What is Tambour?

A *flexible slatted* wood panel that can be installed flat or curve around concave (inward) and convex (outward) surfaces.

Easily create a seamless flat or curved surface that is easy to work with and install!

Whether choosing a veneer or solid wood option, our tambours can **add a truly rich and unique texture to your next hospitality project!**

We also offer color matching, finishing, and fire rated varnishes!

Call or email us to request free samples!

Veneer Options

Available in red oak, white oak, maple and brushed aluminum options, 4'x8' panels quickly transform any space at an affordable price!

- All veneers are 4' x 8' flexible panels.
- They are 5/32" thick with a 30 degree bevel
- Slats run the 8' direction
- **Multiple slat widths available**
- **Real wood face** -Finish with traditional techniques including staining or painting
- Easily glue up to almost any solid substrate
- Also great for sliding tambour doors, cabinet faces, and wainscot.

Wire Brushed Veneer Options

Our new wire brushed veneer finish are a great middle point between our standard veneers and our solid wood options!

- Achieve the grain depth and feel of our solid wood tambours with the affordability of a veneer option!
- Double the wood thickness versus our standard veneer
- The wire brush finish brings out grain detail, enhancing the depth of the wood.
- A finish truly brings out the enhanced grain depth and detail, whether a stain is used or even just a clear coat!
- **Available in red oak, white oak, white ash and teak!**
- Panels are 4'x8' - slats run the 8' direction.

332WO White Oak - Walnut Stain to highlight wire brush texture.

Solid Wood Options

Available in poplar, red oak, maple, knotty alder, red grandis, birch, cherry, white oak, sapele, walnut and more, add character to any environment!

- All panels are on a flexible backer - install on a flat surface or use around curves.
- We manufacture custom panels up to 12' tall (wood species dependent) and up to 30" wide
- Panels are sold by the even foot slat length above 3'. (ex. 1'x3', 1'x6', 1'x8', 1'x11', 30"x 48" etc.)
- If you're interested in something not shown, call us and we'll try to find it for you!
- Typically if not in stock, the lead time is 3-7 weeks. Please call ahead to plan accordingly!
