COLLECTION

PORCELANOSA

Home Collection, wood and stone avant-garde for the new home.

Our new brochure will show you how to bring innovation, style and quality into your home. At PORCELANOSA Group, we design and manufacture our products to meet not only the tastes and style but the expectations of each individual. It is worth highlighting the ceramic wall and floor tiles in stone or natural wood, the kitchen furniture and accessories, the author's bathrooms with unique toilets and bathtubs, and the wardrobes and dressing rooms for interior rooms.

To see the finish and quality of these products yourself, you can visit your nearest PORCELANOSA store. There you will have the professional advice of our team, who will help you discover the possibilities available for your project. Ask our team about promotions and financing options and advantages with the guarantee and quality that defines PORCELANOSA.

Products for sustainable development

Sustainable development goes beyond a mere priority for the PORCELANOSA Group, leading it to implement eco-sustainable production processes and manufacture cutting-edge products with a clear objective: minimise the environmental impact. These actions include: Reduce air emissions, recycle generated waste and promote the equitable and controlled use of water resources.

To meet the sustainable development goals, the PORCELANOSA Group has created ECO CONSCIOUS, a management model that reinforces responsible production and consumption. This initiative aims to transform basic raw materials into products that are more environmentally friendly. To achieve this, the brand has pledged to reuse waste generated during other manufacturing processes and to optimise energy resources.

With this in mind, all PORCELANOSA Group companies (Porcelanosa, Venis, Gamadecor, Krion, L'Antic Colonial, Butech, Noken and Urbatek) demonstrate, their commitment to sustainability in each of their eco-sustainable products. This commitment is also present in the measures adopted to promote responsible energy consumption (ISO 50001), such as cogeneration or reducing its carbon footprint.

Safety and hygiene measures in PORCELANOSA showrooms

We have improved the set up and conditions of each store in accordance with guidelines, so you receive the same personalised service as before.

This way you, our customers, can get all the support you need in the safest way possible.

PORCELANOSA NEW YORK

👉 1000 SHOWROOMS AROUND THE WORLD

The showrooms that PORCELANOSA Group has all over the world have allowed the brand to develop in the main commercial hubs and expand its distribution network. The company currently has 43 logistics centres and is present in more than 150 countries including New York, Miami, London, Paris and Milan. Design, quality, innovation and attention to detail define the ethos of each of its eight brands.

👉 INSPIRATION FOR 365 DAYS OF THE YEAR

Redefining space or incorporating new interior design trends are some of the lines of action carried out in PORCELANOSA Group showrooms. Visit any PORCELANOSA store to find out how to redefine or create your home with our experienced team, who will study your project and answer any questions you might have. Find your nearest PORCELANOSA showroom using the online locator at porcelanosa.com/uk or www.porcelanosa.com

👉 CUSTOMER SERVICE

Our team of professionals will answer any questions you may have on the company's customer service telephone number: +0034 901 100 201 (for UK calls please dial 0870 224 0245). If you wish to contact us via email, please do so using grupo@porcelanosa.com or group@porcelanosa.co.uk

👉 WWW.PORCELANOSA.COM

This portal is the gateway to our vast range of products with which you can style your home, giving it personality as well as functionality. Here you will find the tools to make the right decisions as well as extensive information on current trends. Intuitive and user friendly, it is also the way to contact specialised professionals who will answer your questions.

👉 NEWSLETTER

You can subscribe to the PORCELANOSA Group newsletter to keep up to date with the latest trends in decoration and interior design, technological advances and the new collections from the Group. You can subscribe to the monthly newsletter at www.porcelanosa.com

👉 MOBILE APPS

PORCELANOSA Group has created an App package (applications for mobile devices) so professionals in architecture and interior design and interested users can get to know the different brands within the Group. This app will allow you to create spaces in a journey from virtual to reality through your smartphone, iPad or any tablet. Download them via the applications section at www.porcelanosa.com or from App Store.

👉 BLOG

New products, trends, projects, innovative developments, avant-garde products, technological materials and new ideas for your future projects. All these and more can be found on our blog, which you can access via our website, so you can keep up to date with the latest trends.

👉 PRODUCT FINDER

PORCELANOSA Group's extensive range of products and services, including technical features, installation manuals, CAD files, detailed pictures and setting proposals, are at your fingertips in the simple and effective product search engine. You will be able to check all this information at porcelanosa.com or porcelanosa.com/uk, where you can select the best elements and be able to view your project.

DECORATIVE PROFILE

Butech's decorative profiles are the small details that make a big difference in bathroom design. Butech offers a wide range of profiles that are adapted to a variety of uses: decorative metallic lines, separations between different materials, corner protections, or upper trims for wall coverings available for all types of bathroom and kitchen. Butech's customer solutions range from functional design chromed profiles to 24K gold profiles for the most exclusive environments.

1 Decorative profile Pro-Part Coal.

2 Decorative profile Pro-Part Latón Cromado / Pro-Light Aluminio Anodizado.

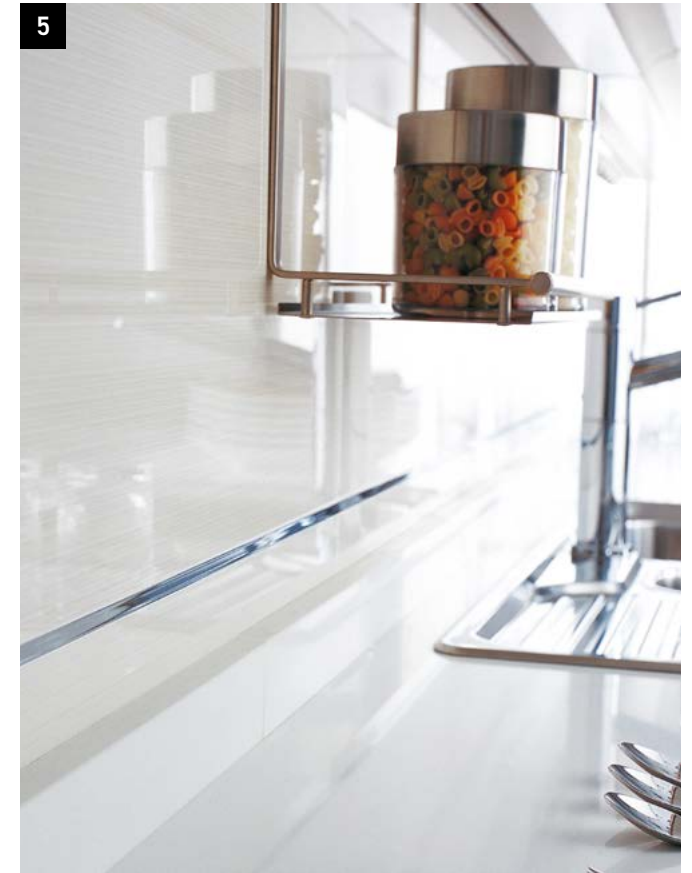

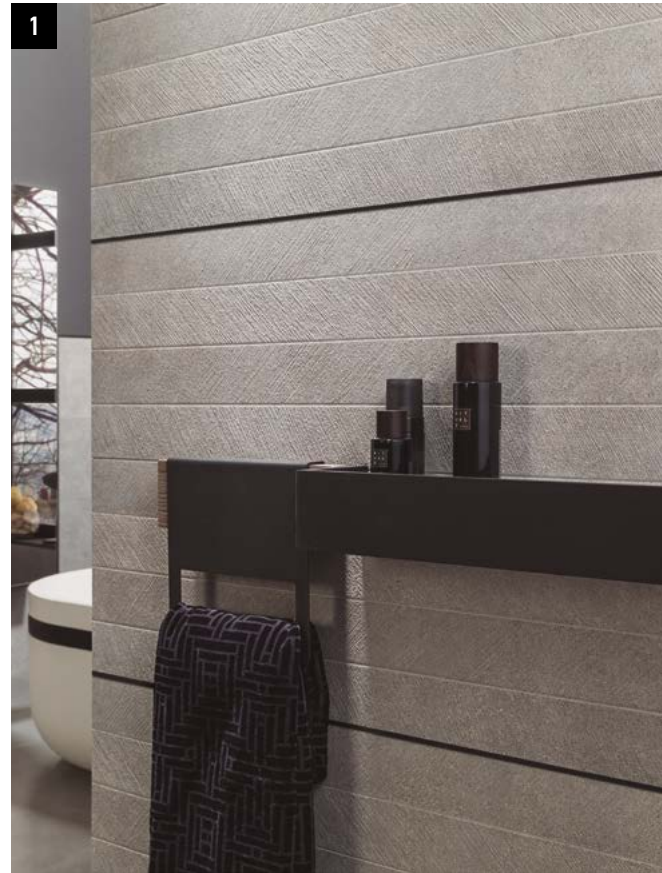

3 Decorative profile Pro-Part Graphite Matt.

4 Decorative profile Pro-Part Cast Iron.

1 Shower screen Attica. This user-friendly design is completely integrated in every detail: hinges and fixings flush with the glass for easy cleaning, ergonomic handle, innovative pivoting hinge system for smooth opening and closing and is watertight. Manufactured in 8 mm tempered glass with exclusive SystemGlass easy clean treatment and accessories in high gloss chrome, is the perfect combination of elegance and minimalistic style.

Profiles High gloss or black finish.

Transparent glass Easy-cleaning Treatment SystemGlass.

Serigraphy Filo, Opal, Line and Deco.

2 Shower screen Deca. A large shower enclosure with sliding doors fitted with the silent easy-glide SoftClose system. Available with 10 mm-thick transparent glass for the fixed pane of glass. It also features tough aluminium profiles in a satin anodised aluminium finish. The enclosure comes in various different sizes and models, ensuring a wide range of compositions able to meet all possible needs.

Profiles Satin anodised aluminium.

Transparent glass Easy-cleaning Treatment SystemGlass.

Serigraphy Filo, Opal, Line and Deco.

3 4 5 Screen Yove. The shower screen is available in two heights: 1950 mm for showers and 1450 mm for installing over baths. The entire range features space-saving sliding doors, for user convenience. The doors have two bearings on the upper section, leaving the bottom of the shower screen clear. The minimalist profile, together with detachable lower guide, makes the Yove range extremely functional and versatile.

Profiles High gloss finish.

Transparent glass Easy-cleaning Treatment SystemGlass.

TECHNICAL SOLUTIONS

Specialising in ventilated façade systems, raised technical flooring and construction materials, Butech is the PORCELANOSA Group company responsible for advising professionals in the ceramic and building industries on the latest developments in tile installation. Their technical office studies specific features of each façade system, develops the necessary solutions to carry them out and supervises its installation on all types of building. Quality, technology and bespoke advice and assistance.

Ventilated Façade System using KRION®

TILED FAÇADES

All STON-KER®, URBATEK, XTONE® and even PAR-KER® tiles can be used on façades. Thanks to their technical characteristics and wide variety of designs, they are ideal as outdoor cladding on buildings.

Through its Technical Project Department, Butech offers clients of PORCELANOSA Group assistance in the design and assembly of façades.

Shown systems:
Ventilated Façades
Bonded Façades

KRION® FAÇADES

The KRION® ventilated façade system combines the excellent performance of solid surface with the know-how developed by Butech in the design and execution of all kinds of façades endorsed by the most demanding international agencies and the prestige of the brand PORCELANOSA.

This system adapts perfectly to the cladding and allows the designer/architect to execute impossible designs with other materials: curved forms, backlight, decoration by engraving or façade designs in different planes. The technical characteristics of the system as well as its flexibility allows to create the most unique innovative designs.

RAISED ACCESS FLOORING

The raised access flooring (RAF) is a system that was born from the need to hide the large number of visible installations and connections such as telephone and electricity wiring, piping or air conditioning systems that are located in work areas, offices, technical rooms or similar spaces.

These installations are hidden under the RAF system, where a "technical plenum" has been created with immediate and easy accessibility which allows to a smooth installation process.

RAISED ACCESS FLOORING FOR EXTERIORS

The raised access floor (RAF) system for terraces has been specially developed to provide an aesthetic solution for terraces containing unsightly drainage slopes. By building a completely flat floor over the existing terrace floor, these slopes are conveniently hidden underneath.

Height deviations are offset with height-adjustable plots and any accumulated water is drained through open joints on the newly paved surface and then channelled down the terrace's waterproofed slopes to the drain.

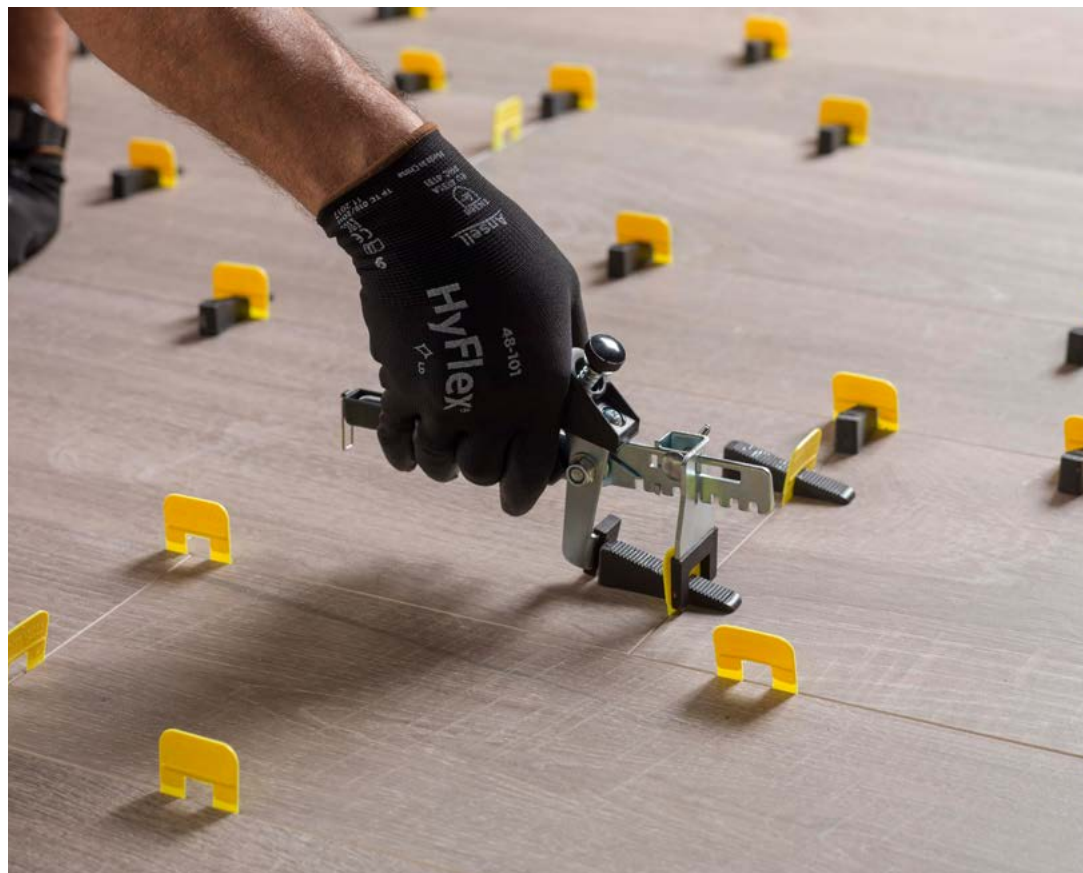

FULL SAFETY AND ASSURANCE

TILE-LAYING AND GROUTING MATERIALS

A specific adhesive is required for each tile. PORCELANOSA Group is aware of its product's requirements, and it develops technical solutions to facilitate the installation of different tiles and to ensure safe, healthy buildings.

PORCELANOSA Group recommends Butech setting materials only. Ask our technical team for advice on choosing the correct adhesive.

Epotech Nature.

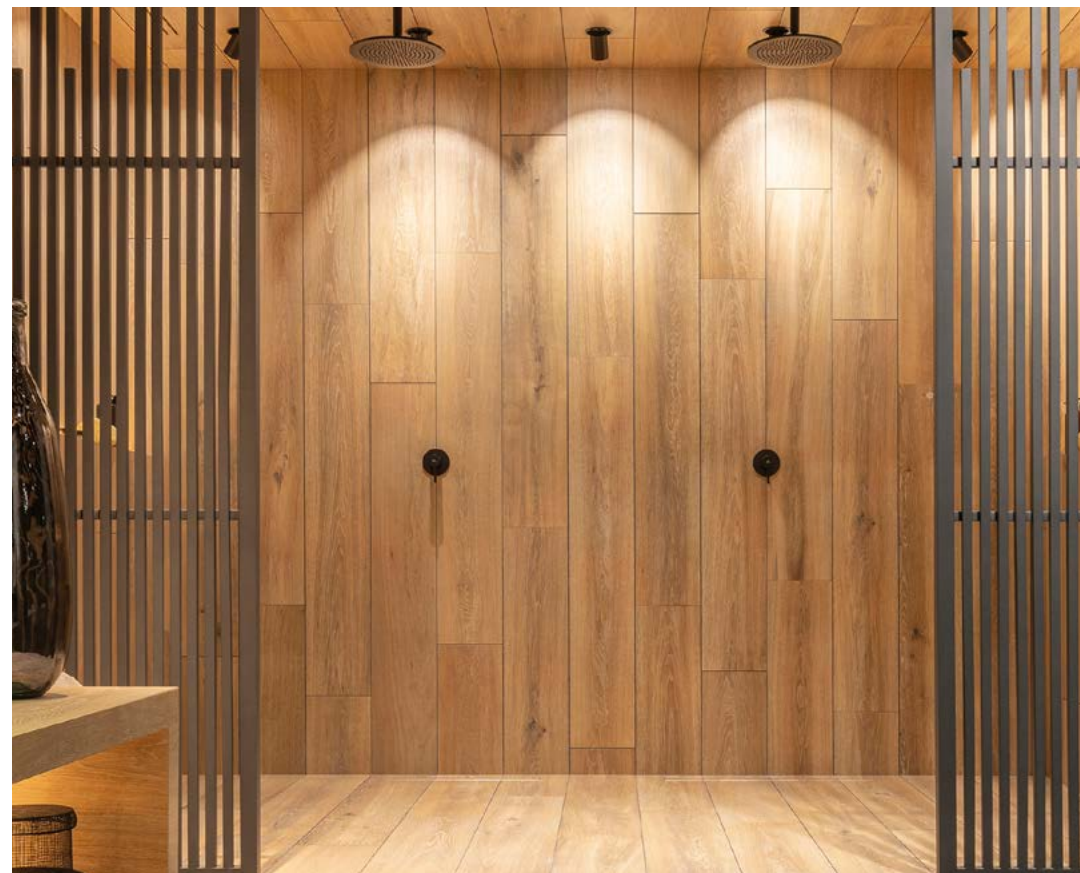

Butech RADIANT FLOOR HEATING

Radiant floor heating comfortably warms using discrete and energy efficient heat instead of blasting hot air.

Butech radiant floors consist of a fine electrical mesh laid under the floor, which avoiding the use of radiators, and an intelligent thermostat which can be controlled from a mobile phone. 100% comfort.

Shown products:
Premium radiant meshes 1-5 m²
8GM Smart Thermostat

SHOWER DECK SYSTEM

New Concept shower tray with hidden drain for the most exclusive bathrooms. This new shower-tray system creates a sense of continuity with the rest of the bathroom floor because the slopes are hidden under the floor. Drainage is achieved through open joints and does not require a drainage grille.

The shower deck system is a shower consisting of a polyurethane base coat with thermostable polymer, ready for ceramic tiles without any need for adhesive. Especially recommended for bathroom refurbishments.

Shown products:
Shower Deck

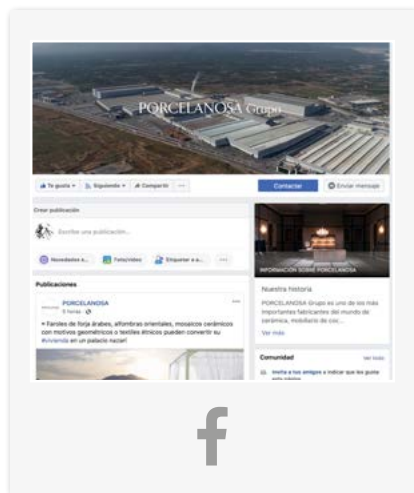

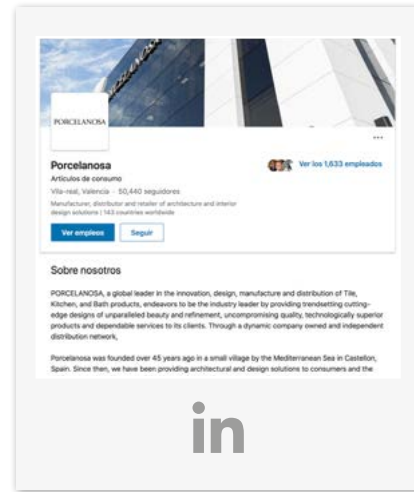

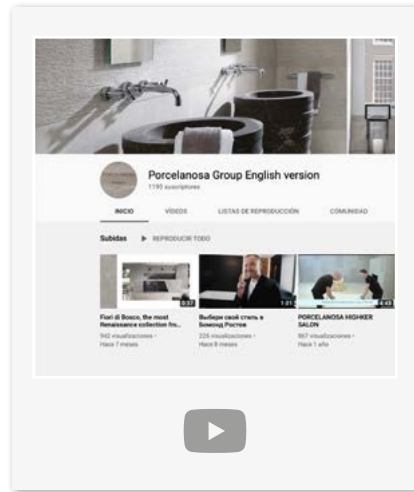

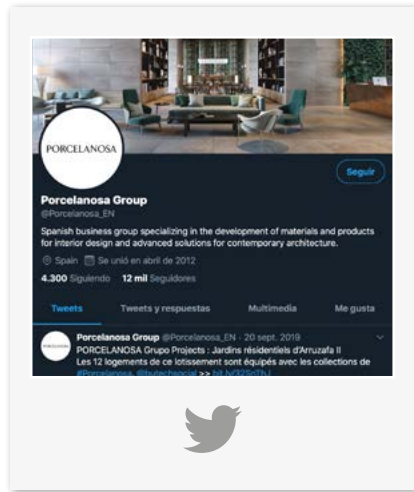

WATERPROOFING SYSTEMS

When water is present, there is always risk of leakage. This contingency must be taken into account in the design and creation of all bathrooms. Damp, drips and water leaks can be avoided by laying a waterproofing membrane under tile coverings as a moisture barrier.

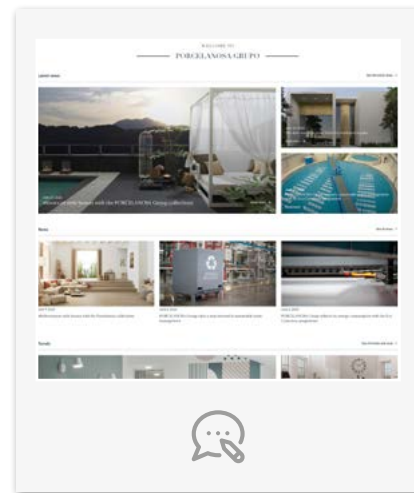

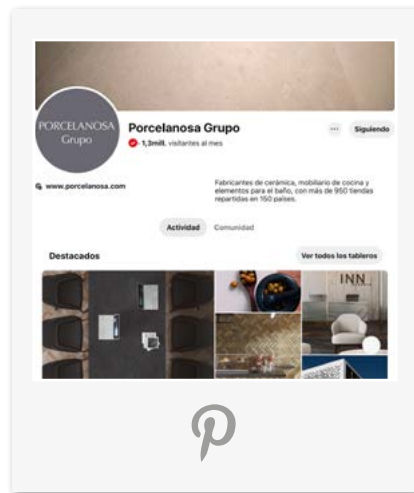

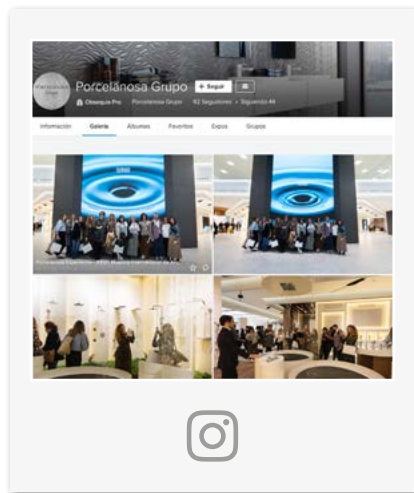

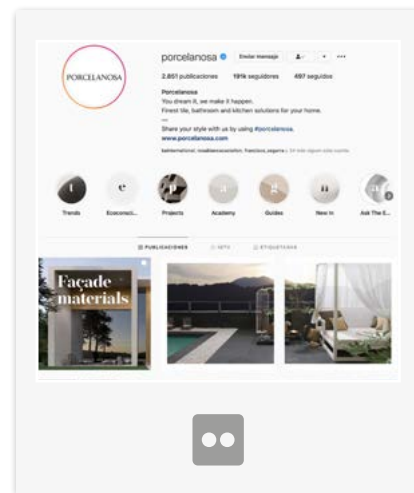

Butech has a wide range of waterproofing for swimming pools, exterior floors and bathrooms.
