BEAUTIFUL DETAILS. LIMITLESS POSSIBILITIES.

With thoughtful details such as three distinctive handle options and a beautifully simple bent tube spout, the Litze™ collection offers a wide range of configurations, including high and low spout widespread lavatories and single-handle and wall mount lavatories with optional solid brass knurling, inspired by the revival of the arts and crafts movement.

From the intersection of geometry chosen for the lever handle, to the purposefully placed knurling details on the T-Lever handles, every detail in the collection's handle options was designed to ensure ease of use with a sophisticated aesthetic.

SHOWERING, EVOLVED.

From the solid brass knurled elements on the sidebar handshower with wheel to the jointed shower arm that allows you to position the H₂Okinetic® showerhead just to your liking, everything within the Litze™ collection exemplifies the craftsmanship of the Bauhaus movement that inspired its name. And the new integrated thermostatic shower valve with diverter—making its debut in the Litze collection—features volume, temperature and diverter control in the same unit, demonstrating the beautiful power of simplicity.
