Durasein

Let's get
started

Think of us as your creative partner

Hi, we're Durasein. We make solid surface for people with big, bendy, twisty ideas. Our founders love getting involved, influencing production, and dreaming up new applications for our surfaces. "This might sound crazy..." is our favorite brief.

We're here to give your ideas the support they deserve – without the fuss. Whether it's as simple as a sink, or your wildest design idea. We've got you covered. We're the creatives here to help you create. High quality materials. Top quality advice.

Soaring aesthetics and standout performance. It's every designer's feel-good combo.

Easy to clean

Low maintenance, stain resistant, and chemical resistant

Safe & protected

Food safe, non-toxic, non-porous, anti-bacterial, low VOC, and mold/mildew resistant

Tough as nails

Impact resistant, scratch resistant, heat resistant, and fire resistant

Built for dreamers

Limitless decors: seamless, thermoformable, and boundless ability in color and translucency

Smart surfacing

Renewable, reusable, repairable, and recyclable

Notable marks

GREENGUARD, GREENGUARD Gold, NSF-51, ISO 9001, USGBC, ISFA, and a 10-year warranty

All environments shown are inspirational digital representations that give a visual sense of how creative you can get with our products in built environments. These images are not exact representations of design/production/installation specifics. If you would like to produce something similar, we can provide pointers or connect you with an industry-leading fabrication team.

Color, pattern, and veining may vary, but don't sweat it. Be sure to request a physical sample prior to final selection. We can't wait to see what you create!

Sinks and skills— we've got both

From bathroom vanities to hospital essentials, we know sinks inside and out. We love collaborating to design and manufacture sinks for any application.

For us, design is every bit as important as function. Choose from our impressive array of stock designs, or ask our in-house custom sink design and production team to help create something especially for you.

Our sinks don't just appear beautiful, they're made to stay that way.

Durasein solid surface material is smooth, seamless, and non-porous, making it very easy to clean. It's also naturally antibacterial, so it's ideal for stopping the spread of disease. And it even resists scratches and stains, staying fresh year after year.

We love custom orders like the one shown here! Please note that custom requests require a minimum order and an extended lead time.

The fine print

Features and benefits

- 100% acrylic
- Easy to clean
- Non-porous
- Stain resistant
- Mold and mildew resistant
- Suitable for residential and commercial applications

Available colors

Please ask for a product sample because the actual color may be different than the color shown here.

Installation tips

- Undermount or top mount
- No faucet holes
- Drain assembly not included

Codes/Standards/Tech Info

- Durasein solid surface sinks and lavatories are certified by Home Innovation Research Labs and tested in accordance with CSA B45.5/IAPMO Z124
- All dimensions are nominal
- Details and specifications are subject to change
- ADA compliant when installed in accordance to ADA guidelines

Durasein Limited Time Warranty

- 10 year limited warranty against manufacturing defects under normal use.

See website for detailed warranty information. Durasein reserves the right to make reservations without notice to product specifications. For the most current information, go to durasein.com/us.

Your creative kit of parts

From the trim to the wall, our shower system has it all! We've tailor-made this all-in-one solution to include everything you'll need and nothing you don't. Each piece fits seamlessly together for almost any application and is offered in seven of our solid surface decors.

Our system includes an extensive range of shower pans, panels, trim and caddy accessories—everything needed to bring your design concept to reality.

Whether it's a commercial gig, renovation or new build, we've got all of the components necessary to help you get the job done right.

Want to learn more? Visit durasein.com/us/showers.

THE DETAILS

Thermo -forming

Want dimension? You got it. Through the magic of thermoforming, we can coax our material into all sorts of bendy, twisty, curvilinear forms.

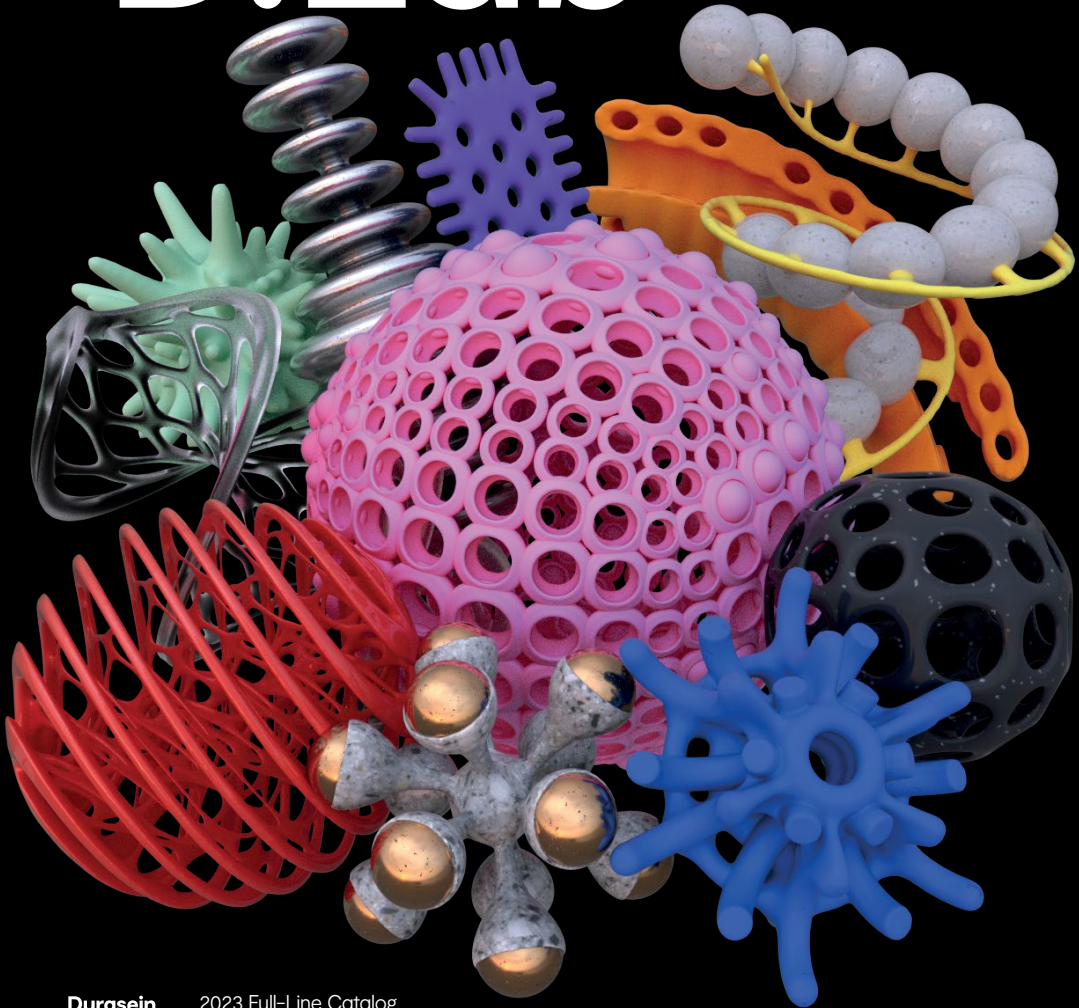

& Adhesives

We put our hearts into making every inch of our material drop-dead gorgeous and the same goes for our adhesives. Perfectly matched to every color in Durasein's material library, our adhesives create seams without a trace, offer the long-lasting performance you need to comply with our warranty, and are low-VOC and GREENGUARD Gold certified.

With our solid surface, seams are as close to invisible as humanly possible! Eliminating seams makes our surfaces visually monolithic and eradicates any nooks or crannies where crumbs, dirt, and bacteria can hide.

D.Lab

The unbelievable made real

This is our place for the incredibly innovative. Our experimental haven for daring designers and dreamers. Where we cut through rigidity to help creativity flow—spreading joy, talent and beauty.

Looking for a cool custom piece? Want to make magic with our material? D.Lab is where we push the limits of creativity and make the impossible, well, possible.

So let's bring those ideas in your head to life. Join us to learn from other legends, get inspired, and team up. And turn your craziest ideas into reality.

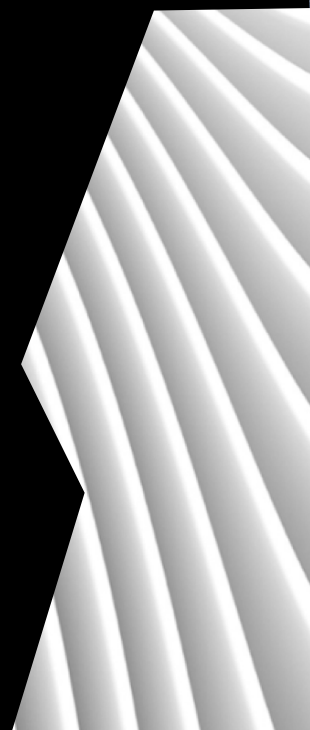

Find out more about what's going on in the Lab at **durasein.com/us/d-lab**.

COLLABORATION IN ACTION

D.Lab x Patternine

Totally entrancing. Magnifyingly mathematical. And equally inviting to see and touch. The Durasein x Patternine collaboration brings lines to life, letting us flex our fabrication muscles to show you just how incredible—and dimensional—our solid surface material can be.

Partnering for our latest collection with acclaimed designer Craig Woehrle, founder of Patternine, has been nothing short of thrilling. By CNC-machining Woehrle's algorithm-driven designs into our material, we've created a tangible expression of parametric design.

It's not magic. Promise.

Okay, sure. Not just anymore can bring complex parametric to reality. That's why we are assembling an all-star team of the world's most innovative and decorated fabrication teams within our D.Fab family.

Rest easy knowing this elite group has not only the equipment and know how, but also the creative edge to make any project featuring our parametric system a reality.

INDUSTRIES SERVED

Let's make something amazing

Healthcare

Comfort, safety, and convenience are critical when it comes to our work in healthcare.

Workplace

Creative, collaborative or considered—we fit the style and purpose of your workspace, whatever it might be.

Hospitality

Simple, stylish, and sophisticated. We're suited for the best in class.

Residential

Your home is your castle. And your wish is our command. Just what you want—a little extra every step of the way.

Education

From the calm to the hectic. We're helping create the right environment for tomorrow's minds today.

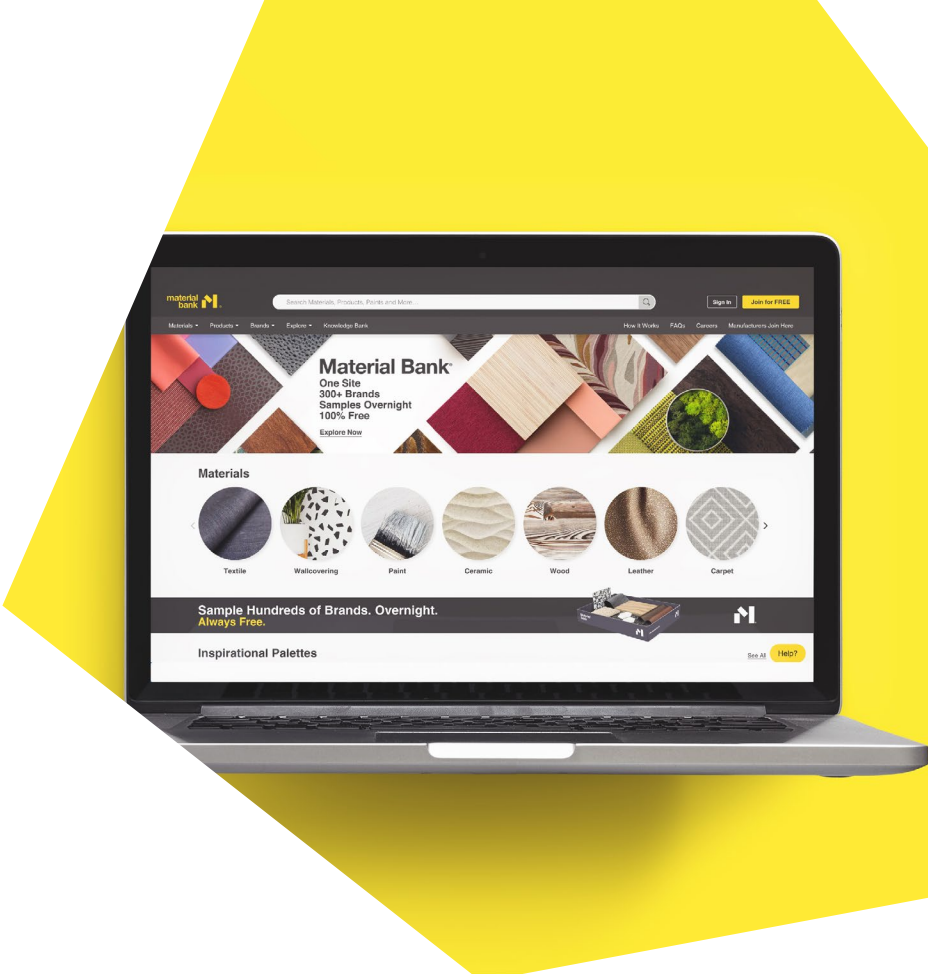

Retail

We work to always add to the customer experience. From start to finish.

THANKS TO OUR PARTNERS
