RAD for Education

We're RAD,

a team of designers and fabricators manufacturing furniture that is built to last in Los Angeles, CA.

In 2010, we started crafting one-off welded steel tables for friends. More than a decade later, we're still making furniture for friends, but our friends now include hometown mainstays like the Dodgers and UCLA, and international brands like Sweetgreen and Nike.

We design and manufacture in-house at our fabrication shop in LA, along with a network of talented manufacturing partners in and around the area. Prioritizing local production allows us to employ and collaborate with members of our own community to bring our designs to life.

You can find us at:
