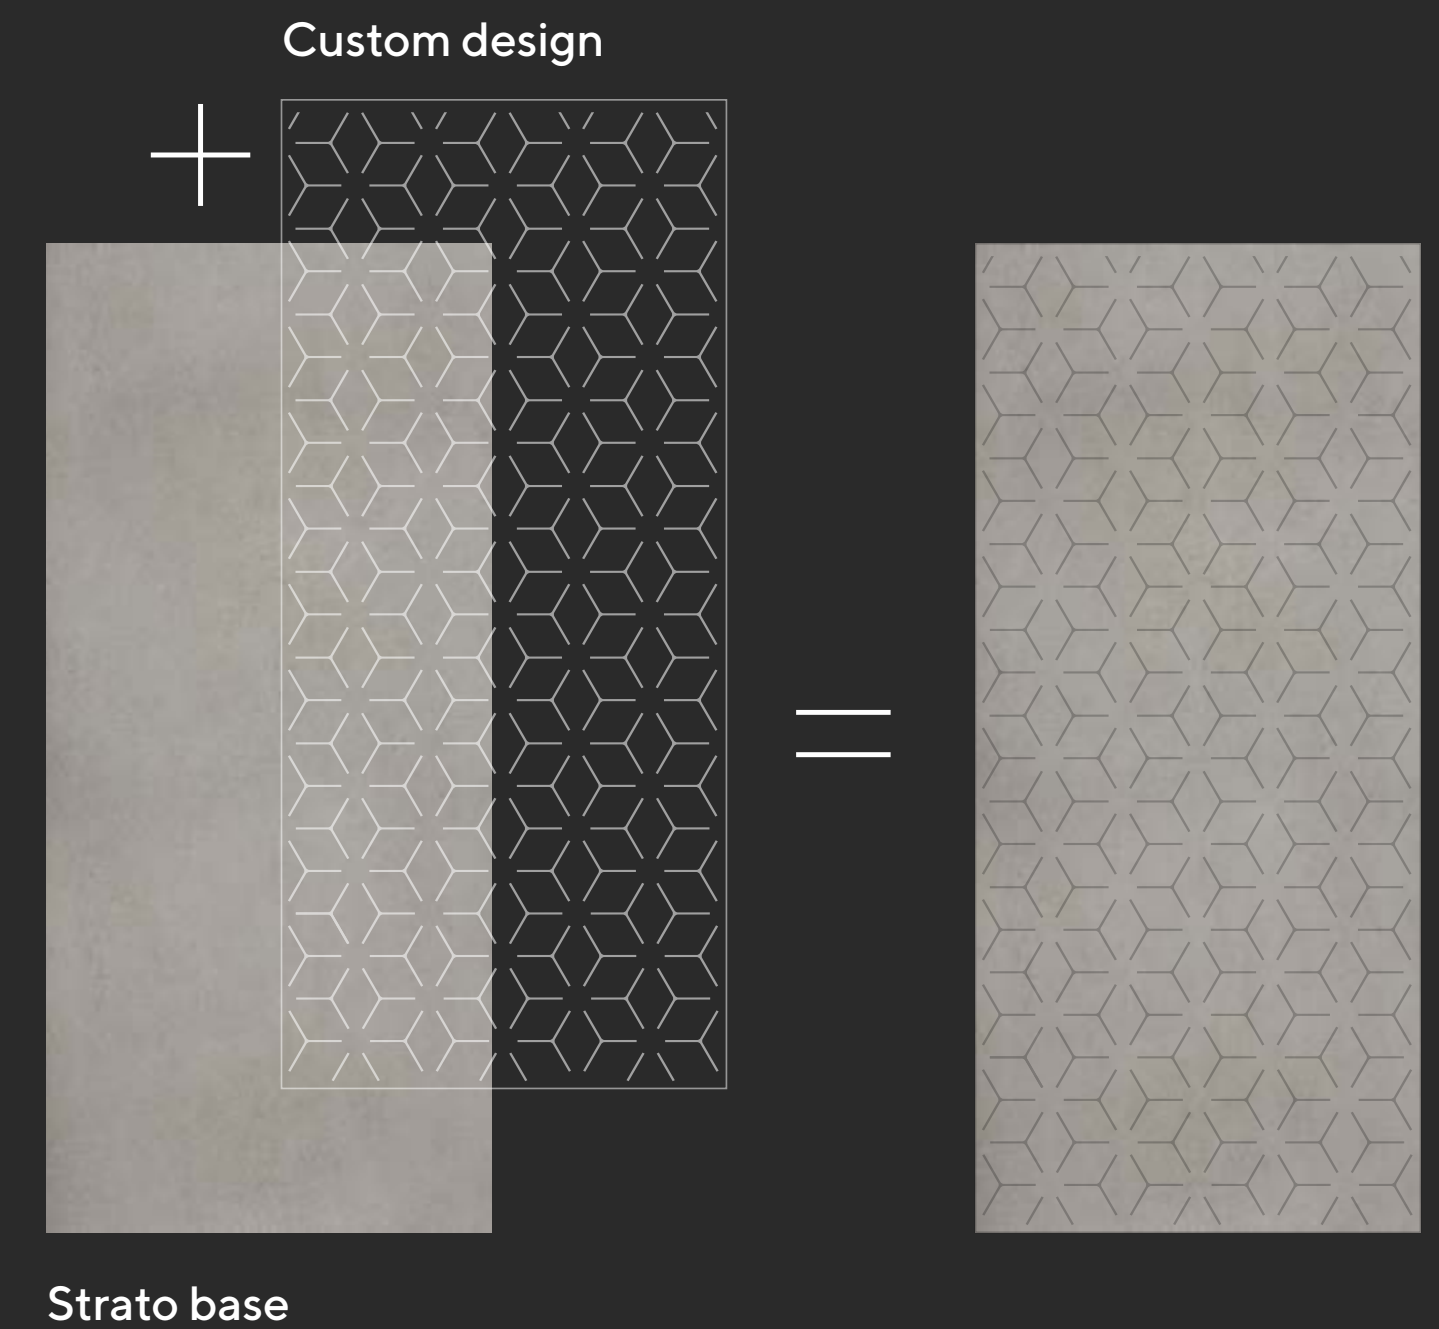

The customer sends the Dekton iD team **his/her initial idea**: it can be a color, either from Cosentino's catalogue or any other color reference, or **the image or photo that sparked the customer's inspiration**.

From that moment, the Dekton iD team will perform a series of tests to achieve the desired color. Meanwhile, the customer will be **receiving samples** and can adapt the product to his/her preferences.

2 Design

You can apply countless customized designs to Dekton® surfaces, as well as colors and gradients that will transform its appearance.

3 Textures

The different textures available, such as matte, ultra-gloss, wood and slate, to name a few, will provide the finish with attractive nuances and a unique feel to the touch.

Velvet

4 Effects

Additional finishes that provide, among others, **selective gloss**, **pearlescent effects** and **unique inks**, creating light base-relief.

Thanks to the effects, **it is possible to create all kinds of visual sensations** to enhance a texture or color, providing a very original final design.

Selective Granules

Base-Relief

Selective Gloss

Vivid Colors

Copper

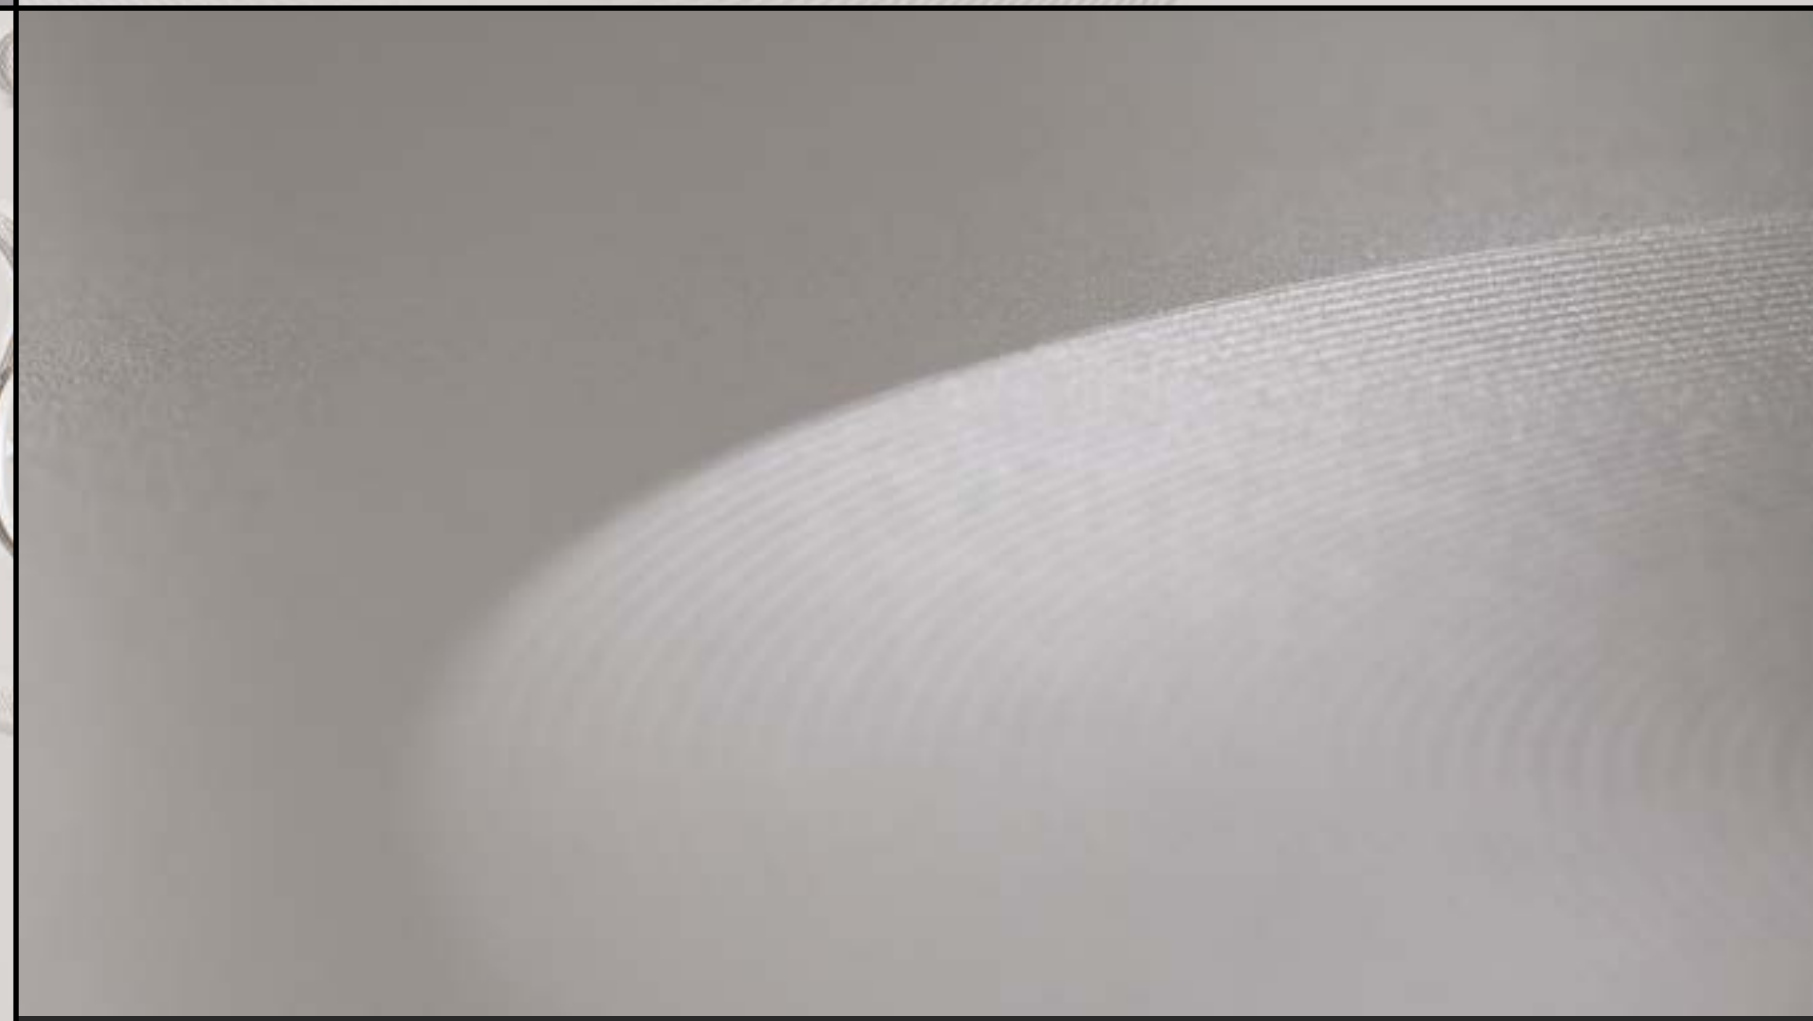

Brass

5 Mechanized

The mechanized process consists of creating base-reliefs on the surface, which may or may not be coordinated with the design.

This feature offers **endless possibilities** in terms of relief. For example, we could apply a relief that would produce a **hyper-realistic effect** on the surface.

6 Thickness

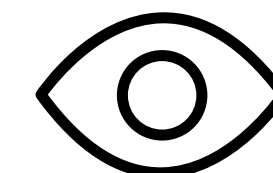

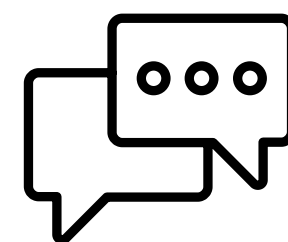

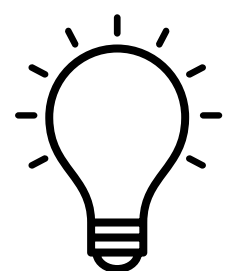

While Dekton® standard thicknesses are 4, 8, 12, 20 and 30 mm, Dekton iD Unlimited allows you to create specific thicknesses to suit each project's needs.

7 Cut

Dekton® large format slabs can be cut to size, regardless of the shape.

1 Submit your idea

Submit your idea to customdk@cosentino.com and start from scratch customizing its color, texture and format with **Dekton ID PRO**.

Or release your creativity on Dekton surfaces with the help of **Dekton ID Unlimited**.

You could check the project's development either through the samples that you will receive from Cosentino, or personally, through visiting Cosentino's facilities.

2 Personalized advice

Cosentino's R+D team will help you with your project, **supporting you** at every step of the process: from the initial idea, to the features and creative possibilities of Dekton®.

3 We bring your vision to life

Dekton ID's aim is clear: **to achieve a perfect, customized result just like you imagined it.**

DEKTON ID UNLIMITED Case Study Toha by Ron Arad + Avner Yashar

Customized color, graded in six shades

The Toha skyscraper challenge was clear from the very beginning: to create, from a photographic reference provided by the architecture studio in charge of the project, a customized color with a six-shade color transition.

The collaboration between the team of architects, which received sketches and feedback during the process, and the dynamic and well-coordinated work of Cosentino's team, made it possible to overcome the challenge and achieve a perfect color gradient.

Large format design possibilities

Large-format Dekton® panels were used to give visual continuity to the building. In addition, the installation of Dekton® panels had to be done in a very specific way: angled in a criss-cross pattern, creating a ventilated façade, unique in the world.

DEKTON ID PRO Spanish Pavilion - Milan

DEKTON ID CUSTOM DESIGN

Exclusive designs. No limits.

The Spanish Pavilion at the Milan Design Week Fair was a technical success thanks to the printing, on large format slabs, of a geometric figure with a specific visual made up of letters that seem to be moving.

DEKTON ID PRO Spanish Pavilion - Milan

Image printing on large surfaces

In this project, you can see all the custom design possibilities that Dekton iD Pro offers: geometric patterns, letters, and images printed on large format slabs. These custom features create a stunning final design, such as the recreation of this tomato genome.

Projects that fit like a puzzle

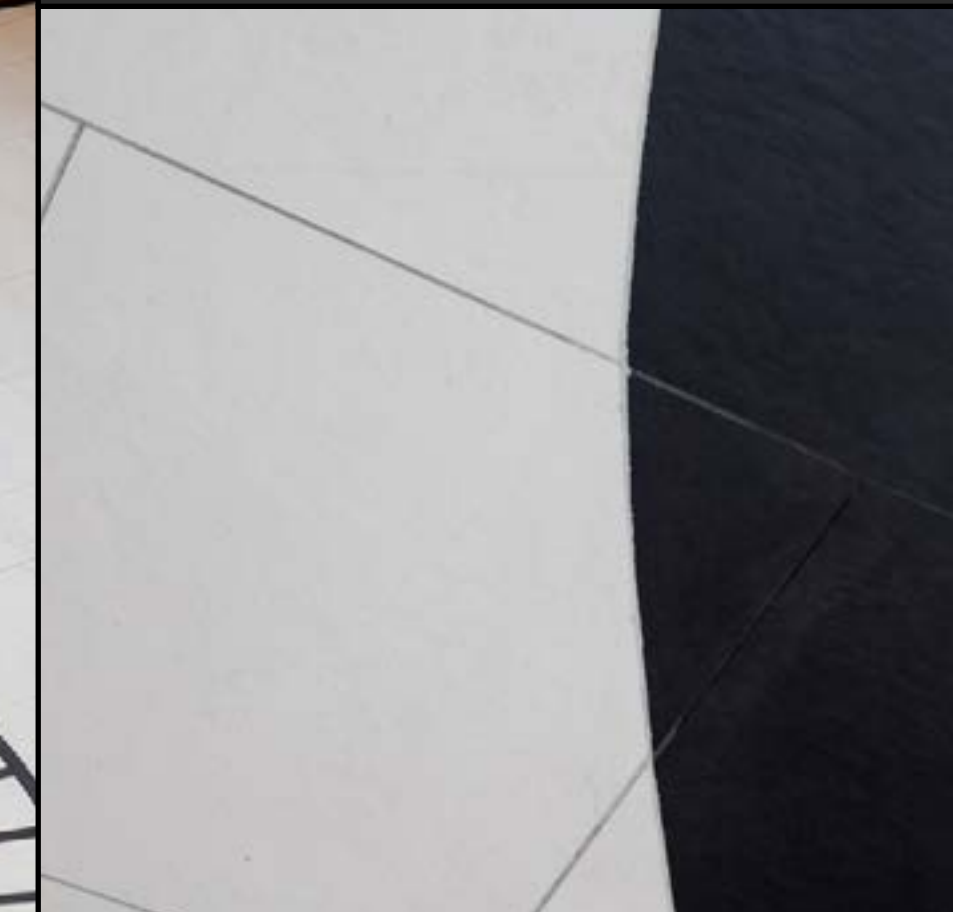

Origo Shopping Centre, in Latvia, has recently been refurbished with a new, avant-garde design.

The main visual attraction of the new facilities lies in the clock embedded in the flooring of one of its central squares. Customized pieces fitted together like a puzzle and create a high-impact visual sensation from Sirius and Danae colors.

With Dekton iD, slabs can be cut to size and adapted into the desired design. For Origo, more than ten customized cuts of large-format slabs were made to achieve a unique flooring design.

DEKTON iD UNLIMITED

Case Study Centro Comercial Origo by Gudmundsson Arkitektur AB

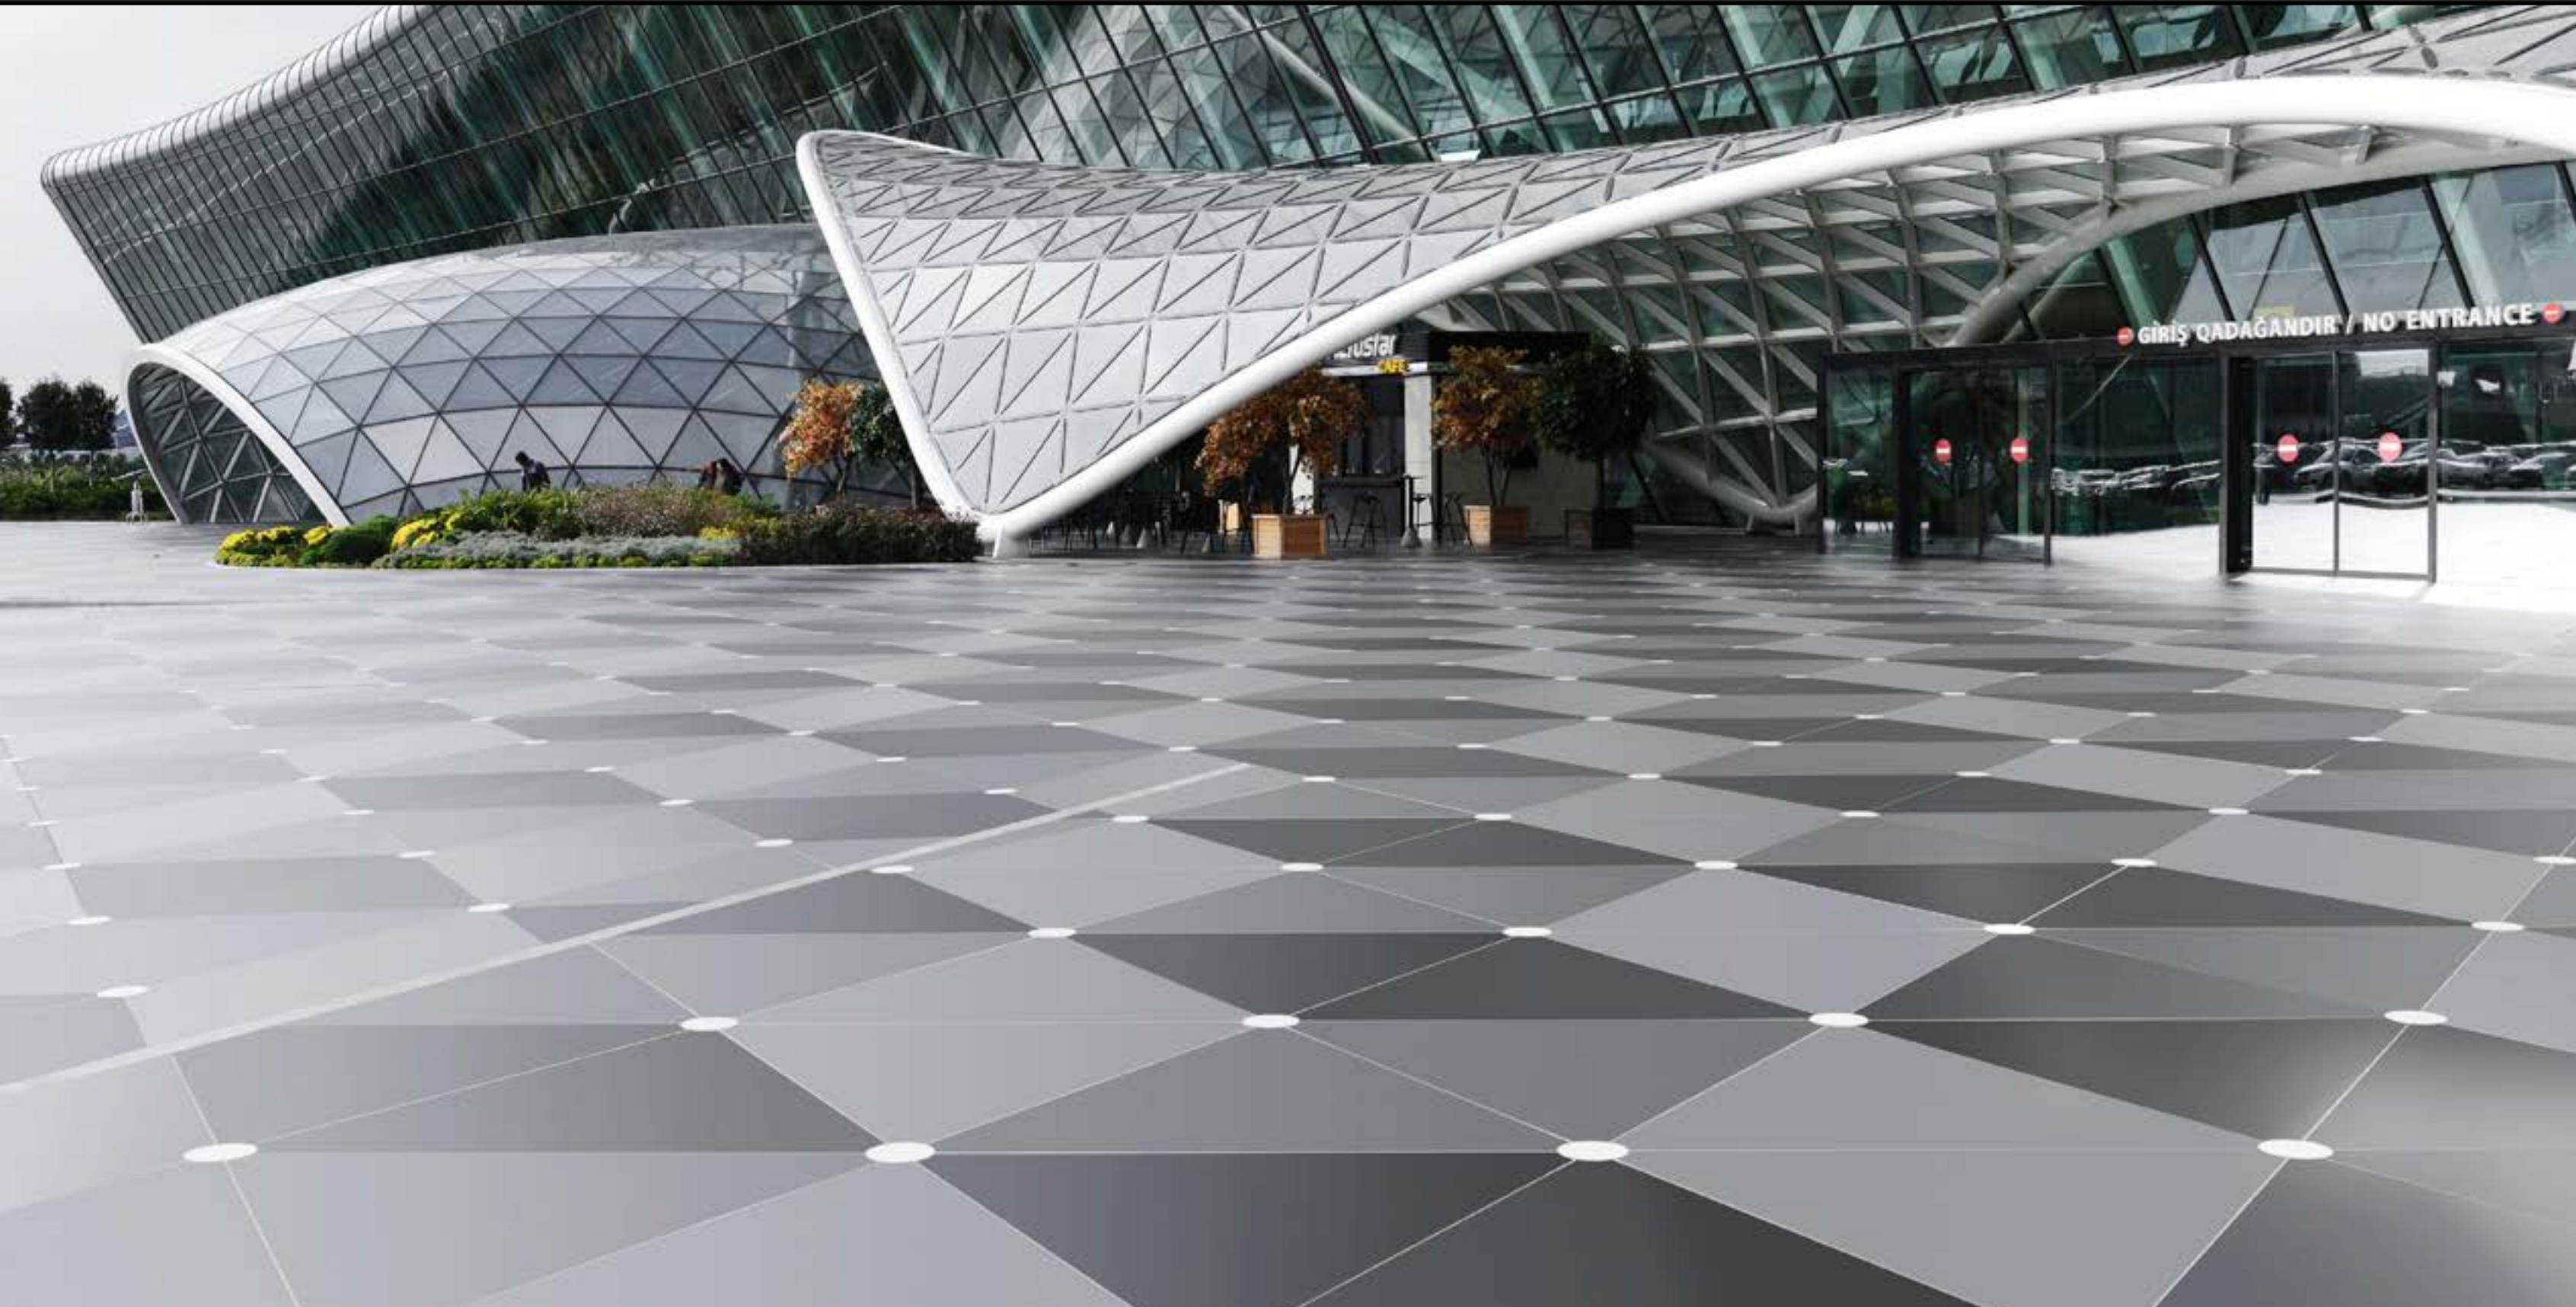

Dekton iD maintains all the properties of the material

Dekton iD limitless customization keeps all the properties of the base material intact: Dekton® maintains the material's resistance, ease of maintenance and grip, making it the perfect choice for high pedestrian traffic floorings.

DEKTON ID UNLIMITED Baku Airport

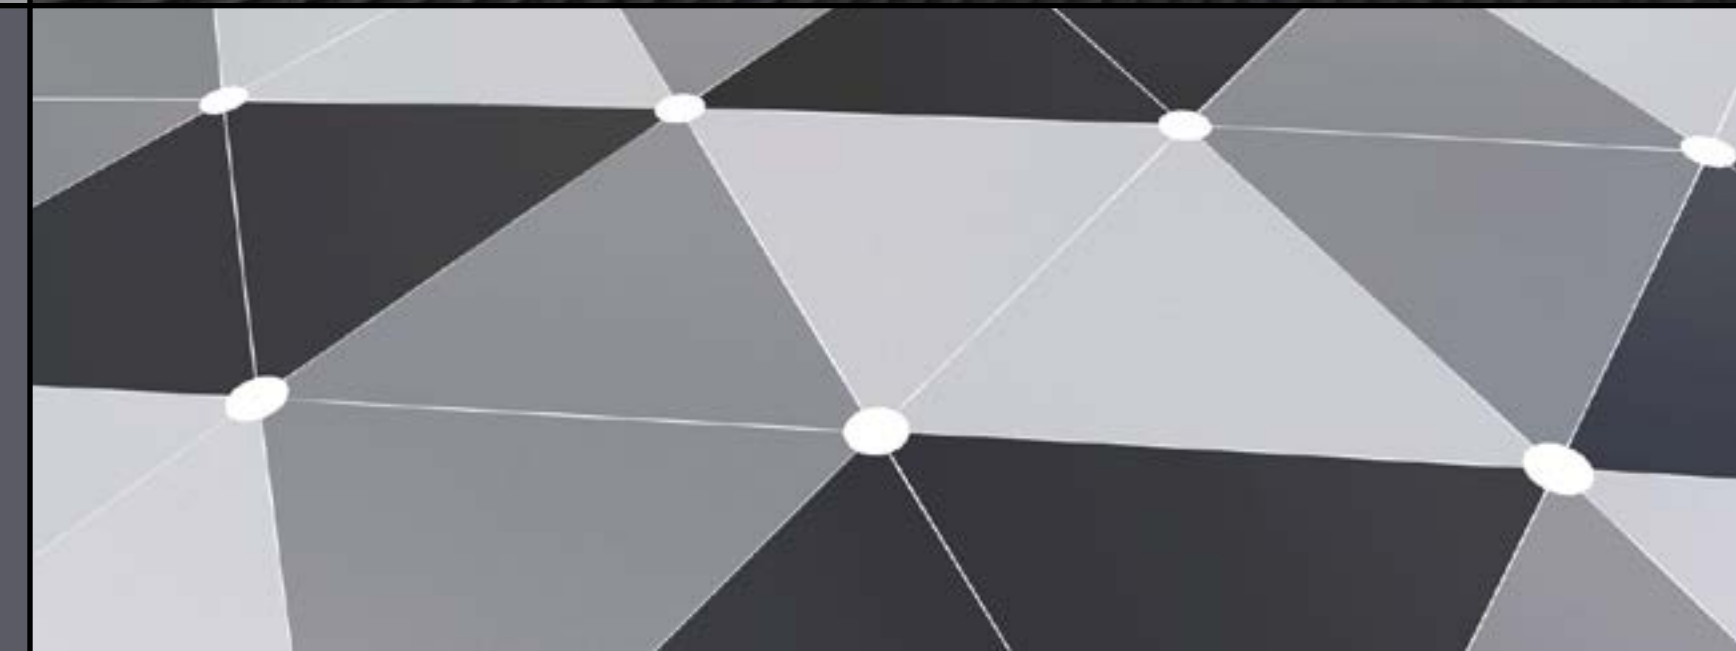

3D flooring

The Baku airport captivates the traveller from the minute they enter, as they are greeted with extensive Dekton flooring, consisting of equilateral triangles with 1.5 meter sides, designed especially for the entrance. The chromatic variation in three shades of Sirius color, specifically created for this design, together with the geometric shapes, produce a striking 3D effect of raised cubes that is reflected in the window of the main entrance to the building.

DEKTON ID PRO Brussels Underground

The art of customized printing

Customized printing is much more than geometric patterns, letters or abstract images. With Dekton iD Pro it is possible to print almost any drawing or photo. Dekton® made art.

DEKTON ID CUSTOM DESIGN

Surprising realism

The aim of the Brussels Underground project was to print a work of art on Dekton® large surfaces. Thanks to Dekton iD Pro technology and printing, a well-defined, high-quality image, capable of captivating the traveller, was achieved.
