# SAVOY

Bridging a world of design and style, our Savoy collection is crafted by skilled artisans in the ancient ceramics capital of Tajimi, Japan. The soft character of the glazes introduces a subtle play of warmth and texture to any setting. The inventoried collection has an extensive range of field, mosaic and trim formats, offering limitless possibilities.

## ECO-THINKING

Savoy tiles are made from 21 percent pre-consumer recycled content, including ceramic waste material from discarded clay and smashed tableware. The rest of the tile body is composed of 22 percent clay and 57 percent feldspar.

# COLORS

Your choice of tile color will have a big impact on the aesthetic of your space. But beyond the overall appearance, color can transform the feel, with darker colors creating an impression of warmth and lighter colors evoking a cool, airy quality. The Savoy collection offers a spectrum of colors to enhance a variety of designs and help set the mood you seek.
