

January 1, 2022

Dear Cortina Leathers Customer,

In response to recent requests for various chemical/mineral information, we would like to verify compliance to the following:

**PROP 65**

The State of California requires manufacturers to provide a clear and reasonable warning before knowingly and intentionally exposing anyone to a chemical in the Prop 65 Chemical List; Prop 65 has set "Safe Harbor" levels for these chemicals and dictates that any products that contain any of these chemicals above the safe harbor level be disclosed.

**CONFLICT MINERALS**

In compliance with Section 1503 of the Dodd-Frank Wall Street Reform Act relating to the use of conflict minerals (3TG), Cortina Leathers do not use tantalum, tin, tungsten, or gold in our products.

**CALIFORNIA AB 2998**

Cortina Leathers does not use fire retardant chemicals in our products unless specifically requested by the customer.

**AESBESTOS, LEAD, and HEXAVALENT CHROMIUM**

Cortina Leathers declare that none of our product lines contain asbestos, lead or hexavalent chromium.

**HEALTHIER HOSPITAL INITIATIVE (HHI)**

Cortina Leathers complies with the HHI coalition to chart a path for a healthier healthcare system; our products are free of the following:

- Formaldehyde
- Per and Poly Fluorinated compounds (PFCs)
- Polyvinyl chloride (PVC)
- Antimicrobials
- Flame Retardants

If you have any questions, please let me know.

Best Regards,

*Wayne Barry*
