# Tactile combinations

Wooden cabinets in oak and black combine with various finishes of Lundhs Real Stone to create a true focal point in this kitchen scheme. The silk finish of the countertop is beautifully complemented by the polished high gloss, silk and honed surfaces of the hexagon tiles adorning the backsplash and floor space. Stone type: Larvikite / Lundhs Blue.

*LUNDHS Blue for your kitchen*

Hexagon tiles with different surface finishes bring the floor to life.

#### LUNDHS Blue

#### **A GORGEOUS BLEND OF NATURAL MATERIALS**

A stunning combination of natural materials, the oak and stone in this kitchen complement each other perfectly to create a contemporary yet delicate color scheme. Hexagon tiles used on both the kitchen backsplash and the floor deliver a unique design statement.

Using the same stone in a range of surface finishes, the tiles have been placed in an unstructured format, reflecting the light differently across the floor and splashback.

#### **STONE AND SURFACE FINISHES:**

**Tiles:** Lundhs Blue in high gloss polished, silk, honed.

**Countertop:** Lundhs Blue in silk.

**A silk finish** has an elegant matte and lightly structured finish. This provides a soft and more subtle look, where the crystals gently catch the light.

**A honed finish** delivers a smooth matte appearance. The crystals will still be visible but not too shiny.

**A polished finish** gives the stone a smooth high gloss appearance, which complements the blue tones of the material as the crystals reflect their surroundings.

«

Create a natural focal point by using solid stone as a splashback.

# Fresh ideas

When planning your kitchen design it's important to consider your walls as well as your countertop. Discover some ideas on how you can create a fresh and personal style by incorporating stone into your kitchen in a new and exciting way.

## COLOR HARMONY

Walls: St Pauls Blue  
Stone: Lundhs Royal  
Shelves: Oak  
Lamps and faucet: Black matte

## VARIATIONS & COMBINATIONS

By painting some wall areas in the same color as the cabinets and covering others with stone, this kitchen delivers a fresh and colorful feeling.

## UNDERMOUNTED SINK

By undermounting the sink, you accentuate the beauty of the solid stone.

Using the same stone on both vertical and horizontal surfaces will add a new dimension to the kitchen.

## WHY NOT OPT FOR A HIGH STATEMENT BACKSLASH?

Complemented by stunning deep gray cabinetry and a contemporary aesthetic, the silk finish of the Lundhs Emerald surface creates a true focal point in this kitchen color scheme.

## COLOR HARMONY

Walls: Color Sommersne (a grayish white)

Cabinets: S7500N (dark gray)

Stone: Lundhs Emerald in silk finish

*Some greenery will add a touch of freshness.*

## HEAT RESISTANT UP TO 572 °F

Lundhs Real Stone is heat resistant up to 572 °F – meaning you can put hot pots and pans directly on the surface without any worries.

The silk finish has an elegant matte and lightly structured finish. This provides a soft and more subtle look, where the crystals gently catch the light. This contemporary finish is ideal for use on a large surface and if you want to avoid a mirroring effect.

# Essence by Jenkins & Uhnger

Created in collaboration with British and Norwegian design duo Jenkins & Uhnger, Essence is a series of tableware accessories for the home that uses Lundhs' iconic Larvikite materials.

*New limited edition accessories collection*

## TABLEWARE ACCESSORIES FOR THE HOME

Norwegian natural stone specialists, Lundhs, is delighted to announce the launch of a brand new limited edition accessories collection.

Created in collaboration with British and Norwegian design duo Jenkins & Uhnger, Essence is a series of tableware accessories for the home that uses Lundhs' iconic Larvikite materials. The exclusive series is made up of three boards, two vases, three trays and a pestle and mortar using the exquisite Lundhs Emerald, Lundhs Royal and Lundhs Antique complemented by wood and brass detailing.

Characterized by graceful smooth curves, the exceptional series of limited edition pieces depicts the delicate and unique nature of each stone's character. Catching the light in its elliptical shape, each product serves as both a statement design piece and practical kitchen accessory.

**NATURAL MATERIALS**

Natural stone and oak complement each other beautifully within the Essence accessories collection.

Stone: LUNDHS **Emerald**

Speaking of the launch, Marketing Director Hege Lundh says, “Here at Lundhs it’s really important for us to demonstrate the wide range of use that natural stone has. We have been working with designers from Norway and abroad on selected projects over the past few years and have experienced an increased interest in using natural stone. It is for this reason that we are now launching a series of high-end exclusive objects made of Norwegian natural stone, created by Norwegian designers, produced in Scandinavia.”

# Every material has its own character and properties.

Jenkins & Uhnger

Designers Thomas Jenkins and Sverre Uhnger commented: “We have been working with Lundhs on several occasions since we first met in 2015. Larvikite is a well-known and highly regarded stone in Norway and a natural choice for designers and architects. Every material has its own character and properties that make it suitable for different uses. We really appreciate working with natural materials because of their appeal to the user and creating shapes and functions that enhance the aesthetic of a material is something we always strive for. Natural stone has its limits but for us that is something that gives the creative process

direction. We really like the way the materials play, relate and complement each other. That they can be used in different rooms and situations, making them versatile and they are something we personally would like to use everyday.”

# Antique beauty

In this small bathroom, Lundhs Antique has been used on all surfaces. Delivering a touch of finesse and sparkle, brass details have been seamlessly incorporated while the varying finishes and patterns of the stonework together to create a flawlessly exquisite space. From the smooth honed surface of the herringbone wall and floor tiles to the statement basin crafted entirely from Lundhs Real Stone, this color scheme is the perfect demonstration of natural beauty.

## *LUNDHS Antique for your bathroom*

### **STATEMENT BASIN**

A solid stone basin will add a natural touch to any bathroom. Pair the soft brown tones of Lundhs Antique with brass fixtures for an effortlessly stylish space.

For more details visit [lundhsrealstone.com](http://lundhsrealstone.com)

### **TILES IN REAL STONE**

Opting for tiles in solid stone will deliver a depth of surface and color that is difficult to achieve with ceramics. Here, Lundhs Antique tiles have been positioned in a herringbone pattern providing an exquisite touch to the scheme and adding a bit of interest to the space.

# Step outside

With its unique blend of feldspar crystals glistening in the sunshine, Lundhs Real Stone is brought to life through the reflections of the outdoors.

*LUNDHS Blue for the pool area*

As visually arresting as it is practical, Lundhs Blue, used in and around this outdoor pool, has extremely low absorption properties, meaning it is not affected by the outdoor elements or swimming pool chemicals. Inside the pool, high gloss polished tiles have been used whilst a silk finish has been used on the surround to create a less slippery surface.

#### LUNDHS Blue

#### LUNDHS Royal / Polished

### **AN EXTREMELY STRONG AND DURABLE MATERIAL**

Boasting a number of aesthetic and practical qualities, Lundhs Real Stone is suitable for a number of applications, from swimming pool linings and surrounds to alfresco kitchen work surfaces and countertops.

### **DIFFERENT FINISHES**

Outdoor surface areas often require different finishes to interior settings. All Lundhs Real Stones are available in finishes that are suitable for outdoor areas, whether it's for a pool, a terrace or an outdoor kitchen. For more information and inspiration visit [lundhsrealstone.com](http://lundhsrealstone.com)

Made from Larvikite, one of the most unique and strongest materials in the world, Lundhs Real Stone is truly one of a kind. Crafted by nature 300 million years ago and quarried on the southern coast of Norway in Larvik, there is no other place in the world where you can find the same type of natural stone.

▽  
Lundhs Royal, shown here in a flamed finish, is ideal for use on outdoor areas. The slightly dry surface is safe to walk on in all weather conditions.

LUNDHS Royal / Flamed

Crafted by nature – Refined for living

#### SCRATCH RESISTANT

Extremely durable and resistant to scratches from daily wear and tear.

#### HEAT RESISTANT UP TO 575 °F

Hot pots and pans can be placed directly on the countertop without any risk of burning the surface.

#### WATER RESISTANT

Extremely low absorption. Resists water and other food-related liquid stains.

#### UV RESISTANT

Colors will not fade when exposed to sunlight.

#### EASY TO MAINTAIN

Requires no regular maintenance. Simply wipe clean with warm water and mild soap.

#### STAIN RESISTANT

Ultra-high density. Resists staining from coffee, tea, oil, wine, and acid etching from citrus fruits.

#### FROST RESISTANT

The material will resist changes due to thermal shock, and will not expand in freezing climates.

#### ABRASION RESISTANT

The surface will resist abrasion even in high traffic areas such as floors and pavements.

All LUNDHS Real Stone materials are tested in accordance to ASTM and European Standards. Read more at [lundhsrealstone.com](http://lundhsrealstone.com).
