

Fabric for life's busiest places.

While the performance features of Crypton Fabric make it easy to clean, it is not self-cleaning. Use the simple instructions below to clean.

Spot cleaning

1. Blot any excess liquid; wipe away excess mess with a dry, clean towel.
2. Mix together a simple soap and water solution. We recommend mixing 1/4 teaspoon enzyme laundry or dish detergent, like Tide, Cheer or Dawn, with 1 cup warm water.
3. Apply the solution and agitate with a soft bristle brush. Make sure to brush lightly and work from the outside of the stain inward so as not to spread the stain. Rinse your sponge or brush frequently.
4. Blot with a clean towel and rinse. Repeat if necessary.
5. And remember, soap attracts dirt so make sure to rinse thoroughly.
6. Allow fabric to air dry.

Crypton Cleaners, for stubborn stains

Using our 25 years of expertise in the science of stain, moisture and odor resistance, Crypton has created a line of strong, environmentally conscious, effective cleaners and care products for upholstery. While most stains will clean with a simple soap-and-water solution, you may prefer to use Crypton's ready-to-use cleaners which are water-based and designed to easily break down tough stains. Visit www.crypton.com/cleaning for more information .

Extraction cleaning, for medium, ground-in stains and overall yearly maintenance

For overall cleaning, we recommend periodically extracting upholstered surfaces using hot water extraction.

Please note that no fabric is indestructible. Stains such as permanent marker, lipstick, nail polish, etc. may not be completely removable.
