We welcome you to a new era to celebrating life and color. Unleash your creativity. Share what matters most to you. Transform your interior space. Love your home. Take care of our planet. Awaken your excitement for art and design. Anticipate and create a future together. Connected. United. Positive.

A new me. A new you.

A new Silestone®.

For creators.
For artists. For design lovers.
For those who are rebellious and
don't conform. For those who
pursue their dreams.
For those who share values.
For those who are responsible
and conscientious. For chefs.
For those who get dirty when
cooking. For those who love the
home. For families, For friends,
For couples. For everyone.

Welcome home.

The New Silestone®: Designed for Life

A more human way of living.
More sustainable. More yours.

The kitchen is a space to enjoy cooking and much more. It is where we share the values of being together, of connecting with our loved ones and of life. Silestone® transforms your kitchen into a healthy, sustainable and personal space.

Silestone® is a hybrid surface of minerals and recycled materials, manufactured with the exclusive and innovative HybriQ® technology. Silestone® has set the major trends in the world of kitchen countertops. Once again, we evolve.

We want to be part of your life.

For us, the kitchen is the soul of the home and the center of unique moments. Life in the kitchen is better when we share it. We would love to be part of it, and of your home, inspiring you and making your daily life easier, more enjoyable, sustainable and even more exciting.

In a space for enjoyment in company and well-being, we want to provide an experience that improves people's lives, with innovative and sustainable countertops that express your own lifestyle, that follow your daily life and that awaken in you the best designer, chef or artist.

The New Silestone®: Creative Living

We encourage you to create a unique countertop. Yours. Welcome colors that excite you and connect you to the way you are, with designs inspired by your life. Enjoy creating with the range of colors and textures of Silestone®. Reimagine your kitchen. Color your life in a shade that is warm,

exciting, evocative, peaceful, elegant, moving, lively or soothing. How are you feeling today? Let Silestone® bring color to your kitchen. Just fill it with the people you love and share the best experiences. The one you have created.

**Your countertop is
the canvas of your life.
Live it in color.**

Colors that excite, suit your style and inspire your unique way of living. Textures that convey sensations, making you feel something new. Get inspired. Create. This is Silestone®. Immerse yourself in the depth of color created by the minerals that

make up Silestone®. From a veined pattern that offers movement and natural beauty to urban and industrial tones that add character to your home. There are a thousand possibilities to experience color.

silestone®

The New Silestone[®]: Designed for the planet

Inspired by nature.

Powered by new HybriQ[®] technology.

We want to innovate to inspire and take care of you, your loved ones and the planet. We want to make your life and the lives of future generations better. Let's change the world. Now. It's easier together. Manufactured

with 100% renewable energy, 98% recycled water, premium minerals, Quartz, and a minimum of 20% recycled materials. Silestone[®] is the surface designed for the planet. For your home. For your life.

We strive for sustainability and a better world.

We want to transform our environment through responsibility, our commitment to sustainability and the circular economy in our production processes. Our commitment has led us further. Silestone® Sunlit

Days is a carbon neutral product series. We bring to your home a surface with the values of a healthy, conscious and committed life.

An innovative generation of surfaces made entirely from renewable energy, recycled water and a hybrid formulation is emerging. **HybriQ+®** is a new high performance blend of premium minerals, quartz and recycled glass. **More attractive. More innovative. More sustainable.**

The new Silestone®
powered by
HybriQ+® technology.

**More innovation.
Same performance**

Commitment to innovation and sustainability leads Silestone® to exceptional performance and amazing color depth. With the same quality and warranty that has proven us market leaders.

**More
design**

The new composition of premium minerals selected worldwide for each design allows for a greater depth of Silestone® colors, textures and shades in order to create unique and personalised interior spaces.

**More
sustainable**

HybriQ+® uses a minimum of 20% recycled materials in its composition, such as glass, and its manufacturing process is powered entirely by renewable energy and recycled water.

100% Renewable energy

98% Recycled water

Made from recycled glass and
minerals

Ethereal Collection

Beauty Beyond Natural

**Avant-garde and
full of beauty.**

Introducing the Ethereal Collection.
An unparalleled leap in design, sustainability and
innovation developed with HybriQ+® technology,
which takes the concept of marble-style colors to
a new dimension.

Ethereal, an evolution of our acclaimed Eternal
Collection, interprets the dream-like beauty of

the sky by tracing a deep, fine veining on a white
canvas.

The result: the most cutting-edge and avant-garde Silestone® series, a redefinition of veining that creates a new category in terms of performance and design.

Here are the four colors: Ethereal Dusk, Ethereal Haze, Ethereal Glow and Ethereal Noctis.

Ethereal Dusk

Match it with dark
and rusty shades.

The bluish tone of its veining gives it a modern touch that, together with its avant-garde linear pattern, makes **Ethereal Dusk** one of the most urban and contemporary designs in the collection.

Ethereal Dusk is that unique sunrise, that unparalleled feeling of being the first person to see the light of day, where peace is seen on the horizon in the last moments of darkness.

It works very well with dark colors such as black and brown.

Reddish wood and metals reminiscent of rust, such as *gunmetal*, or old-cut metals, such as bronze and copper, also go well with this color.

Ethereal Haze is a soft color with a strong character, in which the interplay of patterns merges with the deep, neutral background.

Ethereal Haze is a sea of clouds that offers the sensation of being on the edge of immensity.

A veil that separates us from the moment in which we live to transport us to imaginary worlds through the wind that moves the clouds over the mountains, creating the illusion of a calm and fluffy sea.

Its combination of cool and warm makes it perfect for spaces with a *total* wood or cement look.

It also works well with coppery metals, gold colors, limestone and more rustic fabrics.

Ethereal Haze

Combine it with
copper and gold colors.

Our revamped version of Calacatta Gold with bolder, more modern structure. The elegant gold and gray veining of **Ethereal Glow** blends into a tinged white foundation to add depth to the design.

Ethereal Glow is inspired by the sunset. A rhapsody of colors in the sky with an igneous glow from which you cannot look away.

The sky gives us a spectacular display of yellow, red, orange, gray... and the clouds lose their shyness

and appear blazing and confident.

The elegant gold and gray veining blends into a tinged white foundation, running through the slab and bringing color to every corner, thus adding depth to the design.

Ethereal Glow

Mix it with
dark grey and neutral wood.

Ethereal Glow

Ethereal Noctis draws on the designs of the Eternal collection with a new, renewed and conservative approach. Black features add contrast and elegance to the color range. The grey details and the short-veined background provide depth.

Inspired by the darkness after sunset, Ethereal Noctis hides and shelters us in the depths of the night, making us feel life with a strange halo of unreality.

This color elevates the sophistication of the interior design, in combination with brass lamps, stained wood flooring and white and gray furniture for a more industrial look. A versatile color suitable for residential use or for large projects.

Ethereal Noctis

Add industrial features to achieve a versatile look.

A photograph of a sunset or sunrise over a landscape. The sun is low on the horizon, creating a warm, golden glow. In the background, there are some buildings and a fence. The foreground is dark and out of focus.

Sunlit Days: Mediterra- nean Color Shades

A person is riding a bicycle on a dirt path. In the background, there is a lighthouse with a glowing light, and a small dog is walking on the path. The scene is set during sunset or sunrise, with a warm, golden light.

Welcome to the Mediterranean.

Sunlit Days. An immersive and sensory journey through light and color that takes us back to our roots and leads us to a more natural, sustainable and human future.

We are launching the first Silestone® Carbon Neutral collection, a commitment to sustainability in which we reduce and offset the emissions of the manufacturing process with reforestation projects. This

environmental commitment results in a partnership program for the preservation of the seabed and our environment.

Sunlit Days is inspired by the evocative Mediterranean shades of a unique lifestyle.

A new breath of fresh air. A new spirit.
A new Silestone®.

A Carbon Neutral Series. Silestone® Sunlit Days is manufactured entirely with renewable electricity and recycled water. We offset all carbon emissions through UN-certified projects, thus achieving Carbon Neutral Certification.

A new era for
Silestone® and the planet.

We calculate our carbon footprint.

Through the use of consumption data from across the value chain and throughout the product life cycle.

We reduce our impact

We promote energy efficiency, emissions reduction and sustainable mobility.

We offset our emissions

We collaborate in official UN projects to offset GHG emissions.

Chapter I

Sunlit Days Faro White

White is the color of the Mediterranean. The one that clads the walls that the sun bathes in every day. The one that captures its light and evokes its warmth. White embodies purity par excellence, and more than any other color, conveys serenity.

It is the color of simplicity, but the most complex and versatile of all.

Faro White is inspired by the lighthouses that guide the way for ships. A very special white that tells stories of light and sea, and of people who love life.

Faro White is the flash of light that brings us closer to what really matters: our loved ones.

Chapter II

Sunlit Days Cincel Grey

Gray is just gray, some people say. Those people will speak of wood as just that, wood. They will not speak of ebony, almost jet-like, or crimson mahogany, nor will they understand when they look at a tree that it is not just that, but a cypress.

Because wood is not just wood, nor is gray just gray. It is a gray for those who know how to look and feel.

Cincel Grey is a silky, fine-veined gray, full of nuances. A gray that reveals an array of contrasts between matt, glossy and reminiscent of other colors when bathed in light.

Its feel, like that of the other colors in the series, is a sensory experience even for those who are used to delighting in the textures of different types of wood.

Chapter III

Sunlit Days Arcilla Red

Arcilla Red is a red shade that makes you fall in love. An earthy red shade that tastes like wine and smells of petrichor. A red shade that brings the purest essence of our origins to our home. A burst of color, character, and a beating heart. A red shade that transforms the kitchen

into a living space waiting to be experienced.

A color that can be tested with all five senses. A unique texture to enjoy both to the touch and to the eye. Arcilla Red brings this passion, this closeness to the earth, and this pure life to any space.

Chapter IV

Sunlit Days Cala Blue

Part I

The first time you see the sea and its breeze embraces you. The feeling of floating in the immensity. Away from everyday concerns, letting the sun and water bathe your skin. Savor the salt that embraces your body, the sound of the waves breaking on the shore. Look at the blue of an infinite horizon. A experience for all five senses. A unique touch that caresses your skin like the sea.

That is Cala Blue. A deep and stimulating blue color which, in its interplay with light, balances between the depth and the surface of the sea. A sophisticated blue color that vibrates with the rest of the elements that surround it. Let yourself be rocked by the Mediterranean.

by Silestone®, Cala Blue
Integrity Due S sink (x2)
by Silestone®, Cala Blue

Chapter IV

Sunlit Days Posidonia Green

Part II

Time stands still under the waters of the Mediterranean. Everything is slow and harmonious. The posidonia meadows sway in a mesmerising dance of incredible greens. Greens that captivate the eye and bring life to the seabed, both literally and metaphorically.

That is Posidonia Green. A green that invites us to surround it with colors and brings this beauty, hitherto inaccessible, to our spaces. A green that radiates vitality, joy and nature. A green with a variety of brightness and shade depending on the moment, like the nature of the sea that gives it its name.

Silestone® Lifeproof spaces

We transform spaces that
transform people.

Go boldly and create your own space:
a kitchen for sharing, a bathroom for
well-being... Enjoy all the combination

possibilities of Silestone®. A surface
designed for your lifestyle.

Enjoy your home. We make it easy.

We want you to live your own space. We want you to create, enjoy, share and be moved without anything stopping you.

Ethereal Glow

Silestone® keeps up with you.

The high impact resistance of Silestone® allows for the handling of hard objects (pots, trays, etc.) with total peace of mind.

Experiment and create new recipes.

Silestone® is a non-porous surface that is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, makeup and many other everyday products.

We care for you and the environment.

Sustainability and innovation come together in a surface composed of carefully selected minerals, quartz and recycled materials that give your countertop depth of color and high performance.

Silestone® Textures. You've never felt anything like it.

Polished

Extreme gloss, smooth surface to the touch and uniform, intense and consistent color.

Suede

A matte appearance that conveys a unique experience to the touch for its beauty and fineness.

Volcano

Rustic and rough texture, at the same time attractive, soft and pleasant to the touch.

Sinks

Silestone® Integrity

The Integrity sink offers all the advantages of Silestone® in a revolutionary product. Thanks to the “one-piece” effect, worktop and sink become one.

Integrity TOP

Easy to install. It creates a sense of continuity and integration with the worktop. No complications. No need for special tools.

Integrity DUE

DUE is available in three sizes: DUE S, ideal for double-bowl sink; DUE L, perfect for single-bowl sinks; and DUE XL, the best choice for large sinks.

Integrity Q

Integrity Q is our new sink featuring a monolithic, minimalist design.

→ Integrity DUE S

Silestone® Experience cooking at its best

Spaces to
enjoy.

In this urban style home with concrete ceilings, the aim was to create a warm, welcoming kitchen where people

could enjoy the pleasure of cooking with friends. Plants and cooking are the two passions of the owner.

A kitchen full of character

With this in mind, the interior designer planned a cozy kitchen in wood, with a very pleasant living area and a stunning island with a cooking area perfect for cooking for guests.

As for the owner's second great passion, gardening, this is reflected in the plants hanging from the ceiling - as if it were an urban garden - and with many other plants scattered throughout the rest of the kitchen. Wood and plants meet for a very personal kitchen

Silestone® White Zeus creates a bright, warm and welcoming space.

A stunning island in white

Silestone® White Zeus was the color chosen to clad this extra-large island with integrated hob and sink.

In this kitchen, all the attention is focused on the island thanks to its impressive, glossy finish.

→ Countertop by Silestone®, White Zeus.
