NORDEN

FABRIC & TRIMMING COLLECTION

The Norden Collection is inspired by the Scandinavian spirit. Looking to classical Gustavian decorative traditions, Scalamandré reimagines ornament for the contemporary interior. Embellished damask embroideries and graceful floral prints are interpreted in a palette of natural linens, chambray hues and soft celadons, with a hint of blush. Refined linen tapes, cords, braids and fringes pair beautifully with the fabric offerings in a sophisticated range of neutrals. Surround yourself with the elegant, calming essence of Norden.
