## Company Introduction

LX Hausys America, Inc. is a part of LX Hausys Ltd., one of the world's leading providers of building and decorative materials employing more than 4,300 employees spanning the globe. Headquartered in Atlanta, GA., LX Hausys America uses the industry's most advanced technology to design beautiful and functional spaces with eco-friendly and sensible products. LX Hausys America's business lines include surface materials, flooring, and automotive components.

## Product Introduction

### Viatera® By LX Hausys

Viatera is an exceptional quartz surface solution used in a wide variety of residential and commercial applications. Viatera contains up to 93% natural quartz, making it a superior surface option comparable to natural stone. Manufactured as a non-porous product, Viatera prevents harmful bacteria or mold from penetrating into the surface.

Unlike natural stone products, Viatera does not require regular application of sealants. Viatera is manufactured to prevent against everyday wear and tear and offers a higher resistance to stains, chemicals and heat, ensuring its long-lasting beauty and durability. Using sustainable material and an eco-friendly manufacturing process, Viatera is NSF (National Sanitation Foundation) and Greenguard certified. Viatera is backed by LX Hausys' 15-year limited warranty.

Viatera manufacturing facility in Adairsville, GA

Not all LX Hausys America's products are manufactured at the plant in Adairsville, GA. Products that are manufactured in the U.S. are made with U.S. and imported parts.

## Viatera

Viatera is designed and created around the idea that a countertop is where life's moments happen. Whether you're looking for a surface that stands up to the demands of daily life or a surface that resists the wear of commercial applications, Viatera is available in an array of colors and styles that allow you the freedom to create a space that truly reflects the beauty and wonder of your life.

Featured Color: Calacatta Plata

## Viatera Benefits

### Strong & Durable

Viatera contains up to 93% natural quartz while natural stone generally contains 20 to 60% quartz. As a result, Viatera tends to have higher tensile strength than natural stone.

### Hygienic & Non-porous

Viatera is a non-porous surface and it is safe for food preparation. Viatera is certified by NSF (National Sanitation Foundation). When a material or a seam is porous, food particle can be trapped in the surface material, becoming a breeding ground for bacteria and contamination.

### Stain & Scratch Resistant

Quartz is an impervious crystalline mineral that is particularly resistant to absorption. Because of this characteristic, Viatera is extremely stain resistant.

### Easy Care

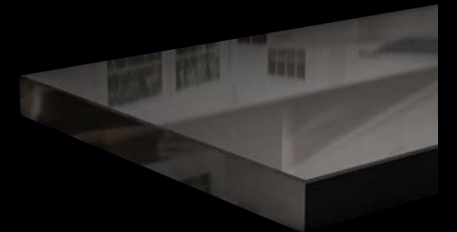

Non-porous and easy to clean, Viatera is ideal for kitchen and bath applications. Unlike other stone products, Viatera does not require sealing.

## Brushed Finish

Select Viatera colors are now available with a "Brushed" finish to fulfill a wider range of aesthetics. Enjoy the new classic beauty with a satin-like finish.

### Polished finish

Traditional reflective surface

### Brushed finish

Soft and smooth feel with low-luster on the surface

## Viatera Care & Maintenance

### POLISHED FINISH

Viatera Quartz Surface is non-porous and resists staining. Routine cleaning should be done with warm water and a sponge or dish towel. This also helps prevent buildup of mineral deposits from "hard water".

Using a little dishwashing liquid, a microfiber cloth, or a textured sponge that's suitable for non-stick cookware can help remove spills or splashes.

For best results wipe, don't scrub, rinse with clear water, and buff dry so the finish looks its best. Splashes, spills, and watermarks can also be cleaned with household cleaning products such as:

- Formula 409® Multi-Surface Cleaner
- Formula 409® Natural Stone & Steel Cleaner
- Greased Lightning®
- Simple Green®
- Windex® Disinfectant Cleaner Multi-Surface

Always read and follow the manufacturer's labeled instructions. Do not use abrasive cleaners like Ajax® or Comet®, or a scrub pad that's not suitable for non-stick cookware.

### BRUSHED FINISH

Viatera Quartz Surface is non-porous and resists staining. Routine cleaning is the same as for Polished Finish; however, Brushed Finish products may need more attention than Polished Finish products. This is normal for any material with a matte finish compared to that material with a polished finish. Smudges, fingerprints, and water spots are more visible on a matte finish.

For suggested cleaning products, reference the list above for Polished Finish.

Always read and follow the manufacturer's labeled instructions. Do not use abrasive cleaners like Ajax or Comet, or any scrub pad that's not suitable for non-stick cookware. Mild cleaners such as Barkeepers Friend®, Bon Ami®, or Soft Scrub Cleanser® can help remove difficult spills from the textured surface, especially when used with a microfiber cloth or scrubber.

### GENERAL INFORMATION

- Use a trivet or hot pad under hot cookware and any heat-generating appliance such as slow cookers and toaster ovens.
- Use a cutting board. Cutting or chopping directly on Viatera quartz surface will dull the knife and may scratch the surface finish.
- Be careful with earthenware and ceramics because rough edges may harm the Viatera finish.
- Bleach and products containing bleach should not be used. However for some persistent stains (dried red wine, inks, etc.) it may be appropriate. If so, it should be diluted, used sparingly and for less than three minutes. Then immediately rinse the area and buffed dry.
- Be careful not to let harsh chemicals such as oven cleaner and drain cleaner come in contact with any Viatera quartz surface. Contact can result in permanent damage that cannot be remedied.
- Nail polish can be removed with nail polish remover (acetone), but it's important to limit the area of contact and immediately rinse the surface and buff dry.
