Wood Finishes

Division Twelve uses oak wood with a clear coat for both wood seats and table tops. The oak wood is carefully selected for uniformity of color and grain, however, wood is a natural substance and minor variations may occur due to the unique nature of the material and may not be an exact match to our samples.

Wood is a natural product that will have color variation within a single piece of furniture. There may also be variation from one piece to the next. All finishes do not hide or mask these natural characteristics and it is important that the customer understand there will be variations from piece to piece. Other factors also affect color over time such as exposure to light.

The finishes on tables may vary slightly from those on seating due to the natural characteristics of the wood.

Powder Coats

Division Twelve's 20 colors will be finished in Sandtex. Sandtex is low gloss, sand textured finish that makes it of higher quality and more durable. The texture provides impact, slip, and fingerprint marks resistance. In addition, every year Division Twelve's color palette will include Pantone®'s Color of the Year, finished in Sandtex.

Custom RAL Colors

Division Twelve offers custom RAL CLASSIC finish requests. These requests are subject to a \$250 NET upcharge. Additional lead times may be required for these items. Custom RAL orders will not be acknowledged until the Custom RAL is approved in writing and received at Division Twelve Customer Service.

Custom RAL CLASSIC powder coat requests will be finished in Tiger, a more glossy and smooth finish. Custom RAL CLASSIC powder coat colors can be offered in Sandtex finish upon request. These requests are subject to a \$1,250 NET upcharge. Custom RAL requests must be selected from RAL CLASSIC collection:

<https://ral-usa.com/overview-of-all-ral-colours/ral-classic-colours/>

Division Twelve reserves the right to reject custom RAL CLASSIC colors that, in Division Twelve's opinion, are not suitable. Once the custom RAL CLASSIC color is accepted, Division Twelve assumes no responsibility for its overall appearance, flammability, normal durability, color fastness, or any other quality after applied to a Division Twelve product.

Finish Colors

You want color? We've got color. Not only does our bent metal come in all the colors of our curated palette, so do a bunch of our finishes – our stained oak and our 100% recyclable HDPE to be exact. So you can match the finish to the frame, or mix it up any which way you want.

Know what you want? Then specify RC for Powder Coat, HD for HDPE, WS for Stained Oak., or RP for Recycled Plastic. Then pick which color you want and add the color code to your finish code. Pretty easy right?

Outdoor Laminate

Construction

Division Twelve outdoor laminate table tops are manufactured using Trespa® Meteon® decorative high-pressure compact laminate and features an integral surface. Available in 4 distinct color options (Black, Pure White, Silver Gray and Slate Gray), all color options feature a 13mm thick ABS edge detail in a black finish.

Cleaning and Maintenance

Outdoor laminate table tops feature a closed surface that is virtually pore-free making it highly impenetrable to contamination and resistant to numerous chemicals and cleaning agents.

To maintain the table top, it is recommended to use clean sponges, soft nylon brushes or cloths. Please avoid cleaning agents with abrasive or polishing components, as well as brushes with hard rigid bristles.
