

URBAN
WOOD
GOODS®

Urban Wood Goods is a woman-owned, build to order, custom furniture company focused on sustainability. Sustainability is the driving force that guides all aspects of our business including lumber sourcing, design, efficiencies in our manufacturing, and innovation.

We create furniture for home, retail, offices, restaurants, hotels, universities, and any other space where the authentic, natural touch and warmth of real wood can add comfort and beauty to the dining, working, shopping or learning experience. Everything is built to order to suit your needs, in our woodshop located just north of Chicago.

Services offered by Urban Wood Goods include custom drawings, customizations for tables such as power cut outs for electricity, stain matching & custom configurations and design elements for desks, shelving, conference tables, dining tables, and seating.

We hope you will consider Urban Wood Goods for your next project!

A handwritten signature in black ink, appearing to read 'Erin True', is written in a cursive style.

Why Choose Urban Wood Goods For Your Project?

Unsurpassed Beauty & Character. We exclusively use reclaimed lumber, transformed by the natural aging process. Originally harvested in the late 1800's and early 1900's, our lumber is sourced from barns and old structures across the Midwest.

Connection to the Past. With its unique character and feel, old-growth reclaimed wood reflects a storied past. Its history gives us evidence of another purpose and life that we can only imagine - and now reimagined as furniture

Created Just for You. Our furniture is not mass produced. We hand-craft each one-of-a-kind piece.

Environmentally Focused. Using water-based, eco-friendly finishes, our materials are 100 % recycled and designed to reduce environmental impact.

YOU DREAM!

or in multiple sections.

Boards approximately 3-5" wide.

FEET

Leveling glides included
Locking casters by request

that all include an almost dual cure topcoat.

SOLID WOOD SURFACE

Standard: planed smooth and level
More character filled

"Skip planed" planer removes the high points, "skipping" over the low points creating contrast, and unique texture and character

COMMON CHARACTERISTICS IN RECLAIMED WOOD

May include mineral staining, color variance, weathering, checking, nail holes (which we fill) and knots.

TABLE LEG COLOR

Standard color is Gunmetal gray.

White, gold, black, black oxidized steel and custom colors available.

Custom Powder Coating (for an upcharge)

Fir Pine

Oil and Clear. These selections showcase the natural characteristics of the wood itself, but each board may vary in tone and color.

NOTE: The OIL finish option is "skip planed" and reveals the original patina with light texture and slightly uneven boards.

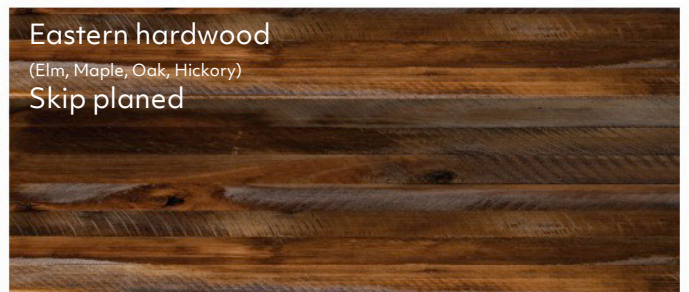

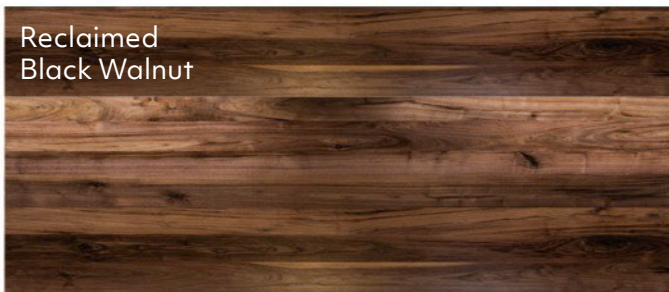

Bourbon, Antique and Gray. Any of these are great in the wood, while also maintaining a more cohesive

Weathered. Slight texture, wire-brushed, distressed lightly. Consistent medium brown tones with grain highlights.

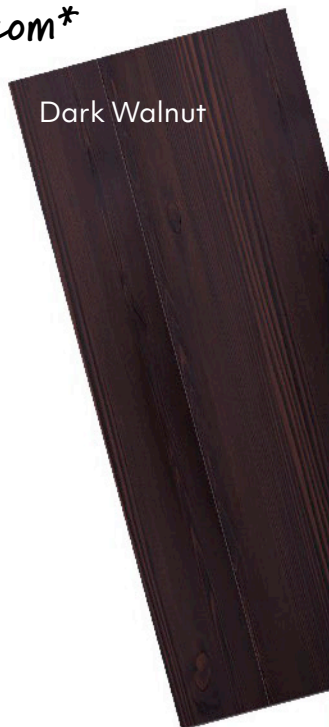

selections if you want to see some characteristics and consistent tonality across the surface.

Wood Species

at www.urbanwoodgoods.com*

Reclaimed Hardwood Upgrade options include Black Walnut, Mixed Hardwoods, Elm, and White Oak. All shown with near durable eco-friendly topcoat.

Dark Walnut & Chestnut. These are stains are on the darker side of the spectrum and provide a consistent tonal appearance while providing a stunning contrast against lighter toned floors or cabinets.

THE LIFE CYCLE OF RECLAIMED WOOD

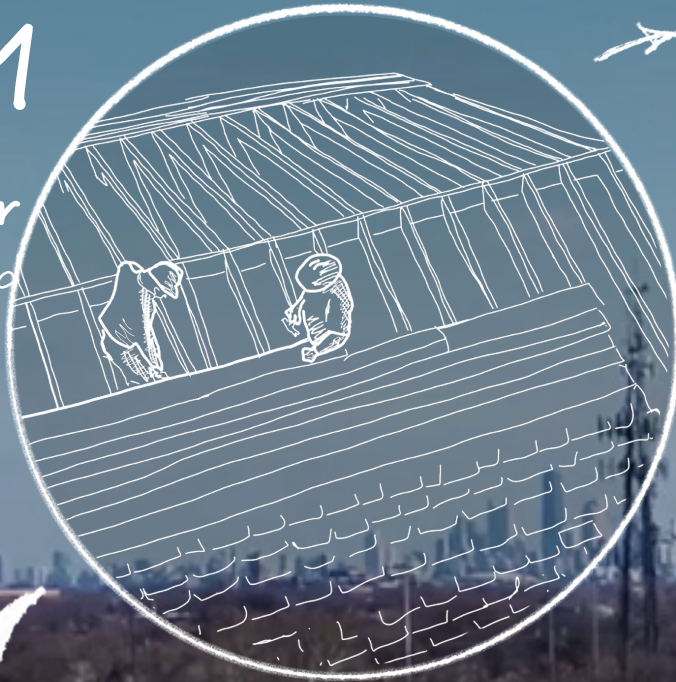

Why do

2

1

We source reclaimed lumber from deconstructed century old buildings from Chicago/Midwest.

We give wood a new life

5

Completing the cycle. Wood with a history and story has a new life & purpose as furniture.

o we do it?

↪ To create a beautiful product that our clients love.

↪ Avoids deforestation = responsible for 10% of all global warming emissions.

↪ To leave this planet a little better than we found it for future generations.

d + Nail by
& salvage as
possible.

3

Creating a Demand for sustainable materials & fueling deconstruction industry.

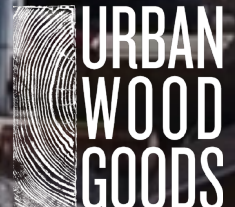

...reclaimed wood does not require any new trees to be felled.
