Commercial flooring and wall cladding systems since 1919

2021 edition

Designed for possibilities. Made for people.

Altro has been at the forefront of innovation for over 100 years. Today, working closely with architects, end customers, engineers, designers and contractors around the world, our insight and expertise help them transform everyday spaces into environments that can improve the well-being of everyone that uses them.

And by consistently turning creative thinking into practical, real-world solutions – that maintain the highest standards of safety and durability – Altro has become synonymous with quality.

As a family-founded business, we have a strong sense of what we value and a way of thinking inspired by The Bauhaus – a balance of quality, form and designed function – that puts people's needs at the heart of everything we do. It's a human-centered approach to designing for the demands of 21st century life.

It's a history that means we value the bold, the brave and the new. From focusing on how the different sectors we serve need their spaces to perform, to the call for more environmentally sustainable materials, Altro is constantly challenging what is possible and seeking new ways of inspiring our customers and answering their biggest challenges.

With offices across Europe, the Americas, Asia Pacific and the Middle East, we remain committed to developing solutions that stand the test of time.

We combine the best in contemporary style with the functionality required to improve the way we all live and work, wherever in the world that may be.

We are Altro.

Our sector expertise

To work across multiple sectors requires real-world understanding: the ability to design for a purpose and address the challenges, issues and regulations for each industry, without ever compromising on quality or safety.

We bring a wealth of insight into every project – experience that keeps us at the forefront of design-led innovation – and a range of relevant products and unique solutions that not only help our customers realize their ambitions, but have the potential to transform everyday spaces into something special.

We invite you to discover some of our sectors, in brief, over the next few pages or on our website altro.com.

Sectors

- ☑ Healthcare
- ☑ Hospitality
- ☑ Senior living
- ☑ Manufacturing
- ☑ Education
- ☑ Food + drink production
- ☑ Housing
- ☑ Leisure
- ☑ Retail + offices
- ☑ Transport

To do list

- ☑ Place customers first
- ☑ Encourage collaboration - internal + external
- ☑ Value our customers + each other
- ☑ Create a culture of commitment
 - ☑ commit to performance
 - ☑ commit to Partnerships
 - ☑ commit to Possibilities
- ☑ Design and innovate floors and walls
 - ☑ fit for purpose
 - ☑ work across many sectors
 - ☑ address challenges + regulations
 - ☑ maintain safety + durability
- ☑ Share knowledge + insight with all
- ☑ provide products + solutions that turn everyday spaces into something special!

**real-world
understanding
through an
unrivaled
sector focus**

Healthcare

We've pioneered a range of solutions to give you the confidence to create the type of environment you really want. Whether it's a large hospital, care home or community healthcare center, you can provide inspirational rooms that don't just perform and look good, but also take hygiene and the safety of your people, patients and residents seriously.

Typical applications

- Hospitals
- Operating and surgical areas
- Emergency rooms
- Behavioral and mental health
- Patient rooms
- Patient restrooms
- Patient showers
- Corridors
- Kitchens
- Cafeterias
- Lobbies
- Administration offices

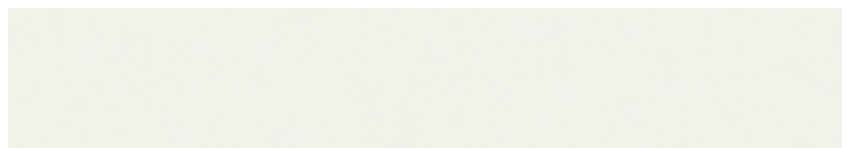

Recommended products (not inclusive)

Altro Symphonia

Altro Wood

Altro Whiterock

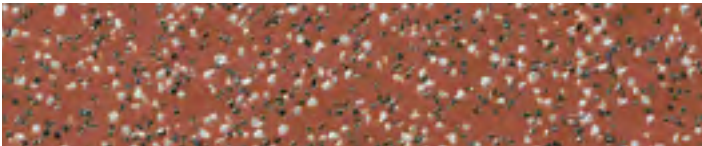

Altro Whiterock PopArt

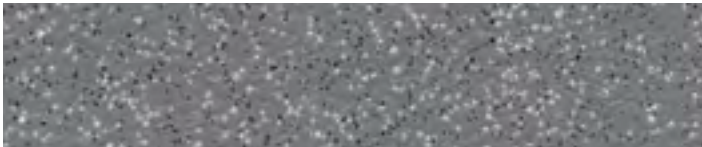

Hospitality

Whether it's a commercial kitchen, an office cafeteria, a five-star hotel or a chain of restaurants and cafes, safety, hygiene, ease and speed of installation and cost are all top priorities when designing for the hospitality sector.

Recommended products (not inclusive)

Altro Stronghold 30

Altro Classic 25

Altro Puraguard

Senior living

It's vital to understand the many ways that aging affects health and the perceived physical environment. Interior finishes should be utilized that enhance the wellbeing of frail and aging residents.

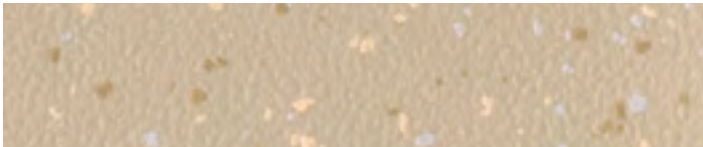

Recommended products (not inclusive)

Altro Wood Comfort

Altro Orchestra

Altro Aquarius

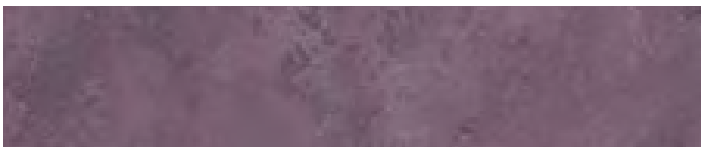

Education

We believe that learning environments are some of the most important places there are, and the way they function is just as important as the way they look. Schools, colleges and universities need inspiring, durable, attractive and hygienic wall and flooring products that can cope with the demands of growing up.

Recommended products (not inclusive)

Altro Quartz Tile

Altro Dolce Tile

Altro Lavencia LVT

Manufacturing

Materials specified for industrial and mass production areas are required to prioritize both durability and the wellbeing of everyone involved. These environments adhere to stringent health and safety guidelines that dictate nearly every aspect of their design.

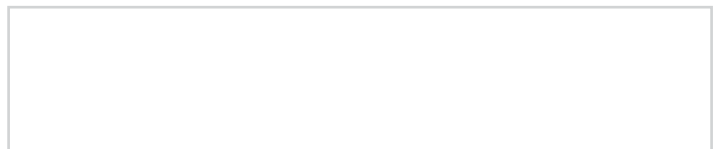

Recommended products (not inclusive)

Altro Operetta

Altro Symphonia

Altro Whiterock

Transport

Our Altro Transflor range of safety flooring is engineered to give you lightweight solutions without compromising on safety, durability, or ease of maintenance.

Housing

The way a home looks is just as important as how it functions. Welcoming, aesthetically pleasing, noise reducing finishes that are durable and easy to clean are a perfect solution for multi-family housing.

Retail + offices

How people feel when they're at work or when they shop with you can affect your business more than ever, especially if you don't have an environment people enjoy being in.

Prisons + defense

For containment and holding areas and walkways with heavy traffic, our products offer high strength, stain resistance and reduced dirt retention making them easy to clean and maintain.

Leisure

When your venues welcome masses of people every year, you need a robust floor and wall cladding solution, capable of doing exactly the right job in the right place.

Food + drink production

We know that a safe, efficient and hygienic facility is a vital part of the production process, which is why our specialized flooring and wall solutions are ideal.

Our sustainability story

Sustainability drives the choices we make. It starts with the raw materials we choose to go into our products; environmentally-friendly raw materials that enable us to produce phthalate-free vinyl flooring containing bio-plasticizers. Our commitment to sustainability made us the first manufacturer to recycle traditional safety flooring in-house and led to us being first to market 100% recyclable and reusable safety flooring post-installation - Altro XpressLay, which took the flooring industry by storm.

Taking responsibility

We recognize that sustainability is about being both environmentally and socially responsible, while also taking economic impact into account. So, as well as pioneering new recycling processes to reduce waste, we're also developing new initiatives based on customer feedback and needs — architects, interior designers, installers and end users. We're fully committed to honoring our environmental and social responsibilities, while continuing to provide our customers solutions that help create healthy living environments worldwide.

Resource efficiency

At our manufacturing base, we're committed to using resources efficiently and are actively reducing waste, energy and water consumption, and implementing closed-loop recycling processes. We've operated a zero-PVC-waste-to-landfill policy since 2014 by investing in, and installing, the world's first safety flooring recycling system. Altro is one of two founding members of Recofloor™ and Recowall™, the industry's first vinyl take-back programs that collect vinyl flooring off-cuts and wall cladding and divert them from going to landfill.

One of the core fundamentals of LEED is product transparency. Specifiers want to know which ingredients are in the products they use and if they are hazardous to human or environmental health. Altro supports this initiative and has our product transparency documents, EPDs and HPDs, publically available on our website.

Responsible manufacturing

Recycling

- Since 2007, we have sent zero-PVC-waste-to-landfill and have reduced our total waste at our factory to landfill by 70%.
- By including post-consumer and pre-consumer recycled content into our products, Altro is able to divert 900 tons of glass (wine bottles) and 500 tons of vinyl destined for landfills every year.
- Altro flooring comes in 100% recyclable packaging.

Water reduction

- Rain water capture systems have been installed on the roof of our manufacturing plant to reduce our use of potable water in our production process.
- We have achieved a 99% reduction in water consumption in our manufacturing process since 2000.

Open and honest transparency

Sustainable attributes of Altro products

- HPDs and EPDs are publicly available on altro.com
- Bio-based ingredients – our flooring products now include as much as 14% rapidly renewable, bio-based content.
- No heavy metals – contains no lead, cadmium, mercury, or hexavalent chromium.
- Phthalate-free – we do not use phthalates in the manufacture of products .
- Our bio-based plasticizer is responsibly sourced from maize in Europe.
- Recycled content – Altro safety flooring contains up to 20% recycled material.
- Altro sheet flooring complies with FloorScore certification as well as the CA 01350 and CDPH test methods. VOC emissions for Altro Whiterock have been found to be below detectable limits.
- Adhesives used to install Altro floor and wall products are also low VOC emitting and compliant.
- Off-cuts and scrap Altro flooring can be 100% recycled directly at our manufacturing facility.

How can Altro offer industry-leading cleanability and maintain underfoot safety?

Altro Easyclean™ Technology

Altro Easyclean Technology is unique in the marketplace as it is incorporated throughout the flooring while it is manufactured rather than applied as a surface finish. This allows Altro flooring to benefit from enhanced cleaning and maintenance while still allowing our products to maintain the slip-resistant properties Altro is known for.

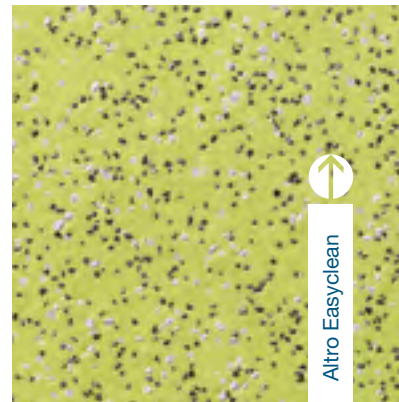

The Altro Easyclean formula is matched to the floor during manufacturing to ensure slip resistance is a top priority in high slip risk areas. For example, smooth floors like Altro Cantata and Altro Symphonia will have more Altro Easyclean than a robust safety floor like Altro Stronghold 30.

Altro Easyclean offers

- Industry-leading ease of cleaning
- Enhanced long-term cleanability
- Cleaning and maintenance cost savings
- Sustained long-term slip resistance
- Exceptional long-term durability
- Low dirt pick-up qualities
- Improved color retention

How have we done it?

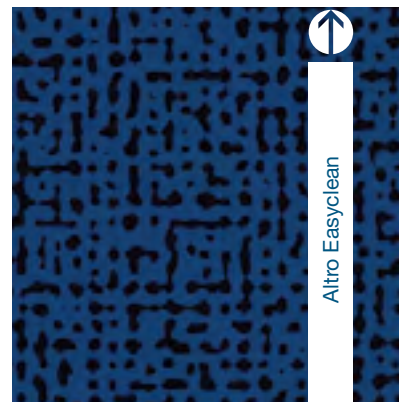

- Varying degrees of Altro Easyclean based on safety, slip-resistant and smooth flooring categories — adding a superficial PUR topcoat wouldn't be appropriate on a safety floor!
- Improved structure to prevent dirt retention around slip resistance particles, unlike conventional safety flooring and standard PURs.
- Incorporated Altro Easyclean throughout to ensure unparalleled performance for the life of the product.
- Slip-resistant particles throughout the product for guaranteed slip resistance, regardless of degree of wear.

Safety flooring + level of Altro Easyclean

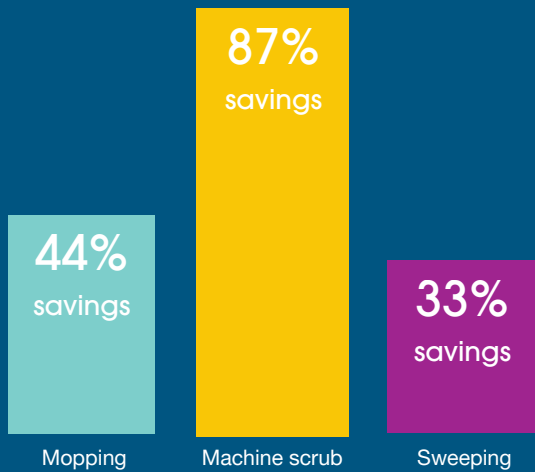

Slip-resistant flooring + level of Altro Easyclean

Smooth flooring + level of Altro Easyclean

Maintenance cost savings analysis

Graph shows the percent saved with flooring treated with Altro Easyclean vs. a traditional non-PUR safety flooring. Percentages are based on a test area of 100m² over the span of one year. As most cleaning routines are a combination of manual mopping, machine scrubbing and sweeping, the average percentage saved when choosing a floor treated with Altro Easyclean may be up to 60% over its life cycle.

See below for an approximated cost breakdown. Testing was carried out by a third party independent

	Altro Easyclean treated floor	Non PUR treated competitor floor
Sweeping	\$8.27 - 5x week	\$12.41 - 5x week
Mopping	\$3.33 - 5x week	\$5.99 - 3x week
Machine scrub	\$1.29 - 1x month	\$10.26 - 2x week
15 year cost	\$10,054.31	\$22,329.39

Savings of \$820 year / \$12,275 over 15 year lifetime - 55%

Some facility managers find that they no longer require machine scrubbing with adequate manual cleaning programs and Altro Easyclean flooring. This increases savings further as shown below.

	Altro Easyclean treated floor	Non PUR treated competitor floor
Sweeping	\$8.27 - 5x week	\$12.41 - 5x week
Mopping	\$3.33 - 5x week	\$5.99 - 3x week
Machine scrub		\$10.26 - 2x week
15 year cost	\$9,048.00	\$22,329.39

Savings of \$887 year / \$13,281 over 15 year lifetime - 60%

Costs were accurate at the time of third party testing.

Dirt pick-up and color retention

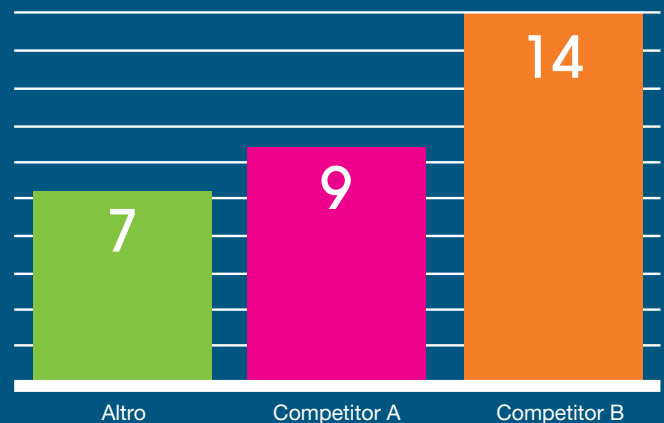

Independent test findings, indicated on the graph below, show the level of dirt pick-up of Altro Easyclean compared with two competitor safety flooring products also containing a PUR treatment.

Test procedure and results

- The color of each safety flooring sample was recorded using a Chroma Meter II reflectance spectrophotometer.
- All samples were adhered to the inside of the Hexapod Tumbler to simulate normal wear conditions.
- The tumbler was automatically rotated for 30 mins.
- The safety flooring samples were removed.
- Each sample was vacuum cleaned after testing, before the degree of soiling was determined.
- Color brightness was re-measured in six random areas of each specimen to establish dirt pick-up and color retention.

Tests prove that flooring treated with Altro Easyclean picks up less dirt and therefore retains its color better and longer than competitor PUR treated safety flooring. Due to the patented surface construction of Altro flooring with Altro Easyclean, dirt does not collect around particles.

Loss of brightness test results

Figures above indicate the degree of soiling remaining on the sample. The lower the number, the better color retention.

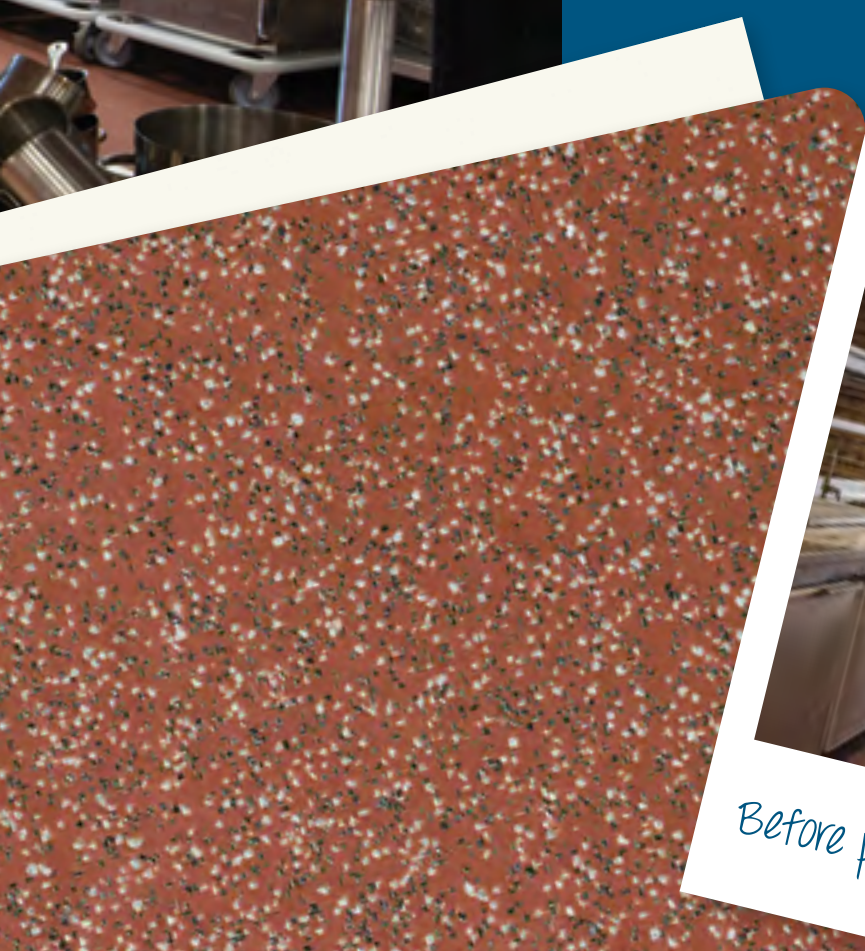

Luxury resort, Miraval Berkshires, chose Altro Stronghold 30 Torch and Altro Puraguard Salt for much needed kitchen renovations.

safety flooring

Areas like busy commercial kitchens and wet environments have additional contaminants, which are continuously present, and spillages cannot be avoided. The likelihood of a slip is significantly increased, raising the slip risk level to *extremely high*. These locations, often riddled with contaminants such as grease, oil, shampoo and shower gels demand safety flooring that retains a slip risk of one-in-a-million.

Safety flooring

Why safety flooring?	14
Assess your slip-risk	15
Testing and measuring slip resistance	16
Safety product offerings	18
Technical chart	29

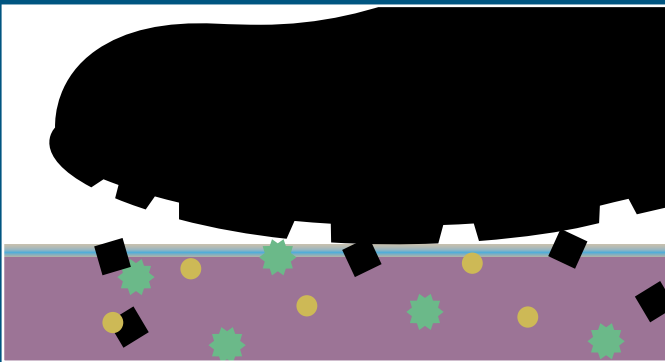

Before photo!

Why safety flooring?

Our safety flooring doesn't just protect the people who use it. It also protects those responsible for the health and safety of their employees and visitors. Our patented, aggregated construction of high-grade vinyl ensures a durable surface that is slip-resistant for the life of the floor.

Simply put, our slip resistance doesn't wear down like our competitors. Altro will maintain its integrity well past the warranty date. We've even tested flooring over 25 years old that still meets and exceeds today's measures.

The pressure created by walking over safety flooring causes aggregates in the flooring to push up and rub against the shoe, creating friction. Because of this, Altro safety flooring remains slip-resistant, even when the surface profile is wet.

Typical safety applications

- Commercial kitchens
- Dishwashing areas
- Walk-in coolers and freezers
- Food and drink manufacturing
- Back-of-house and staff service areas
- Manufacturing and industrial areas
- Showers and bathing areas
- Areas adjacent to wet areas
- Areas requiring extreme durability
- Hydrotherapy pool + spa surrounds

When do you need safety flooring?

Assess your level of risk.

It is designers, specifiers and end-users' responsibility to ensure flooring is fit for purpose, and it's part of our role here at Altro to help make this process easy. Our flooring is separated into three categories: safety, slip-resistant and smooth. These categories have been created to help assist you in specifying the floor that is right for the application type and any contaminants that may be present on a regular basis.

Are contaminants present?

Areas that commonly see many contaminants such as oils, soaps, grease or constant spillages of water require extra care when selecting flooring. We recommend Altro safety flooring that meets R12 or R11 levels of slip resistance for these areas. General use areas that are not riddled with contaminants will be secure with our slip-resistant or smooth offerings.

Typical areas with contaminants:

- Commercial kitchens
- Dish washing area
- Food + beverage service
- Showers
- Locker rooms
- Hydrotherapy pool + spa surrounds
- Restrooms

Risk of slips	Altro R12 (Altro Stronghold 30)	Altro R11 (Altro Aquarius + Altro Classic 25)	Altro R10 (Slip-resistant floorings)
Water	1-in-a-million	1-in-a-million	1-in-a-million
Vegetable oil	1-in-a-million	1-in-100,000	1-in-20
Greasy water	1-in-a-million	1-in-100,000	1-in-20
Shower gel	1-in-a-million	1-in-a-million	1-in-20
Shampoo	1-in-a-million	1-in-a-million	1-in-20
Conditioner	1-in-a-million	1-in-a-million	1-in-20
Milk	1-in-a-million	1-in-a-million	1-in-a-million
Flour	1-in-a-million	1-in-a-million	1-in-a-million

By choosing wisely, you can reduce the risks of slips and falls as much as one-in-a-million.

Testing and measuring slip resistance

As the inventor of safety flooring, we take slip resistance seriously! Many manufacturers will develop flooring just to meet ADA or OSHA requirements, but at Altro, we go above and beyond what's legally required, to deliver safety flooring you can count on for the product's lifetime.

Our ranges are rigorously tested for slip resistance values using multiple techniques from around the globe.

We don't just meet existing test standards, we're raising the bar and pioneering new, rigorous testing protocols like the Pedatron test (shown right).

Static Coefficient of Friction ASTM D2047

**.92D
.88W**

A device called the James Machine pulls a small weighted sled over the floor surface. The result is the measurement of friction the surface creates. This is the accepted standard measure in North America.

While this standard only requires testing over dry conditions, at Altro we test our flooring in both dry and wet conditions. It's a pioneering approach that gives you complete peace of mind.

Dynamic Coefficient of Friction ANSI/NFSI B101.3-2012

**.74
DCOF**

Testing for the Dynamic Coefficient of Friction (DCoF) is conducted through the use of a Digital Tribometer.

The device passes five times in a certain direction over a designated test area for a combined total of 20 passes while collecting readings that measure slip resistance potential.

While other options are available, this is one of the most popular test methods in North America for measuring the Wet Dynamic Coefficient of Friction for common hard-surface floor materials.

TRRL Pendulum Test ASTM E303 / BS7976

**Pendulum test
PTV
≥55**

Popular in the UK, the pendulum test is the only portable test standard, allowing for on-site tests. The test incorporates a rubber shoe heel that sweeps over a set of flooring in a controlled manner and produces a pendulum value measuring the potential to slip.

A result of ≤ 25 is very high risk and a result of ≥ 36 and above is low risk. Altro safety flooring exceeds the ≥ 36 rating indicating the lowest potential for slip.

Ramp Test DIN 51130

R₁₂

This standard, popular in Europe, uses test subjects who walk backward and forward on an angled ramp in a controlled manner over a flooring sample contaminated with water, oil, or other liquids. Results are achieved when the test subject loses balance and falls, and those results are called an R value.

The range is from R9-R13, with R9 being the accepted minimum for use of tile in public areas.

This “Pedatron” machine gives an accurate representation of surface wear in situ. In hours we can reproduce months’ of pedestrian foot traffic. This allows us to test, and re-test slip resistance in intervals throughout the projected life span.

Villa Laureana

Water underfoot is treacherous enough – add grease, oils and fats, and you’ve got a dangerous environment. For commercial kitchens, food preparation and back-of-house service areas, it’s essential to select flooring that will help staff continue their job safely.

Altro Stronghold 30 achieves Altro’s highest slip resistance rating and is designed to minimize risk in wet and greasy conditions for the lifetime of the flooring. In addition to keeping staff safe from slips, it also helps reduce their fatigue thanks to its 3mm thickness, providing ample noise reduction and comfort underfoot.

Typical applications

Commercial kitchens, food preparation, back-of-house service areas, walk-in coolers and freezers

Features + benefits

- Achieves highest level of slip resistance
- Risk of slipping is one-in-a-million even with contaminants present
- Heat-welded seams for better hygiene
- Static load limit exceeds 2000psi
- FDA / USDA / CFIA / HACCP compliant
- -22°F / -30°C lowest temperature rating
- Installs faster than quarry tile and epoxy
- Independent Halo tests indicate 10x lower bacteria count than quarry tile
- Fungi and mold-resistant, achieves zero growth after 28 days

Looks great with

- Altro Puraguard
- Altro Classic 25
- Altro Atlas 40
- Altro Lavencia
- Altro Wood
- all Altro wall cladding options

Sustainability

- 10% post-consumer recycled content
- O-phthalate free
- Contains bio-based content
- FloorScore certified and low VOC compliant
- Contributes to LEED

Düsseldorf Exhibition Center Cafeteria

Classic by name, classic by nature – Altro Classic 25 was the first ever safety flooring. It has been tried and trusted for over 60 years, and its traditional, industrial look is still popular today.

Altro Classic 25 provides lasting slip resistance, durability and abrasion resistance, making it ideal for use in heavy traffic areas – particularly commercial kitchens.

Altro Classic 25 is easy to clean and maintain and is available in practical, dirt-hiding shades. It achieves an R11 slip resistance rating. Altro Stronghold 30 and Altro Atlas 40 are also great flooring options for commercial kitchens depending on your individual needs.

Altro Atlas™ 40

King's Hall, US Naval Academy

Altro Atlas 40 is our most robust safety flooring, maintaining its integrity even when superficially punctured by studs or spikes. It's well suited to heavy-duty industrial use and sports changing rooms that see cleat traffic regularly.

Hard-wearing, stable and resistant to mechanical damage and chemicals, Altro Atlas 40 provides long-term durability and slip resistance, and is easy to clean and maintain.

Typical applications

Industrial areas exposed to heavy wheeled traffic, pallet trucks, forklifts, chemical processing, manufacturing, 24/7 commercial kitchens

Features + benefits

- Extremely durable
- Maintains surface integrity even when superficially punctured
- Well suited for commercial kitchen and industrial applications
- Resistant to mechanical damage and chemicals
- 4.0mm thickness provides ample underfoot comfort
- Easy to clean and maintain
- FloorScore Certified / Low VOCs

Bethany Riverview

Altro Aquarius was developed for lasting performance in wet and dry environments, shoes or barefoot. This 2mm safety floor has been extensively tested on a variety of shoe types (and bare feet) to ensure peak performance in a host of environments – bathrooms, changing areas, hydrotherapy pool surrounds. Anywhere you can expect a combination of wet and dry floors.

Altro Easyclean technology puts this range at the forefront of safety floor cleanability.

Typical applications

Bathrooms, showers, changing rooms, hydrotherapy pool surrounds, saunas

Features + benefits

- Optimum slip resistance in wet and dry environments, shoes or barefoot
- Achieves R11 slip resistance rating and SCoF of .88 dry, 1.03 wet
- Extensively tested on a variety of shoe types to ensure top performance
- Ideal for bathrooms, showers, changing areas and hydrotherapy pool surrounds
- Pairs with select Altro Walkway 20 colors for seamless coordination from wet rooms to general areas
- FloorScore Certified / Low VOCs

Looks great with

- Altro Whiterock
- Altro Wood
- Altro Walkway 20
- Altro Symphonia
- Altro Orchestra
- Altro Operetta
- all Altro wall cladding options

Sustainability

- 10% post-consumer recycled content
- O-phthalate free
- Contains bio-based content
- FloorScore certified and low VOC compliant
- Contributes to LEED

slip- resistant flooring

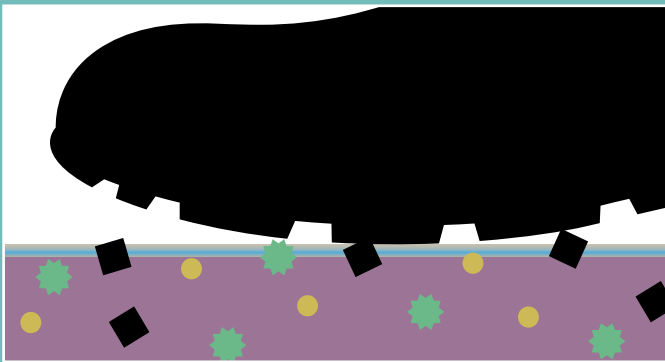

In many commercial areas, your slip risk is not as high as specialized area types like commercial kitchens and other wet environments. But your patrons, patients, students and employees still deserve to be secure on their feet — and you deserve peace of mind. We offer slip-resistant flooring that meets and exceeds safety standards. It reduces the risk of slips and falls and looks good doing so. It has become a practical and durable commercial flooring solution in a variety of application areas.

Slip-resistant flooring

Why choose slip-resistant flooring?	32
Measuring durability, stain and chemical resistance	33
Slip-resistant product offerings	34
Technical chart	47

Why slip-resistant flooring?

Slip-resistant flooring is a practical solution to blending safety flooring properties with modern, less industrial, commercial flooring looks. It delivers peace of mind and looks good doing so. Slip-resistant offers customers durable flooring with enhanced stain protection and chemical resistance. It withstands heavy pedestrian traffic, heavy rolling loads and high PSI demands. Slip-resistant floors are a robust commercial flooring option for areas requiring heavy-duty flooring without an increased slip risk due to contaminants like oils, fats and soaps.

The pressure created by walking over slip-resistant flooring causes aggregates in the flooring to push up and rub against the shoe, creating friction. Because of this, Altro slip-resistant flooring remains safe, even when the surface profile is wet.

Typical slip-resistant applications

- Healthcare
- Education
- Back-of-house
- High-traffic areas
- Manufacturing and industrial areas
- Chemical processing
- Laboratories
- Veterinary
- Retail and public spaces
- Any location with moderate slip-risk or durability concerns

Measuring durability

Busy environments with various demands on the floors from foot traffic and rolling loads of heavy equipment require durable flooring. Our heavy-duty slip-resistant solutions are developed to meet your needs in these tough, working environments.

But how can durability be quantified? One way is through PSI testing. PSI testing (called static load limit testing) is a way of measuring flooring to see if it will indent under pressure.

While the industry standard only calls for tests up to 250 pounds per square inch, Altro tests beyond that. We understand that the demands of today's facilities call for products that can withstand greater amounts of weight.

For instance, a bariatric bed with a patient can weigh as much as 1,500 lbs and is only supported by four castor wheels. That is intense point loading and a competitor's floor with a 250lb/psi would fail. The floor would break or indent, leaving not only a safety and hygiene hazard, but an expensive repair and facility downtime as well.

Altro has products that are tested and proven to withstand weights of over 2,000 psi.

Chemical and stain resistance

Floors in heavy-duty application areas are often subjected to a barrage of aggressive chemicals. These surfaces see everything from decontaminants to germicidal cleaners and disinfectants on a regular basis. It is important your facility is furnished with materials that will stand up to these powerful agents.

Our slip-resistant flooring offers a high level of resistance against stains and resists many common chemicals such as sodium hypochlorite, phenolic disinfectants, and germicidal cleaners like Preempt and Simple Green D.

Regardless, it is still very important that steps are taken to ensure a long-lasting floor:

- Specify colors appropriate for the application area
- Use manufactured recommended cleaners
- Train maintenance staff on proper care and regular cleaning procedures
- Make critical staining areas in a darker color

Altro Reliance™ 25

The Deep Aquarium

Looking for a robust, heavy-duty solution for your back-of-house or front-of-house areas? With both traditional and modern looks in one slip-resistant range, it's easier than ever.

Confidence, trust and assurance – Altro Reliance 25 is a premium choice in heavy-duty commercial flooring. At 2.5mm thick, it is highly durable and can cope with high levels of foot and wheeled traffic without compromising on performance.

Combine Altro Reliance 25 with Altro wall protection for your toughest areas.

Typical applications

Healthcare, laboratories, kitchens, bars, cafeterias, veterinaries, industrial areas, manufacturing, machine shops, chemical processing, arenas and more

R10

Gulf Coast Veterinary Clinic

Altro Walkway 20 is our hugely popular hard-wearing 2mm slip-resistant flooring. The range boasts many colors and shares its palette with Altro XpressLay. This enables you to combine both ranges when you need traditionally adhered and adhesive-free flooring in adjacent areas while maintaining a consistent look.

What's even better is Altro Walkway 20 offers you two distinct looks; traditional and modern. Both looks come with Altro EasyClean technology for superior cleanability and stain resistance.

A static-dissipative version is available, specifically designed for locations where static buildup must be avoided.

R₁₁

Goldsteig Cheese Factory

Extremely flexible and strong, Altro Tungsten is a PVC-free, fleece-backed acrylic sheet flooring range that fulfills the need for resilience and slip resistance in areas in which a traditional vinyl flooring is not the preferred option.

When faced with strict rulings regarding the use of PVC, you can trust Altro Tungsten to deliver the same quality you've come to expect from traditional slip-resistant sheet flooring.

Created with industry-leading Altro Easyclean, your PVC-free Altro Tungsten floor will stay looking new longer and will help save on maintenance costs over the life of the floor.

Designed for exterior use, Altro Promenade sheet vinyl flooring provides essential slip resistance in areas exposed year-round to changing weather conditions. This range is ideal for indoor applications as well as patios, decks and pool surrounds that prioritize both safety and aesthetic appeal.

Altro Promenade's impervious surface prevents rainwater and excess moisture accumulation that can damage subfloors over time. It is capable of enduring harsh sunlight and fluctuating temperatures without cracking, fading, or falling apart, making it a practical solution for outdoor areas.

Altro Promenade offers a low-depth stepped embossing for smooth underfoot comfort and enhanced cleanability while still providing slip resistance.

Typical applications

Patios, decks, pool surrounds, spas, balconies, outdoor spaces

adhesive-free flooring

Our award-winning adhesive-free flooring has expanded to include three unique ranges with differing aesthetics and physical attributes. Each of these solutions offer unique advantages that make them adaptable to your design's specific needs.

Adhesive-free flooring

Why adhesive-free flooring?	50
Benefits of Altro adhesive-free	51
Adhesive-free sheet product offerings	52
Technical chart	63

Why adhesive-free sheet flooring?

Altro's award-winning, adhesive-free floors now feature new ranges offering you enhanced comfort underfoot and greater impact sound reduction. With more color and wood-look options, these solutions provide complete flexibility for different application areas and aesthetic appeal.

Teamed with the benefits of reduced installation time, cost savings and sustainable attributes, we invite you to discover how Altro adhesive-free is the next step in the evolution of commercial flooring.

- Smooth and slip-resistant options
- Classic, modern and wood-look visuals
- Underfoot comfort and sound reduction - 14dB (Altro Cantata and Altro Wood adhesive-free)
- Quickly installs with tape for minimal downtime
- Can be welded and walked on same day
- Install in areas up to 98% relative humidity
- Embossed backing allows subfloor moisture to dissipate
- No adhesive odors
- Easy removal allows it be uplifted, reused and recycled
- Contains rapidly renewable bio-based content
- Emits low VOCs
- Many match and/or coordinate with glue-down counterparts

Typical adhesive-free applications

- General purpose use throughout all sectors
- Fast track projects
- Temporary and modular building
- Healthcare
- Education
- Historical buildings

Less downtime

With Altro adhesive-free sheet flooring, surface damp-proof membranes and adhesives are a thing of the past. Your installation can be up and ready in half the time of a traditional adhered sheet floor, letting you get back to business with minimal interruption to your schedule.

Install over existing flooring

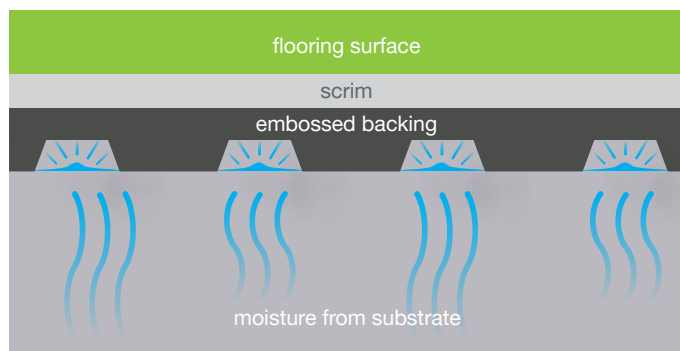

Altro adhesive-free flooring can be installed over existing intact substrates without applying adhesive. This can save you thousands in expensive flooring removal and asbestos abatement.

Heavy rolling loads

Altro adhesive-free sheet flooring holds effectively. In fact, it has been tested with a 1,975lbs (900kg) drilling rig with caterpillar tracks. A patient on a hospital bed, utility carts, or heavy equipment is no problem at all!

Adhesive-free sheet flooring holds as effectively as Altro glue-down sheet flooring; no rucks, no movement. They achieve optimum installation results and conformity to our 10-year warranty!

Moisture problem? Not anymore!

The specially formulated studded underside emboss allows Altro adhesive-free sheet flooring to sit off the subfloor, letting the floor breathe, resulting in any moisture dissipating.

Fresh slab? No problem!

The revolutionary underside emboss means that Altro adhesive-free sheet flooring can be used on fresh concrete subfloors up to 98% relative humidity (RH).

There is no need to wait for new concrete to reach 90% RH, allowing you to install flooring quickly and easily without having to wait for the substrate to dry.

Remove, reuse, recycle

Altro adhesive-free sheet flooring is 100% recyclable post-consumer and can be reused in other installations.

We have numerous success stories of re-purposing large format installations in which the floor is installed temporarily, lifted and used again.

At its end of life, Altro adhesive-free sheet flooring can be removed quickly and reused or recycled; there's no flooring covered with adhesive and bits of substrate to deal with.

Altro XpressLay™

Reading University

The world's first adhesive-free safety floor that can save you money on materials and time on installation. Altro XpressLay is the next step in the evolution of safety flooring. It's installed using a tape system instead of adhesive - so it can be installed without a surface DPM. This means that you can weld the same day it is installed, greatly reducing installation time. It can be easily removed post-installation, reused elsewhere and then recycled at the end of its life.

Altro XpressLay includes a wide range of colors featuring bright and subtle, sparkle-free designs and decorative chipped options. We know how important it is that your floor stays looking good year after year, so we've added Altro Easyclean for superior chemical and stain resistance.

Typical applications

General purpose, fast-track, retrofits, education, temporary healthcare, modular and historical buildings

Altro Wood™ adhesive-free

New Altro Wood adhesive-free creates maximum impact with minimum downtime. With a wide variety of color choices, 14dB sound reduction, a 10-year warranty and our Altro one-in-a-million slip resistance reassurance, Altro Wood adhesive-free offers high levels of comfort underfoot providing a safe, durable and decorative solution for busy spaces.

Using our award-winning adhesive-free installation method, it can be welded and walked on the same day, and at the end of its life can be removed easily, allowing it to be reused or recycled. Using Altro adhesive-free floors, you can halve installation time compared with a traditional adhered installation. It is ideal for busy public spaces where disruption needs to be minimal, plus there are no associated adhesive odors.

Typical applications

Healthcare, temporary healthcare, modular buildings, historical buildings, senior living, education, retail and offices, hallways, general circulation areas

smooth flooring

Altro smooth flooring provides attractive designs that are easy to maintain and install. Whether it's looks, durability or life cycle costs that concern you most, smooth flooring delivers on every count. Our smooth flooring ranges are suitable for a wide array of application areas.

Smooth flooring

Why smooth flooring?	66
Smooth sheet product offerings	68
Smooth tile and LVT product offerings	90
Technical chart	106

Why smooth flooring?

Smooth flooring from Altro gives you what you want - an economical and attractive look that's easy to install and maintain. Better yet, our smooth flooring has had a significant makeover. This collection of practical design options blends an expansive color palette with integrated acoustic and hygiene benefits as well as ample comfort underfoot.

From realistic wood and linen visuals to stylish, low-maintenance LVT and even durable rubber tiles, our smooth flooring can easily adapt to fit the unique needs of your design.

What type of smooth flooring do you need?

- Smooth slip resistance - Altro Symphonia
- Underfoot comfort and noise reduction - Altro Serenade, Altro Wood Acoustic, Altro Orchestra, Altro Wood Comfort
- Budget friendly, contract sheet - Altro Wood, Altro Operetta
- Adhesive-free - Please see previous chapter on adhesive-free flooring
- Luxury vinyl tile/plank - Altro Lavencia LVT
- Robust, durable tiles - Altro Quartz Tile, Altro Ollero
- Homogeneous tile - Altro Dolce

Typical smooth applications

- Healthcare
- Senior living
- Retail
- Offices
- Education
- Hospitality
- Housing

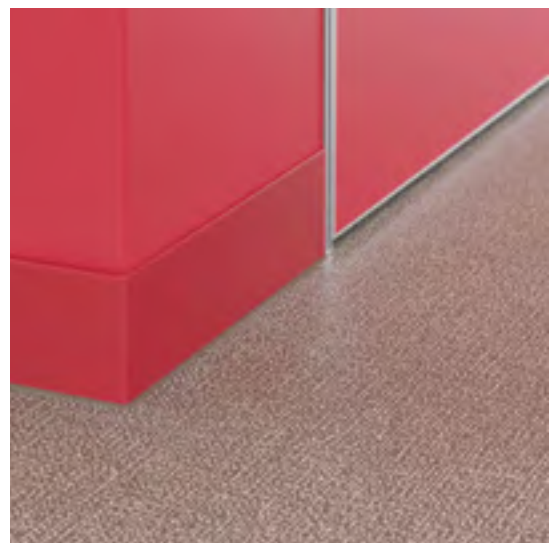

Better together

In commercial areas of frequent spills, hygiene and durability concerns, it's best to let our robust collection of safety and slip-resistant flooring join the team.

Install smooth flooring in the dining room and public areas, and bring safety (or slip-resistant) flooring and wall protection into the kitchen, bar, service areas and restrooms.

You will rest easy knowing your patrons will have an exquisite experience while the most dangerous areas in your facility are well equipped to handle the tolls of the day.

Altro Symphonia™

First Hill Surgery

Bold, bright and beautiful - Altro Symphonia was engineered to deliver striking looks and bridge the gap between smooth and slip-resistant flooring.

Altro Symphonia is smooth to the touch and easy to clean, yet will secretly enhance pedestrian safety. With four unique looks and 41 shades from pale neutrals to bright yellows, greens and blues, you can easily vary your interior's mood and sophistication. But don't let Altro Symphonia's delightfully smooth surface fool you. It delivers all the durability you would expect from Altro, including a 10-year warranty.

Typical applications

Hospitals, operating rooms, patient rooms, lobbies, senior living communities, education, retail, cafés, general front-of-house and multi-purpose areas

Altro Operetta™

Altro Operetta is a robust floor perfect for medium to high-traffic areas. It is easy to clean and maintain and can withstand up to 2,000psi indentation. It has many attractive natural and contemporary colors and finishes to fit your interior design scheme. It matches and coordinates with Altro Orchestra and Altro Serenade to create a complete look throughout.

Combine with our extensive range of Altro wall panels for an attractive and durable floor and wall system.

Typical applications

Healthcare, senior living, education, retail, offices and recreational areas

Features + benefits

- Smooth surface is easy to clean and maintain

Altro Operetta shown in Glee and Acapella

Altro Orchestra™

For areas where comfort and sound reduction are important, 2.85mm Altro Orchestra has been engineered to create the ideal environment to learn and live. At the same time, the integrated impact sound insulation system cuts impact sound by up to 15dB.

Altro Orchestra offers comfort underfoot, making life easier on the feet of students, patients and particularly hard-working staff who spend countless hours on the move.

With a palette full of colors and designs varying from calming neutrals reflecting tones of nature, to vibrant shades, Altro Orchestra allows you to create the right atmosphere every time.

Typical applications

Healthcare, senior living, education, retail, offices, light gym and recreational areas

Altro Wood™

Nethercrest Nursing Home

Altro Wood is an attractive, general purpose 2mm wood-look flooring available in a range of designs with different plank sizes and shades. These include a fine-line design, a classic wide plank and rustic designs, which help create the right look for areas where people live and work.

It's not just about looks though: Altro Wood is designed to cope with the medium to heavy traffic you would expect in busy environments. It is also a perfect partner for a variety of wall shades and finishes, from wall cladding to metal and glass, making design coordination simpler.

Typical applications

Healthcare, senior living, education, retail, offices and recreational areas

Looks great with

- Altro Wood Comfort
- Altro Wood Acoustic
- Altro Wood adhesive-free
- Altro Operetta
- Altro Walkway 20

Altro Lavencia™

The Mooring on Foreside

Attractive looks and lasting durability are not the only traits that make Altro Lavencia the premier LVT for commercial applications — Altro Lavencia is now proudly manufactured in the USA!

Available in an assortment of updated films ranging from classic wood tones, coordinating stones, brights and even modern organic looks, Altro Lavencia is a stylish, low-maintenance option for a host of application areas.

Peak beauty and performance will last through its lifetime, even in areas with consistently heavy traffic, thanks to the commercial-grade UV-cured ceramic reinforced urethane finish and 28 mil wear layer.

Typical applications

Schools, colleges, offices, government buildings, senior living, public housing, apartment communities, retail, dining rooms

Altro Quartz Tile™

Winslow Junior High School

Altro Quartz Tile is a homogeneous tile available in chip and marble patterns, providing endless design options for commercial, industrial or public sector applications. Static load testing that exceeds 3000 psi proves Altro Quartz Tile is ideal for heavy pedestrian traffic areas. These tiles are occupancy ready, eliminating the need for initial application of floor finish.

Generate school spirit by pairing logos and colors or improve company morale with vibrant hues that inspire vitality throughout the office.

Typical applications

Schools, hallways, classrooms, cafeterias, lobbies, waiting rooms, retail, supermarkets, cafes, office buildings, general circulation areas, warehouse and industrial areas, forklift trafficked areas

Looks great with

- Altro Lavencia LVT
- Altro Walkway 20
- Altro Operetta

Samples are available on altro.com or through Material Bank.

Features + benefits

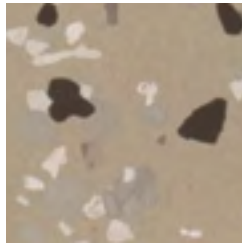

- Homogeneous construction, available in chip and striated patterns
- Static load limit of 3,000 psi
- Easier and faster to install than VCT
- Occupancy ready, no finish required
- 70% quartz content for extreme durability
- PUR coating – easy to maintain and better cleanability compared to non PUR treated products
- Low VOCs

Altro Ollero™

Altro Ollero is a versatile, durable and eco-friendly rubber flooring solution designed to provide the look of more traditional commercial surfaces such as carpet, stone and even cork. Available in a range of 22 colors with a mixture of solid, speckled, neutral and vibrant tones, these tiles are guaranteed not to curl, harden or crack over time. Their integrated impact and sound absorption properties can help reduce fatigue and excess noise in high traffic areas.

With no need for additional finishes or wax, Altro Ollero is easy to clean and maintain without the use of harsh chemicals, making it a cost efficient option for retail, education and recreational areas. These precision water-jet cut tiles are easy to install and come in a square-edge glue-down format or an adhesive-free interlocking format with four different thickness options.

Typical applications

Retail, leisure, fitness centers, sporting arenas, education, childcare, gymnasiums, museums, libraries, amusement centers

Features + benefits

- Easy-to-clean
- Reduces fatigue
- Impact and sound absorbing
- High SCoF values wet or dry
- Long life expectancy + 10-year warranty
- Guaranteed not to curl
- High traction and durability

Looks great with

Altro Dolce™ Tile

Altro Dolce tile combines the natural beauty of stone with the durability and resilience of enhanced vinyl. With its homogeneous pattern construction and a factory-finished PU coating, Altro Dolce will maintain its look throughout the life of the floor.

Altro Dolce is a sustainable flooring option containing 72% pre-consumer recycled content, helping construction projects achieve LEED certification. Installing Altro Dolce in front-of-house areas and Altro safety flooring in heavy duty/back-of-house areas is a very practical decision.

Typical applications

Schools, hallways, classrooms, cafeterias, lobbies, waiting rooms, retail, supermarkets, cafes, office buildings, general circulation areas

Hull Hospital chose a suite of Altro floor and wall products for its new birthing facility including digitally printed walls, Altro Whiterock and AW wall designs.

wall systems

Choosing your wall system solution is simple; it's all about where you need to use it. Will it be a functional, hygienic, watertight installation? Are you looking to protect against scuffs and scratches? Or are aesthetics more important? We have wall systems that suit all of these credentials and more, including digitally printed wall panels to create interiors that are truly spectacular and can be customized to suit your specific design goals.

Wall systems

Why choose walls from Altro?	110
Our wall portfolio	111

Integrated floor + wall solutions	114
Technical chart	134

Why choose walls from Altro?

Our wall systems were introduced over 35 years ago and have been a market leader ever since. Providing creative freedom to designers, specifiers and end users, our effective, impervious walls systems deliver a safe, hygienic, decorative and fire-compliant wall solution.

Our portfolio includes functional, performance-driven wall protection as well as more decorative options. With a wide range of solutions, we can provide you with complete design flexibility for any environment.

A complete system

What makes us different from our competition? Our system! We don't just supply wall panels - we supply the whole system including accessories, adhesives, tools, installer training classes and the support staff to back them all up.

With multiple methods of joining panels and transitioning from floor to wall, Altro has a wall solution for every application area.

Typical wall system applications

- Shower enclosures and wet areas
- Operating rooms and sterile areas
- Cleanrooms and laboratories
- Commercial kitchens and back-of-house
- Manufacturing and production
- High-traffic areas
- Receptions, lobbies and front-of-house
- Retail and corporate
- Wainscoting, backsplashes and headboards

Altro Whiterock™

White and Satins

Villa Laureana

Altro Whiterock provides continuously smooth, impact-resistant wall protection without gaps or grout. It is ideally suited for areas in which hygiene and cleanability are critical, as well as those that require a water-resistant finish.

Designed to integrate with Altro flooring using a seamless, watertight joint, Altro Whiterock panels are capable of being heat formed and bent around corners, pipes and other extrusions. This eliminates the threat of bacteria hiding in accessories, cracks, gaps and inadequate seam treatments that are common with other wall products.

This versatile wall protection provides unmatched durability that can help reduce maintenance costs, avoiding common repairs associated with tile, drywall and paint alternatives.

Typical applications

Wet areas, operating rooms, pharmaceuticals, cleanrooms, sterile areas, manufacturing and production facilities

Looks great with

- Safety flooring
- Slip-resistant flooring
- Adhesive-free flooring
- Smooth flooring

Sustainability

- Phthalate-free
- Emits no VOCs
- Contributes to LEED
- EPD available

An integrated floor and wall solution

Altro Whiterock is an integrated solution, meaning it fits together perfectly to provide a hygienic, watertight surface that's ideal for designing a sterile field. This doesn't just offer the best possible protection against bacteria and contamination; it makes cleaning easy too.

Easy-to-clean

Effective detailing + accessories

Fully sealed

Thermoformed on-site

Heat-welded joints

High impact resistance

Easy to keep clean

Together, our products provide a robust, hard-wearing surface that resists stains, odors and chemicals. PVC is non-porous, non-shedding, and has very high impact resistance, preventing damage that can trap bacteria compared to traditional surfaces.

Fully sealed

Altro Whiterock is a fully-bonded system with hygienic sealed edges, abutments and joints. It can even be sealed around fixtures and fittings.

When joined together with Altro flooring, our wall panels form a watertight covering - from floor to ceiling.

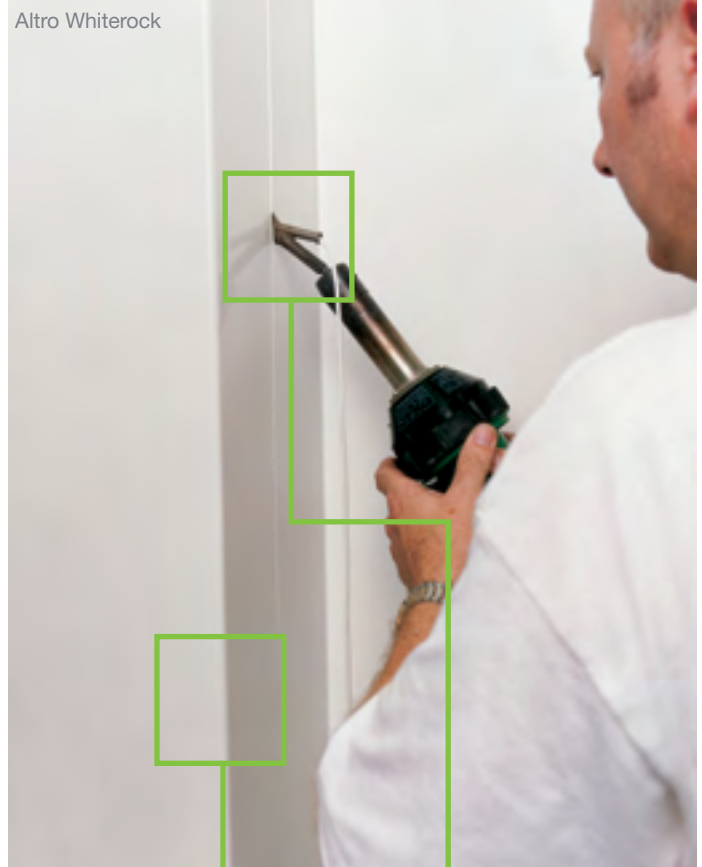

Thermoforming

Because our wall panels can be molded around corners on-site, they form an uninterrupted surface that's resistant to impact and damage. There's no need for unsightly corner trims which can form potential dirt traps that are difficult to access and clean.

Joint forces

Joints and junctions are a key part of system integrity. For instance, did you know that traditional flooring cap trims used with resilient flooring forms a ledge that is not USP 797/800 compliant?

While we have multiple joining methods, we recommend heat welding for all wall joints and overlapping for wall-to-floor transitions in hygienic areas.

Altro Whiterock

Thermoformed corners
No unsightly trims

Heat-welded joints
Fully-sealed, seamless joining

Cross section of wall cladding overlapping floors

Cove stick
For a smooth transition
up the wall

Wall overlaps floor
Typical installation

Rockville General Hospital's behavioral and mental health ward chose Altro Whiterock, Altro Aquarius and Altro Walkway 20

Altro Whiterock™ Matte

Bro Teffi School

Doors and plaster board walls can easily be damaged, whether by scrapes and knocks as people pass, or more serious dents and holes caused by wheeled traffic. Altro Whiterock Matte has been specifically designed to protect these surfaces. Altro Whiterock Matte is dense, impervious and resistant to bumps. It features a lightly-textured surface and homogeneous color which camouflages scuffs and scratches, keeping the wall area looking better longer.

With an impervious, easy-to-wipe surface, Altro Whiterock Matte improves cleanability, which is a major advantage within its recommended application areas.

Typical applications

High-traffic areas, corridors, food manufacturing, back-of-house, showers and spas

Looks great with

- Safety flooring
- Slip-resistant flooring
- Adhesive-free flooring
- Smooth flooring

Sustainability

- Phthalate-free
- Emits no VOCs
- Contributes to LEED
- EPD available

Altro Whiterock™ PopArt

Altro Whiterock PopArt allows you to reproduce custom images and artwork onto Altro Whiterock wall panels to create durable, vibrant design options for a variety of applications.

Available as a completely custom product, print with your own imagery or choose from a wide variety of preselected standard imagery that can easily adapt to your design's specific needs. From scenic landscapes and inspirational architecture to intricate geometric patterns, we have multiple looks that can help make a bold impact, impress clientele or even create calm, soothing settings for patients.

Altro Whiterock PopArt is manufactured in North America with a six-week lead time.

Typical applications

Healthcare, senior living, pediatrics, education, athletics, hospitality, lobbies and reception, corporate and offices, leisure, general areas

Looks great with

- Safety flooring
- Slip-resistant flooring
- Adhesive-free flooring
- Smooth flooring

Sustainability

Samples are available on altro.com

Choose your format

Altro Whiterock PopArt is available in three different formats, including two protective film options that can adapt to your design's specific needs.

- **Lite** - no protective film and is best used in low-traffic areas that do not require the use of disinfectants, 1-year warranty
- **Matte** - a protective matte film that resists common scuffs and scratches, 5-year warranty
- **Gloss+** - a graffiti and chemical-resistant, dry-erase film that offers a high level of surface protection, 10-year warranty, and coordinating accessories and trims

Altro Whiterock PopArt Lite

Your image is digitally printed onto Altro Whiterock™ without the use of any optional protective films, suitable for low-traffic areas where damage to the panel is unlikely.

Altro Whiterock PopArt Matte

After printing, a protective matte finish film is applied over the surface of the printed Altro Whiterock™ panel.

Altro Whiterock PopArt Gloss+

Our damage-resistant option - after printing, a high-gloss graffiti-resistant dry-erase film is applied over the panel.

Your printed panels are also now usable as a writeable whiteboard surface.

Altro Whiterock™ Digiclad

UCH London

Similar to our Altro Whiterock PopArt product, Altro Whiterock Digiclad allows you to create the right impression with a custom design on your wall. From a calming coastal landscape in a hospital ward to a bold company logo in a reception area, the only limit is your imagination.

Altro Whiterock Digiclad is created by reproducing vector artwork (or an extremely high-resolution photograph) onto Altro Whiterock wall panels. Hard-coat technology provides scratch-resistant properties for added surface protection.

Altro Whiterock Digiclad utilizes the same standard image gallery as Altro Whiterock PopArt. It has a 14-week lead time and ships from the UK. Altro Whiterock PopArt is manufactured in North America with a 6-week lead time.

Typical applications

Healthcare, senior living, pediatrics, education, athletics, hospitality, lobbies and reception, corporate and offices, leisure, general areas

Looks great with

Altro Whiterock™ Whiteboard

Altro Whiterock Whiteboard is a premium clear dry-erase coating that allows for any Altro wall panel to be turned into a custom dry-erase board.

The chemical and scratch-resistant clear gloss surface safeguards against ghosting and staining from ink as well as graffiti. When compared to other dry-erase boards, Altro Whiterock Whiteboard is remarkably easier to erase.

Its anti-graffiti properties also allow for easy removal of permanent marker with rubbing alcohol.

Typical applications

Operating rooms, nurses' stations, patient rooms, boardrooms, chef boards, education, daycare

Features + benefits

- Durable overlamine film - 2mil thick
- 10-year warranty
- No ghosting
- Graffiti-resistant
- Class A fire-rated, CAN/ULC tested
- Resists scratches, abrasion, water damage, and corrosion from solvents, stains, and chemicals
- Blends the durability and hygiene of Altro Whiterock with versatility of dry-erase
- Integrates with other Altro Whiterock panels allowing for designated areas to be dry-erase capable

Sustainability

- Phthalate-free
- Emits no VOCs
- Contributes to LEED

Altro Whiterock™ Recessed Shelf

To complement Altro Whiterock in shower areas, we are now offering prefabricated, factory-formed, recessed shelf units. Made from the exact same material as Altro Whiterock wall panels, these shower units are ideally suited for mental health installations. They are recessed into the drywall and heat-welded flush to the adjoining wall panel, making them an extremely hygienic, smooth solution and ideal for use in healthcare, senior living, and mental health facilities.

Seamed flush to the wall with no ledges or lips to grab hold of, the system is tamper-resistant and free from potential ligature points.

Typical applications

Showers in healthcare, senior living, behavioral health and leisure areas

All colors from Altro Whiterock Satins range are available as a custom order with MOQs and increased custom pricing.

Altro Tegulis™

For a sophisticated space, create your own style with ease. Altro Tegulis is an innovative wall solution available in an extensive color and design palette. With a chic look and feel of tile, the custom-etched grout lines offer a hygienic solution eliminating scrubbing and repair issues. This easy-to-install system is available in interlocking and straight-edge formats with a variety of tile sizes capable of adapting to different designs.

Unlike traditional porous grout used in ceramic tile installations, the grout lines embedded into Altro Tegulis' surface are impervious to moisture. Using our half lap installation method combined with our sanitary sealant, Altro Tegulis prevents water and bacteria from penetrating below the surface, allowing for thorough cleaning and disinfecting. This provides an authentic tiled visual, without any of the unhygienic drawbacks.

Features + benefits

- Extensive color + pattern palette
- Etched grout lines maintain hygiene
- Resists bacterial growth
- Non-porous, hydrophobic
- Class A fire-rated, CAN/ULC tested
- Emits no VOCs
- Lead-free, phthalate-free

Altro Puraguard™

Create a complete floor and wall solution for back-of-house areas by combining Altro Puraguard wall panels and accessories with Altro safety flooring. The easy-maintenance, hygienic PVC surface will help you assure that your kitchen is clean and that food is safe for consumption. Better yet, Altro Puraguard has become the in-demand, economically priced wall protection product for back-of-house areas and is a great alternative to FRP.

Say goodbye to cracked tiles! Altro Puraguard is durable and can prevent damage to walls from moving carts, bumps and dings. Its homogeneous throughout coloring camouflages scuffs so your kitchen stays looking new longer.

Flooring accessories

C7 Cap strip

C7BLK/DOVE/WHT

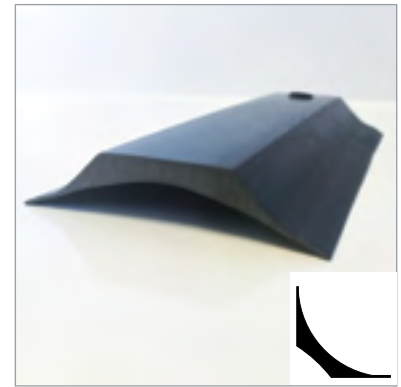

Pliable "J" shaped vinyl finishing cap used with flash covered sheet vinyl flooring. Available in Black, Gray and White.

20mm Cove stick

CF 20R

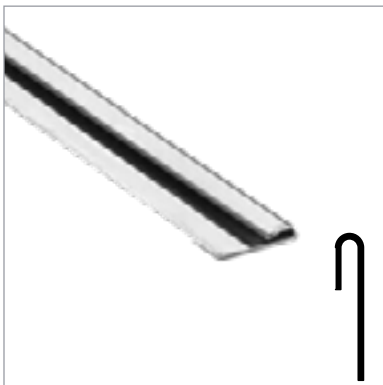

Used to create flash coving with resilient sheet flooring.

38mm Cove stick

CF 38R

Used to create flash coving with resilient sheet flooring.

Stainless steel cap strip

SSCAP67

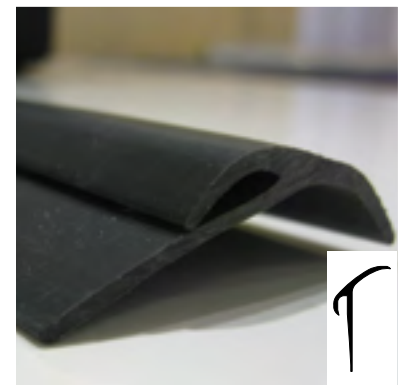

Stainless steel "J" shape finishing cap used with flash cove sheet vinyl flooring. Finish: 304 #4 stainless steel finish Gauge: 20

Stainless steel corner guard

3" and 5"

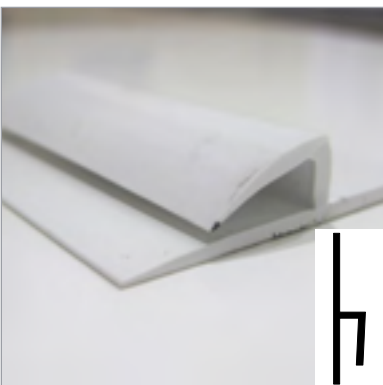

Protects external corners in high traffic areas.

C11 Captile strip

C11

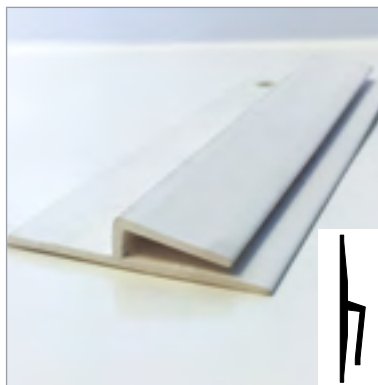

Pliable vinyl finishing cap used at the top of quarry tile base or similar when flash coving over existing tile.

C8 Cap tile strip

C8

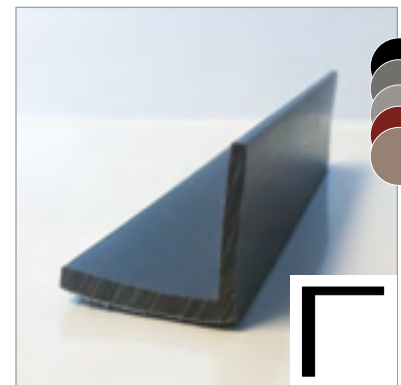

Rigid "h" shaped vinyl transition cap w/8mm shelf to be used between flash covered sheet flooring and wall tiles and/or wall cladding.

C4 Cap tile strip

C4Cap

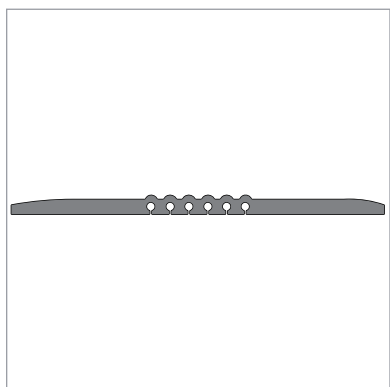

Pliable "h" shaped vinyl transition cap w/4mm shelf to be used between flash covered sheet flooring and Altro wall panels.

Gully angle

GA 25/35

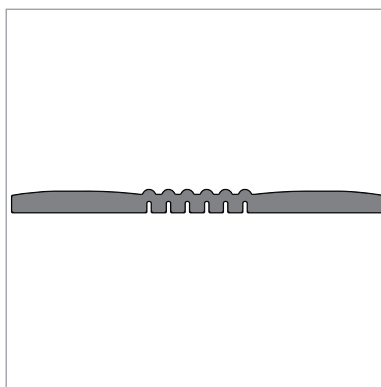

Vinyl "L" shaped accessory to be heat welded to sheet vinyl and used with raised floor sinks that are higher than the finished floor level. Available in Black, Storm (Dark Gray), Fog (Light Gray), Russet (Quarry Red) and Tundra.

20mm Joint cover strip

JCS 75/20

Cover strip used when there is potential of control joints moving and showing through the finished floor.

32mm Joint cover strip

JCS 75/32

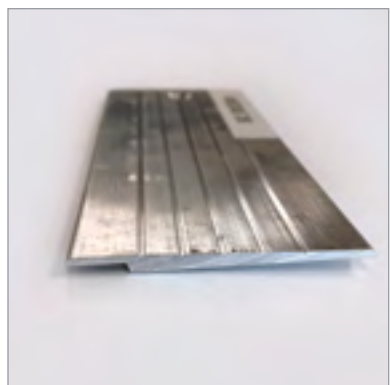

Cover strip used when there is potential of control joints moving and showing through the finished floor.

Shower transition trim

ASF WETTRIM/* color code

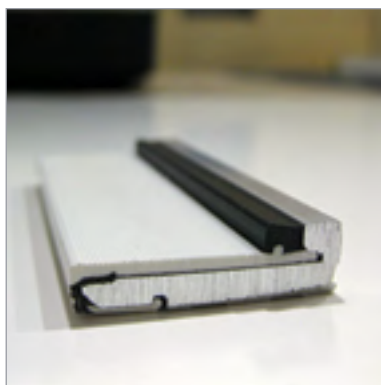

Wheel chair accessible shower berm that prevents water egress from wet areas. Available in Cream(01), Light Gray(03), Medium Gray(04) and Light Brown (02).

Visedge DS

VIEDGE DS

Aluminum over the top reducer threshold to finish a raw edge of flooring where it needs to transition down to zero.

Visedge VR

VIEDGE VR

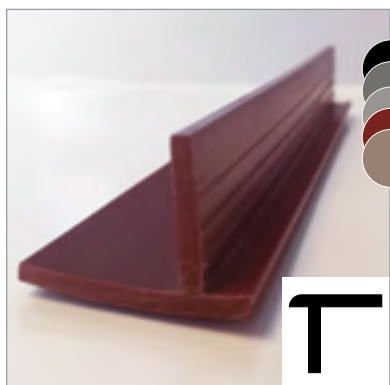

Aluminum alloy retainer with pvc insert to receive heat welded sheet vinyl that can abut a raised floor sink or quarry tile and patched down to zero.

Stainless steel heat deflector plate

SS DEFLECTOR PLATE

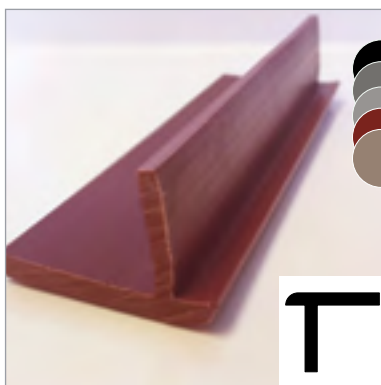

Protects vinyl flooring from high radiant heat. Ships with protective film covering. Size: 4'3

20mm Gulley edge with reducer

GE 25 RE

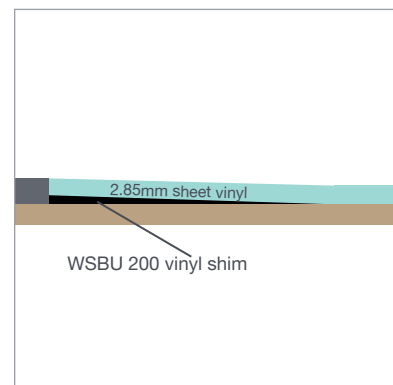

Vinyl "T" shaped accessory to be heat welded to sheet vinyl and used with floor sinks, square or rectangular trench drains. Available in Black, Storm (Dark Gray), Fog (Light Gray), Russet (Quarry Red) and Tundra.

35mm Gulley edge with reducer

GE 35 RE

Vinyl "T" shaped accessory to be heat welded to sheet vinyl and used with floor sinks, square or rectangular trench drains. Available in Black, Storm (Dark Gray), Fog (Light Gray), Russet (Quarry Red) and Tundra.

WSBU 200 vinyl shim

WSBU200

Vinyl shim use for transitioning smoothly between floors and walls or dissimilar flooring thickness when the transition is to be heat welded.

Flooring accessories continued

EcoFix 20E adhesive

ECOFIX20E

Environmentally friendly, hard set, acrylic adhesive used for vinyl sheet flooring.

EcoFix 25E adhesive

ECOFIX25E

Environmentally friendly, pressure sensitive, acrylic adhesive used for tile and/or plank flooring.

AltroFix 30 adhesive

ALTROFIX30

Two-part polyurethane adhesive used for installing safety sheet vinyl in high traffic and/or wet areas.

AltroFix 31 adhesive

ALTROFIX31

Fast-acting two-part polyurethane adhesive used for installing safety sheet vinyl in small, wet environments.

AltroFix SD70 acrylic adhesive

ALTROFIXSD70

One-part acrylic adhesive used for installing Altro Walkway 20SD in static sensitive areas.

Adhesive for recycled rubber flooring

RFA4.0

One-part polyurethane adhesive used for installing Altro Ollero.

EcoFix 65 Spray adhesive

ECOFIX65

Non-toxic, water-based adhesive used for tile and/or plank flooring.

EcoFix 35 Spray adhesive

ECOFIX35

Non-toxic, water-based adhesive used for resilient sheet vinyl flooring in dry environments.

Altro QuickFix 3042 epoxy caulking

QUICKFIX3042

Fast-reacting, two-part self-mix epoxy caulking adhesive used for gully edge/angle installation and small repairs.

W165 Tape adhesion promoter
W165
Ensures tape adheres properly to substrate.

AltroMastic 100
A1M/* add color code.
Caulking compound used for sealing joints where obstructions prevent the use of a heat welding gun.

Weldrod
WR* add color code.
PVC welding rod for use with Altro sheet vinyl flooring.

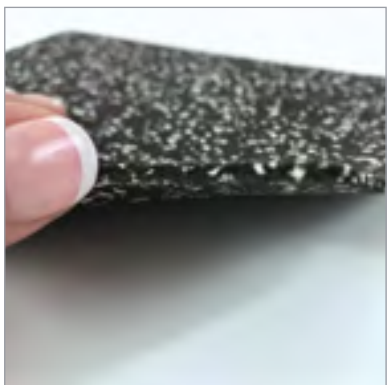

Adhesive-free tape
XL Tape 25
For adhering adhesive-free sheet vinyl in place.

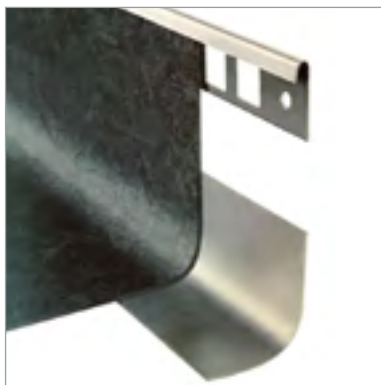

Contact tape
1" CFS Capfix
4" and 6" CFS Covefix
Adheres cove stick and flashed covered flooring in place.

Altro Everlay underlayment
MEA1.2
For installing sheet vinyl over old or new surfaces with subfloor problems.

Altro Acoustic underlay 1101
AAU1101L36
For reducing the passage and transmission of sound.

FlashCove
FLASHCOVE* add Small toe/Large toe
Prefabricated, covered base with a bonded aluminum reinforcing backer.

Altro Drain strainer cover
ADSC-5Z (5" fit Zurn)
ADSC-5MW (5" fit Mifab/Watts)
For ease in creating a modified drain with pre-existing assemblies.

Altro Whiterock accessories

1-Part start and edge trim

8'2" G833/25/* add color code
 9'10" G833/30/* add color code
 Covers the edge of the sheet and gives a secure, finished edge.

1-Part joint strip

8'2" G831/25/* add color code
 9'10" G831/30/* add color code
 Vertical joint strip used to join adjacent sheets includes neoprene seal to make the joint watertight.

1-Part concealed transition strip

8'2" G835/25
 Used as a leveling strip between two surfaces so that one can overlap the other.

2-Part start and edge trim

8'2" A833/25/* add color code
 9'10" A833/30/* add color code
 2-part transition piece used to finish a raw edge of Altro Whiterock i.e. top edge of wainscoting.

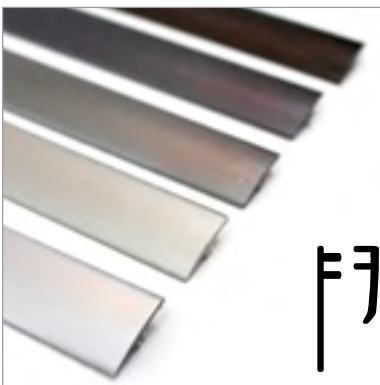

2-Part joint strip

8'2" A831/25/* add color code
 9'10" A831/30/* add color code
 Joins two wall panels together to create a smooth finish in areas where heat welding isn't viable.

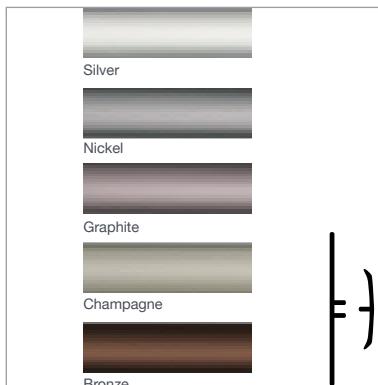

2-Part cut tile transition strip

A832/25/* add color code
 Used as a transition piece between Altro Whiterock and flashed covered flooring.

2-Part start and edge trim

8'2" A833/25/* add color code
 9'10" A833/30/* add color code
 Metallic visual 2-part transition piece used to finish a raw edge of Altro Whiterock wall designs i.e. top edge of wainscoting.

2-Part joint strip

8'2" A831/25/* add color code
 9'10" A831/30/* add color code
 Metallic visual strip joins two Altro Whiterock wall designs panels to create a smooth finish in areas where heat welding isn't viable.

Sanitary sealant

White - A802
 Clear - A803
 Color - A805/* add color code
 For creating a hygienically-sealed edge.

AltroFix W39 2-part adhesive
W39

For adhering Altro Whiterock on both porous and non-porous substrates, in wet and high humidity environments and when heat welding is specified.

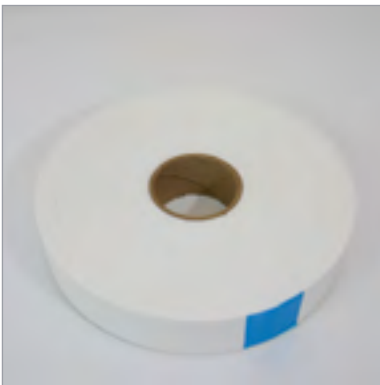

W165 Tape adhesion promoter
W165

Ensures tape adheres properly to substrate.

AltroFix W157 acrylic adhesive
W157

For adhering Altro Whiterock on porous substrates and dry applications only.

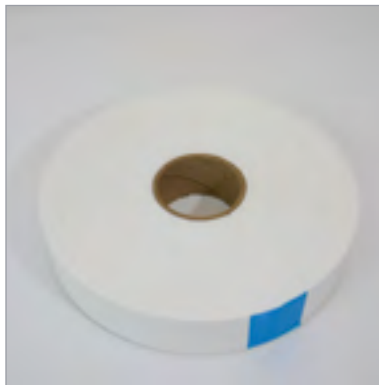

Double-sided foam tape

1" A815/116

2" A815/216

1/16" thick foam mounting tape used for installing Altro Whiterock when heat welding seams.

Double-sided foam tape

1" A815/132

2" A815/232

1/32" thick foam mounting tape used for installing Altro Whiterock when heat welding seams.

Double-sided butyl tape

A815/30

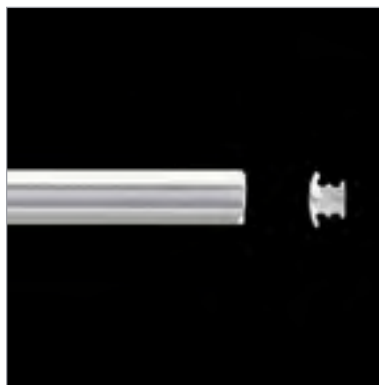

For installing Altro Whiterock panels while using joint strips.

Weldrod

WSR* add color code

PVC welding rod for use with Altro sheet vinyl wall cladding.

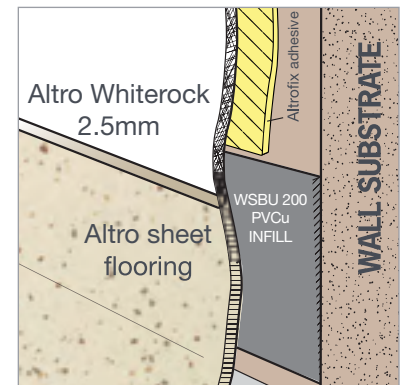

FlexiJoint strip

FJ01/3MH

FJ* add color code for coil

Unobtrusive, almost-invisible joints for installing Altro Whiterock panels. Available in white strips and custom coils.

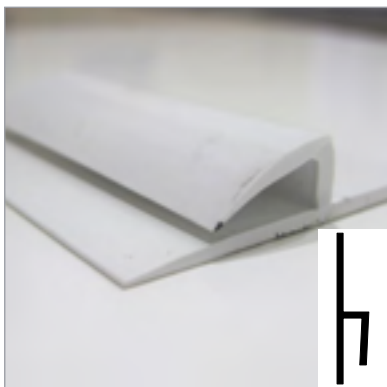

Heat weld backer

WSBU200

Vinyl shim backer for creating a solid and smooth transition between floors and walls when heat welding this seam.

Altro Whiterock accessories continued

C8 Cap tile strip

C8

Rigid "h" shaped vinyl transition cap w/8mm shelf to be used between flash covered sheet flooring and Altro Whiterock

C4 Cap tile strip

C4Cap

Pliable "h" shaped vinyl transition cap w/4mm shelf to be used between flash covered sheet flooring and Altro Whiterock.

FlexiJoint steel spacers

FJS/3.4

Used for setting the gap between panels accurately when using Flexijoint strips.

Stainless steel corner protector

4' A861/12

8' A861/13

Protects external corners in high traffic areas.

Shower Recessed Shelf

A900

A factory formed hygienic insert that can be welded directly to panels, offering a water-tight, rust-proof shelf for your shower toiletries.

1-Part stainless steel joint strip

A855

Joins two stainless steel wall panels together to create a smooth finish in areas where stainless steel is required.

Altro Puraguard accessories

AltroFix W157 acrylic adhesive

W157
For adhering Altro Puraguard on porous substrates, in dry applications only.

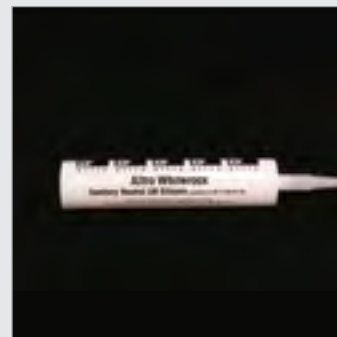

AltroFix W39 2-part adhesive

W39
For adhering Altro Puraguard on both porous and non-porous substrates and in wet and high humidity.

Altro W147 Spray adhesive

W147
Non-toxic, water-based adhesive used for Altro Puraguard wall panels.

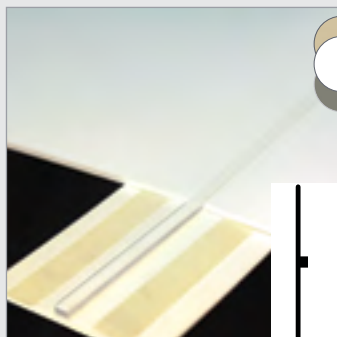

Sanitary sealant

White - A802
Clear - A803
Color - A805/* add color code
For creating a hygienically-sealed edge.

1-Part joint strip

G731/30/*
"H" shaped transition strip that joins two Altro Puraguard panels together. Available in Salt(white), Pepper(gray) and Barley(tan).

1-Part Altrotite gasket trim

A840/30/*
Trim piece used between two Altro Puraguard panels to join unobtrusively. Available in Salt(white), Pepper(gray) and Barley(tan).

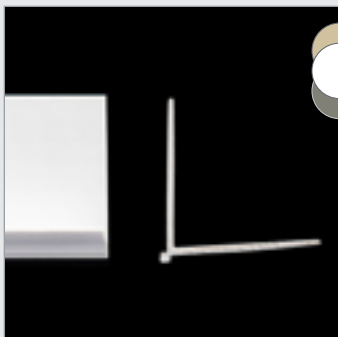

1-Part start and edge trim

G733/30/*
"J" shaped piece used to finish off Altro Puraguard panel at top or sides (i.e. top of wainscoting). Available in Salt(white), Pepper(gray) and Barley(tan).

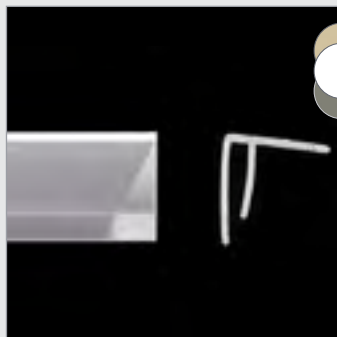

Stainless steel corner protector

4' A861/12
8' A861/13
Protects external corners in high traffic areas.

External corner cover

A839/30
"L" shaped piece used to finish off where the Altro Puraguard meets an external corner. Available in Salt(white), Pepper(gray) and Barley(tan).

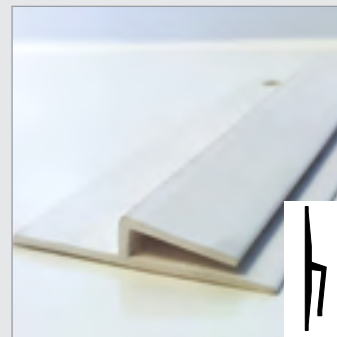

Internal / external corner trim

A826/30
"F" shaped piece that can be used to finish off Altro Puraguard at internal and external corners. Available in Salt(white), Pepper(gray) and Barley(tan).

C8 Cap tile strip

C8
Rigid "h" shaped vinyl transition cap w/8mm shelf to be used between flash covered sheet flooring and Altro Puraguard.

C4 Cap tile strip

C4Cap
Pliable "h" shaped vinyl transition cap w/4mm shelf to be used between flash covered sheet flooring and Altro Puraguard.

Becoming a recommended installer

The goal of the Altro training academy is to train and qualify a network of professional flooring and walling installers who wish to become part of a specialized group of recommended Altro installers and fitters. The academy is ideal for flooring installers, general contractors, and carpenters looking to learn how to install these specialized commercial products. Altro stands behind our installers and always recommends that customers use Altro trained installers.

Two training centers are located in the United States. They are located in Wilmington, Massachusetts and Santa Fe Springs, California. We also have a Canadian facility located in Mississauga, Ontario. Typical installation scenarios are integrated with best practices for a better, hands-on, learning experience.

Flooring curriculum

- Adhesive application
- Scoring
- Trimming
- Corners
- Heat-welding
- Flash-coving
- Integrated drains
- Best practices

Wall curriculum

- Adhesive application
- Surface preparation
- Wall fitting
- Grooving
- Joining
- Heat-welding
- Flexjoint
- Transition strips
- Thermoforming
- Best practices
